About The Company

E.L.K. was founded in Eastern Pennsylvania in 1983 by three industry experts, Adolf Ebenstein, Jonathan Lesko, and Russell King. Since the company's inception, a commitment has been made to deliver innovative, quality product with designer appeal and conscientious value. Today, those lasting traditions endure.

We offer a comprehensive suite of exclusive products to embrace your home with style and sophistication. An award winning team of international designers and engineers ensure that each product is created with uncompromising detail and unparalleled design. With our extensive in-house design department and our domestic and overseas manufacturing facilities, we provide custom products for commercial and residential specifications. Additionally, all of our products are supported by a knowledgeable customer service and technical team that are available to make sure your buying experience is enjoyable and hassle-free.

We are exceptionally proud to be a trusted lighting manufacturer for such brands as Trump Home™, mary-kateandashley, and George Vanderbilt's Biltmore Estate. ELK products are also available at the finest lighting showrooms throughout the world, as well as our permanent showrooms in Dallas, Las Vegas, Hong Kong, and at our global headquarters in Pennsylvania.

In this latest release, we stay true to the principles of our founders delivering customers distinctive merchandise with expert craftsmanship. With over 350 new designs, we offer designer finishes, styles, and proportions to be at the forefront of the industry's trends.

From our family to yours, we greatly appreciate your business.

Sincerely,

Mark J. Fludgate
President

ABINGTON

The "pendelier" combines the attributes of a drum pendant and a chandelier. Abington was designed with classic details integrated into a transitional drum form, making it suitable for either décor. Two rings of highly detailed filigree surround a cream fabric drum shade creating depth and visual interest. Finished in antique brass.

ZARAH

The Zarah pendant offers modern design elements coupled with high quality craftsmanship. A fabric drum shade provides the backdrop for a polished nickel finished frame and laser cut ovals literally link together like a chain, this pendant combines cutting edge style and jewelry-like appeal. A frosted white glass diffuser emits a soft yet functional light.

GEORGIAN COURT

During the mid-eighteenth century, the Georgian style became immensely popular, not only in England, but also in Colonial America. The "Colonial" home was influenced by the Georgian style, characterized by a sense of proportion, balance, and carefully thought out details. Furniture and objects of the time were of a larger scale, yet with a lighter feeling than earlier periods. This lighter feeling transmitted grace, elegance, and prominence, and allowed details to become more of the focal point, rather than the principle elements of the structure. The Georgian Court Collection reflects those earlier influences with a well-balanced proportions, attractive brass finished details, and amber glass with a marbled finish and decorative ring.

WELLINGTON

Nestled in the Blue Ridge Mountains of Asheville, North Carolina, Biltmore™ was the vision of one man, George Vanderbilt, who not only hand picked priceless furnishings from around the world, but also selected the architects and artisans that helped turn his idea of a country retreat into awe-inspiring reality. Construction began on the largest private home in America in 1889, and features a total of 250 rooms, including 34 family and guest bedrooms, 43 bathrooms, 65 fireplaces, and the latest in 19th century technology and amenities such as elevators, refrigerators, an indoor swimming pool, and a bowling alley. Equally beautiful are its grounds, which contain 8000 acres of carefully manicured gardens. Biltmore was formally opened on Christmas Eve in 1895 with Mr. Vanderbilt hosting his family and friends for a holiday celebration. Today, the estate's magnificent beauty and tranquility can be enjoyed just as Vanderbilt's guests did in the 1900's.

LEGACY

Traversing Biltmore House, one can see beautiful Baroque ironwork on the Library balcony, and a more Gothic design in the Grand Staircase chandelier. The Legacy collection combines elements of both of these influential styles, but with the casual elegance of today's lifestyles. This series is finished in Dark Umber and includes cream fabric shades.

WILLIAMSPORT

Recalling an age when workmanship was paramount and lamp makers took pride in carefully scrutinizing every detail, the Williamsport collection captures this same historic charm and timeless elegance. This series is crafted of solid brass castings and turnings bathed in a Vintage Brass patina and topped with blown opal glass or pleated cream fabric shades with solid brass framework. Each fixture is supported by high gauge decorative tubing reminiscent of the gas lighting from the late 1800's, lending themselves to become family heirlooms for future generations.

PROVIDENCE

This series provides a wide array of shapes and styles for your individualized taste. Each piece of glass is hand-worked by master artisans who sculpt and finesse molten glass into a work of art. The rich color and texture is created from layers of glass fragments that are embedded inside the surface of the glass, giving each piece its own sparkling characteristics. The entire Providence collection is available in clear glass with antique silver leaf hardware or caramel glass with antique gold leaf hardware.

HERITAGE

This series is a tribute to England's first porcelain manufacturers dating back to the mid-18th century. Factories of the time developed product for the aristocratic market. Although many are no longer in operation, the techniques used then still apply today of hand working molds and patterns. The strength and non-porous nature of porcelain allow intricate details and shapes as evidenced in the exquisite flowers accenting this series. This collection has crystal accents and intertwined branches finished in Deep Rust or Cream.

VITENZIOSO

Appropriately named from the Italian words "licenzioso" (wild), and "vite" (vine), Vitenzioso is an expression of nature at its finest. Finished in Weathered Silver Leaf and Antique Beige, this collection has hand-formed caramel glass and multi-hued glass accents. The free-flowing branches and intricate leaf details create a vibrant, energetic appeal.

HUARCO

The true source of the Amazon was discovered in 1953 to be a small stream, The Huarco, in the Andes Mountains of Peru. The thick canopy of foliage that surrounds this meandering waterway was the inspiration for the collection. The refreshing green leaves invoke a feeling of a tropical rain forest. Complimenting the mouth-blown amber glass, the base of each blossom is adorned with chestnut hues clasp clear crystal droplets.

Affordable Luxury Comes Home™

TRUMP

HOME™

Trump Home™ lighting reflects elegant design and classic appeal. Inspired by the mansions and historic properties of Donald J. Trump, three collections have been beautifully crafted with the finest materials and high attention to detail.

Mar-a-Lago™ is inspired by the magnificent and opulent design of the Mar-a-Lago Club in Palm Beach, Florida. Incorporating stunning Old World elements of Spanish, Venetian and Portuguese styles, the elaborate detail and extraordinary history of Mar-a-Lago™ has been captured in each piece.

Westchester™, the traditional design collection offers grand, large-scale luxury manor appeal. Inspired by estate living, the designs find their roots from various properties including Seven Springs Estate in Westchester County, N.Y. and Trump National Golf Club in Bedminster, N.J.

Central Park™, the more contemporary collection of Trump Home™, has a metropolitan feel and is inspired by the Manhattan lifestyle. It is a sophisticated take on modern living with styled proportions, clean lines, and a touch of Art Deco.

Trump Home™ allows you to live richly without spending a fortune.

REFRACTION

A refraction is defined as a bending of a wave path of light. The Refraction collection captures this fascinating phenomenon with elements that seem to reflect off a stationary object and bounce into various trajectories. A Polished Chrome finish blends well with clear and etched glass for a refined look, or available with optional colored glass for a rich up-scale look.

ALEATRA

Hand-crafted in Portugal, the Aleatra collection showcases an eclectic array of "sculptured" fixtures. Each item displays individual artistic character, yet common cohesiveness is achieved with stunning hand-formed glass accents and a genuine gold leaf finish. Coordinate these fixtures into an upscale environment or infuse a modernistic conversation piece into your existing décor.

BELA IGUAZU

Iguazu Falls, one of the natural wonders of the world, lies deep within the Amazon Jungle in South America. This spectacular area of the world produces some of the most exotic flowers and plant life ever seen. The Bela (Portuguese for Beautiful) Iguazu Collection reflects this natural beauty of the jungle with the vivid colors of the hand formed glass flowers and the texture of the solid cast bronze frame. This bronze frame is finished in a genuine Silver Leaf finish and resembles a group of vines dangling from the canopies of the forest.

NATURAL
MATERIALS

ROXANA

Named after the Philippine province of Capiz from which the vast amount of the world's supply comes from, capiz shells have been used for centuries to accent furniture and accessories. The tranquil beauty and soft luster of these shells are transformed into brilliant mosaics in the Roxana collection. Carefully cut and pieced together onto glass, each shell is all natural and contains random hues and lusters that contribute to its depth and beauty. This becomes apparent when lit, as the shell's translucency allows its characteristics to show through. Embedded within the mosaic is an attractive ring of amber and rose glass beads adding contrast and jewel-like qualities. Choose from Polished Chrome or Aged Bronze finishes.

CARNELIAN

The Carnelian stone has been important to many throughout world history. As far back as the 3rd century B.C., this stone has been widely used as jewelry, which was recently discovered in Egyptian tombs. In Europe, ancient Greeks and Romans used Carnelian as signet rings and cameos due to its deep, rich colors and translucency. These are the same attributes that make this genuine stone appropriate for lighting. Various hues of amber, brown, and deep red offer a warm glow of light, while each stone's rough texture pay homage to their natural origins. Finished in Tiffany Bronze.

ILLUMINARE

ILLUMINARE PART 1

Individuality is what defines this exquisite line of hand-blown glass. This ancient technique of fine craftsmanship ensures that quality and originality is at the heart of every piece. Each piece is meticulously hand blown with up to three layers of uncompromising beauty and style. This art is performed only by skilled craftsmen who uphold the highest standards to ensure a unique identity throughout each layer. This special technique of layering allows the light to spread evenly across the glass resulting in a warm glow over the entire surface.

The glass pendants in this section feature deep rich colors and a heavier hand-crafted look and feel. To achieve this, special production methods are used. First, the initial layers of glass are blown. While the glass is molten, secondary molten glass strips and pieces of contrasting colors, shapes, and sizes are applied in random patterns and melted into the original layers of glass. This process fuses the different layers of glass together causing the piece of it to become thicker and also allows the artist to form the glass into a more naturally flowing shape.

Due to its hand-made nature, each piece of blown glass will vary slightly in color and pattern.

FUSED GLASS MOSAIC

ILLUMINARE PART 2

Individuality is what defines this exquisite line of hand-blown glass. This ancient technique of fine craftsmanship ensures that quality and originality is at the heart of every piece. Each piece is meticulously hand blown with up to three layers of uncompromising beauty and style. This art is performed only by skilled craftsmen who uphold the highest standards to ensure a unique identity throughout each layer. This special technique of layering allows the light to spread evenly across the glass resulting in a warm glow over the entire surface.

The Illuminare Glass Collection offers a choice of many unique designs in a variety of colors and styles, allowing these Italian inspired works of art to be adaptable to any decor.

BARRINGTON GATE

The design of this series draws its inspiration from historic English Manor houses throughout the Southern region. The traditional design of the cast aluminum framework is accentuated with a Hazelnut Bronze finish and designer water glass.

PORTER

Using the latest in transformer free LED technology, the Porter collection uses a simple, yet classic design for refined elegance. Its slender profile keeps its extension to a minimum which is helpful in smaller areas or near walkways. Constructed of cast aluminum, this series has antique amber glass and a Hazelnut Bronze finish add to the warmth.

HAMILTON PARK

The park commission of Chicago created Hamilton Park in 1904. It is one of ten parks in the south side that were part of a revolutionary system of neighborhood parks designed by nationally renowned landscape architects, the Olmsted brothers. Captivating grace and grandeur with nature inspired simplicity echo the historic lighting fixtures present in that era. A weathered Charcoal finish on an elaborate solid cast aluminum frame is complemented with seeded glass.

SAN GABRIEL

During the late 1800's and early 1900's, Missionary padres from Spain created the California Mission style, which was a simplified version of centuries old Spanish architecture. This style was known for its simplicity of form with minimal ornamentation. The San Gabriel collection pays homage to this design philosophy with smooth, architectural lines and a choice of Hazelnut Bronze or Tarnished Silver finishes.

CHAUMONT

The English Tudor period brought about a design style that looked to its natural surroundings of the time. Homes were constructed of symmetrically arranged timber frames with an earthen material in-between, giving it the attractive "black and white" look so common with this style. The Chaumont collection updates this classical look with a solid cast aluminum frame, Matte Black finish with silver highlights, and cream glass.

KANSO

"Embracing the everyday, unadorned things in life is to embrace truth". Rarely has any one philosophy had such a clear and defined impact on a garden style as the indelible mark left by Zen on the Japanese garden. Kanso is one of the six basic aesthetic principals embraced by Zen. Simplistic styling, a key tenet of Zen, and cleanliness of form is a repeated motif in Japanese architecture. Constructed of cast aluminum, this series features an Aged Bronze finish with contrasting white glass.

HEDERA

BURBANK

The machine age of 1930's brought modernist shapes, precise lines and an industrial feeling to many products of that era. During this time, Burbank was the heart of the motion picture industry which greatly influenced this modern styling. This nostalgic series is offered with opal glass and a complimenting Clay Bronze finished frame.

BURBANK

GISELLA

The Gisella collection's clean, uncluttered form blends well with today's architectural style. Opal white glass with a matte black cast aluminum frame create an attractive, uncluttered display.

CONTI

Today's architectural expression emphasizes cleaner lines and simpler shapes. The Conti collection stays true to this design trend with rectangular etched glass and a matte black frame that merges smoothly into most facades.

SUNDBORN

Influenced from the minimalist, angular designs of Sweden, the Sundborn series utilizes simple forms to create "out of the box" style. A solid cast aluminum frame, finished in Tarnished Silver or Matte Black, cleverly surrounds an opal white glass column providing a sleek contrast between colors and material.
