# ENHANCE AND ENLIGHTEN

*"Each lighting fixture I design comes from many hours of one-on-one time listening to my clients and hearing about the designs they find most livable and approachable. I'm excited to be able to incorporate that insight and information into my lighting collections for Crystorama."*

*The Sylvan Collection was created for homeowners who love lighting that is grand in scope but not clunky and oversized. The sleek lines and angular details of the outer frame is softened by the texture of the shades and the curved lines of the arms. This collection features graceful, sloping, polished nickel arms with white linen shades.*

*"The Sylvan Collection strikes a delicate balance featuring a traditional style with a modern style."*

*"Relying solely on recessed lights can add a cold feeling to a space, while incorporating a hanging fixture can add a completely different level of light as well as anchor the design of the room. A chandelier or pendant fixture can visually help delineate a space and add a chic focal point then it becomes a place for the eye to rest while glancing through a room."*
