EGLO USA

EGLO ILLUMINATES GLOBALLY

In 1969 Ludwig Obwieser founded "EGLO Leuchten" and by 1976 the first business office was constructed in Pill, Tyrol (Austria). As early as the mid 1980's EGLO was already firmly established as one of the leading lighting manufacturers in Europe. It wasn't long before expansion into new markets became a priority and the opening of the first sales division in Germany laid a solid foundation for international business. Consistent development of new markets opened the opportunity to establish more business offices around the world. Today EGLO is the second largest manufacturer of decorative lighting worldwide. All 54 of EGLO's subsidiaries manage their respective marketplace. Our success is directly related to our customers' satisfaction, which makes us very proud.

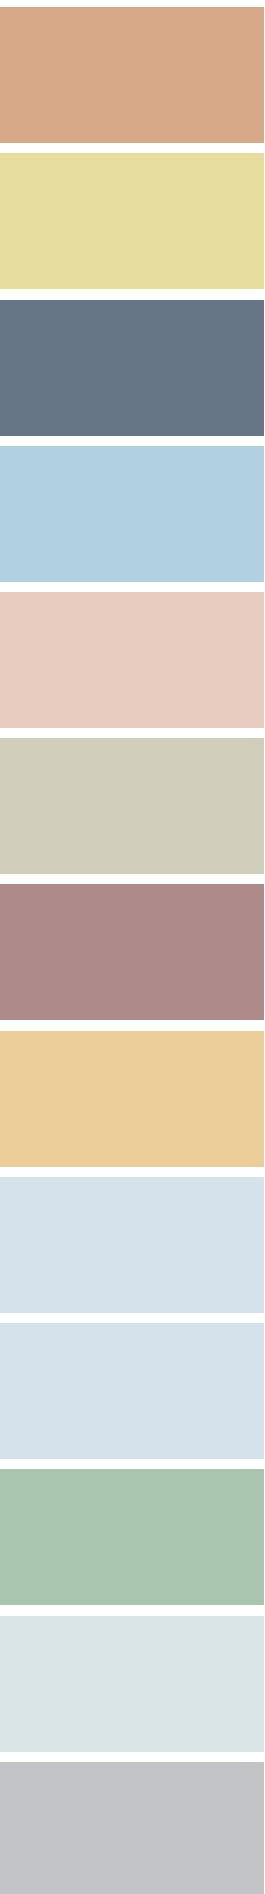

OUR PROMISE

Global organization is key to the manufacturing and distribution of our lights. Innovative market research, detailed orientation and a flexible plan lead the way to long-lasting business partnerships.

With offices on five continents and distributors in over 50 countries, we are able to handle local and international demands.

At EGLO we focus on decorative lighting for living spaces. Starting with the living room, bathroom and kitchen right into the outdoor areas of your home. Our lights satisfy a wide range of styles and tastes and whatever fixture you get will be of the highest quality. Everything we do, we do properly with superior customer service.

IP RATING

The IP (protection rating) ensures the operational safety of light fixtures. The first number indicates the grade of protection against corrosion. The second number indicates the grade of protection against humidity. All fixtures in this catalog have a protection rating of at least IP20.
