TREND: THE *NEW* TRADITIONAL

INTERIOR DESIGNER *COREY DAMEN JENKINS*

"My goal is to ensure that my clients' homes are always classic, chic and without an expiration date," says nationally acclaimed designer Corey Damen Jenkins. "I take cues from the fashion runways, so vibrant color, layered patterns, and strong architectural bones are trademarks of my work." The country has taken notice. Jenkins has been featured in *Traditional Home*, *The Wall Street Journal*, *House Beautiful*, *Domino*, *Architectural Digest* and *HGTV*. But at the end of the day, for Jenkins it's still all about his clients, who seek his expertise from locations as diverse as Michigan and New York to Dusseldorf and Shanghai. "They inspire me and keep me grounded."

Trend:

Decorative lighting can either bring a room to life or it can sound its death knell. Striking a balance between honoring traditional designs of the past, while embracing a fresh, modern vision for the future is my design passion.

- Corey Damen Jenkins

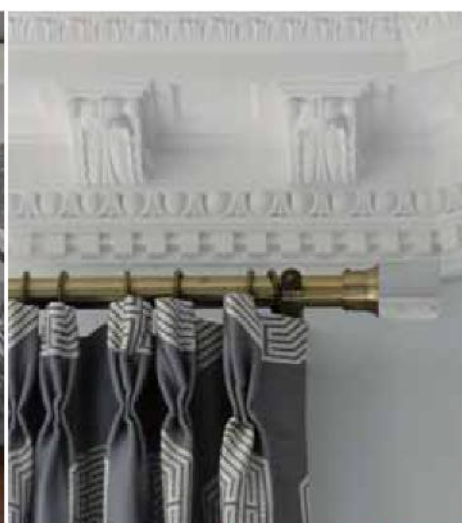

TREND: MAXIMALISM *MORE IS MORE*

INTERIOR DESIGNER *MEREDITH HERON*

Meredith Heron is a sought after designer and television host whose work is an eclectic conversation with color, pattern and texture. Based in Toronto Canada, her namesake design firm works on luxury residential projects across North America. Heron's obsession is color.

Whether layering hues inspired by Roman church doors, or the ombre of Fall leaves in the rain, she combines it with sumptuous, mosaics of pattern, the clean lines of Regency or Louis XVI-inspired furnishing and modern accessories to create rooms that feel glamorous, feminine and familiar. Even in monochromatic spaces, her attention to texture and detail reflect a well-traveled and convivial design vocabulary, spoken in luxurious and personal, spaces made for play.

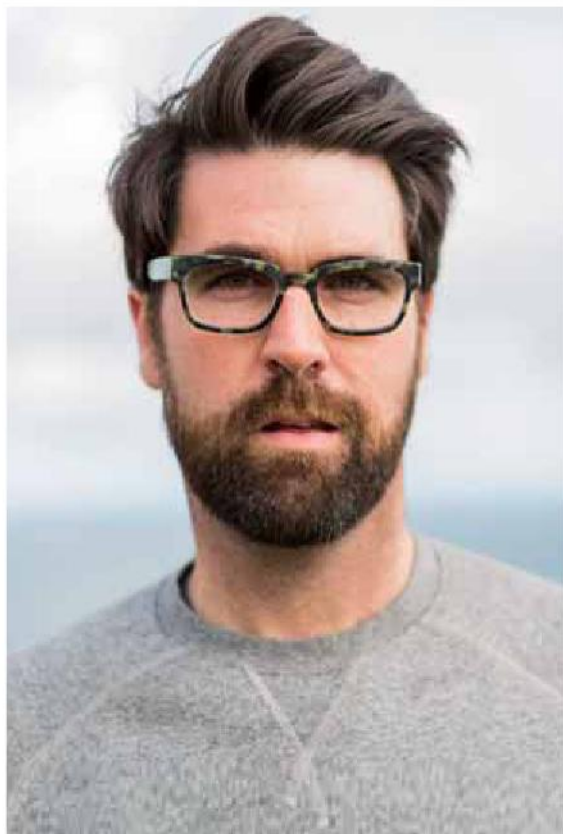

Trend:

As a Modern Traditionalist, I am thrilled to see the return to Maximalism and Layered decorating. More is more in my world. Pattern on pattern, saturated colors and textures, layered with a mix of periods and styles in both architecture and furniture selection. Embellishment and adornment are hallmarks of the Maximalist.

- Meredith Heron

TREND: ARCTIC ELEGANCE

INTERIOR DESIGNER
BRIAN PATRICK FLYNN

Brian Patrick Flynn is an American interior designer and decorator with a background in production design for TV and film. Known for his eclectic mashup of design styles, mix of high and low price points, fresh approach to prop styling, and an unconventional use of color, Brian's interiors are best described as approachable, warm and welcoming. With an American base in Atlanta and a European base in Reykjavik, Brian's frequent adventure travels throughout the arctic and Nordic territories help shape his ever-evolving aesthetic.

Trend:

A growing interest in the rugged, untouched beauty of Antarctica, Iceland and Greenland, faraway places known for inspiring uses of natural resources, handmade artisanal goods and other worldly landscapes which are inspiring designers and architects worldwide.

- Brian Patrick Flynn

TREND: VINTAGE-THE *NEW MODERN* *CLASSICS*

INTERIOR DESIGNER *SHAY GEYER*

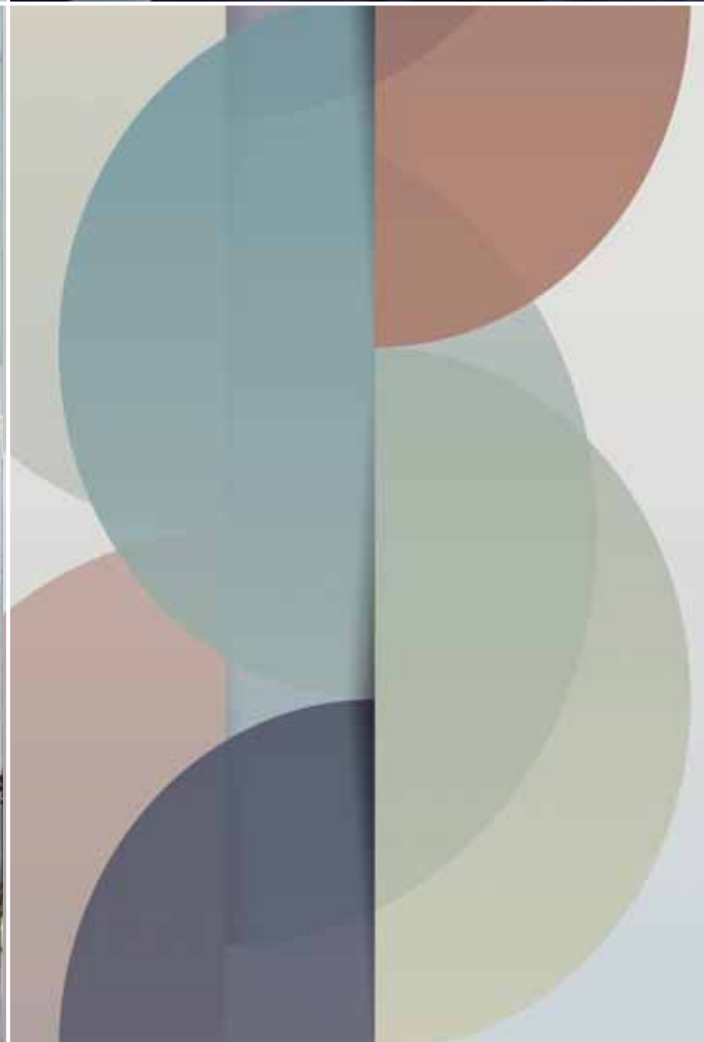

Native Texan, Shay Geyer has been designing professionally since 2001. Shay's passion for interiors and interior products makes creating beautiful spaces for clients a true dream job. Inspired by traveling, the arts, family and friends, she considers each day an opportunity to learn and grow from experiences to enrich her life as a designer. Whether starting from scratch or giving new life to existing pieces, Shay's goal in design is to create an inviting atmosphere that reflects the personal taste of each client. House Beautiful, Modern Luxury Dallas, The Dallas Morning News, Paper City, Interiors Texas, Dallas Style & Design and other print publications have featured Shay's design work.

Trend:

Timeless, yet modern! My clients value furnishings that are both classic and current. My projects are often regarded as livable luxe. I like to infuse unique elements and statement pieces to my projects, but still offer a comfortable family friendly living space.

- Shay Geyer

TREND: THE *GOLD* STANDARD

INTERIOR DESIGNER *LIBBY LANGDON*

Designer, author and makeover TV personality, Libby Langdon is the creative force behind New York City-based design firm, Libby Interiors, Inc. Langdon's residential and commercial projects embodying her easy, elegant, everyday style, have won widespread fans and industry acclaim and she is fast becoming known for her growing collections of branded home furnishings products. Langdon's decorating is featured on the covers of and within leading shelter magazines including Architectural Digest, House Beautiful, Traditional Home, Better Homes and Gardens, Glamour and Woman's Day. Langdon is a regular design expert on NBC's TODAY Show and has shared her home makeovers and real-life design advice on popular shows including: HGTV's Small Space, Big Style, The Rachael Ray Show, The View, and NBC's Open House.

Trend:

With the Gold Standard's recent resurgence in the home furnishings industry, we know it's a trend with real lasting power. Mixing metal finishes by combining cool and warm metal tones together in the same room can add depth and dimension to a design.

- Libby Langdon

HURLEY COLLECTION

The Hurley Collection is a modern spin on classic lantern lighting. Characterized by its chunky lines, massive scale and fresh polished nickel finish, the Hurley offers a semi-flush mount excellent for any room in the home, statement chandeliers ideal for foyers, hallways or grouped together above kitchen islands, and wide profile pendants which work perfectly above dining room tables.

The Alston Collection is a play on simplicity and shape. In contrast to the simple lines are the oversized rectangular chain links that make a fresh design statement. Available in cylindrical and drum shapes, these fixtures work well grouped in multiples or singularly over a table.

D

D. 528-SA CHANDELIER

The image shows three identical tiered chandeliers hanging in a bright dining room. Each chandelier is composed of multiple tiers of thin, circular discs made of natural white capiz shell, set within a metal frame. The discs are arranged in a grid pattern, creating a shimmering, textured effect. The chandeliers are suspended by chains and have a curved metal handle at the top. In the background, there is a large window with white frames and light-colored curtains. In the foreground, a wooden dining table is partially visible, along with several light-colored upholstered chairs. A black candle holder with two white candles sits on the table.

BUYER'S GUIDE TO CRYSTAL

Swarovski® Strass Crystal (CL-S)

The Seal “crystals from Swarovski” serves as a certificate of authenticity for products with genuine Swarovski crystals. Considered the finest crystal in the world. Swarovski branded crystal is manufactured by Swarovski AG in the Austrian Alps. Optically pure and free of flaws, the crystal is perfect in every way. All the crystals are treated with an invisible coating, which eliminates dust attraction and makes it easier to clean. Each crystal of 12mm in size or larger is indelibly etched with a trapezoidal marking to signify that you have purchased the most perfect crystal.

Swarovski® Strass Golden Teak (GTS)

Swarovski Golden Teak crystal color is coated to give warmth and elegance. Every piece carries the Swarovski branded signature and guarantees optical purity, quality and true value found in Swarovski.

Spectra Crystal (CL-SAQ) Reliable crystal quality by Swarovski®

A passion for perfection has made Swarovski a world leader in the production of cut crystal. Swarovski has used advanced technology with old world knowledge to produce a brilliant crystal with precision cutting and superior light reflection. This crystal type is designed for a crystal connoisseur demanding quality at an affordable price.

Hand Cut Clear Crystal (CL-MWP)

The hand cut crystal is cut by hand in two stages on an iron wheel and then on a sandstone wheel. Each crystal is then polished on a wooden wheel with marble dust. These methods go back centuries. If you look closely you will notice faint traces of the wood-wheel attesting to the concentrated labor of the artisan; this is a mark of authenticity. Each piece is a unique and an original masterpiece.

Hand Cut Golden Teak Crystal (GT-MWP)

The Golden Teak is a transparent crystal of a high degree of brilliance. The fire and brilliance of the crystal comes from the reflection of light passing through the prism. The soft glow of the Golden Teak color is added to the crystal and then hand polished on a wooden wheel. The soft tones of the Golden Teak crystal add warmth to any décor.
