

FINE ART LAMPS®

LIGHTING SINCE 1940

VOLUME 100

FINE ART LAMPS HISTORY

ORIGINAL LIGHTING DESIGNS HANDCRAFTED IN AMERICA AND SPECIFIED WORLDWIDE SINCE 1940.

In 1898, Max Blumberg established a glass factory in New York. His son Jack, founded Fine Art Lamps in 1940. The company has a long tradition of fine craftsmanship and artistry, and the name Fine Art Lamps was intended to emphasize this from inception.

HISTORY & MISSION — INSPIRED BY DESIGN®

Lamps and objects to contain light sources are among the earliest design efforts, meeting a universal need with the human instinct to beautify and decorate. Every age from prehistoric times has left behind its decorative lamps, torchieres, or lanterns made to burn oil, wood, or wax, usually the work of individual craftsmen working in clay, metal, glass, or stone. In our times lighting designs are made by organized industrial efforts. But when our company came into existence, the founders chose the name Fine Art Lamps to highlight a dedication to lighting design as an art form, an ancient tradition that would again be practiced by creative designers, artisans, and craftsmen.

Max Blumberg began his glass-making factory in the late 19th century, and by 1940 his son Jack founded Fine Art Lamps. He endeavored to gather the finest designers, sculptors, artisans, and decorative artists, many of whose talents had roots in the ancient crafts of Italy where they were born. From the beginning, Fine Art Lamps has been a design leader, creating true works of art – innovative designs, beautifully crafted forms of metal, glass, and unique materials with exquisite finishes. In the process, the company developed an artistic standard that has come to symbolize the Fine Art Lamps name today.

Since 1965 Jack's son Max has carried on the commitment of grandfather and father to design excellence and superb workmanship. In 1976, the company moved to Miami and expanded to a state-of-the-art 400,000 square foot facility. Fine Art Lamps is proud of its pledge to manufacture in the United States of America, based on the belief that this insures design integrity, quality control, reliable delivery, and personal service. Today there are Fine Art Lamps galleries in over sixty-five countries around the globe.

Fine Art Lamps has been honored with numerous design awards, including the prestigious ARTS® Manufacturer of the Year Award an unprecedented nine times, and the company was recently inducted into the ARTS® Hall of Fame. Our unique designs are copyrighted and protected by several patents. Today our devoted team of in-house design and development specialists continues to explore new concepts. But the past is always present: Fine Art Lamps' collections from the 1940s and 50s have been shown around the country in museum retrospectives of the best decorative products of the era, and all our new designs continue to uphold the company's original mission.

QUALITY & CRAFTSMANSHIP — INSPIRED BY EXCELLENCE

Beauty is nothing without quality – and for over a century, Fine Art Lamps has adhered to the highest standards of craftsmanship and durability to provide a product worthy of our customers' confidence. All principal design components are manufactured in-house, from glass-blowing to metalwork, under the strict supervision of the industry's foremost craftsmen and engineers. And before ever leaving our facilities, each piece is pre-assembled and rigorously tested by Fine Art Lamps' stringent quality control process.

In all, Fine Art Lamps represents the singular vision of over 700 skilled designers, craftspeople, artists, and associates, working together to create unique works of art – an intricate blend of Old World tradition melded with New World innovation.

FINISHES & CUSTOMIZATION — INSPIRED BY DETAILS

Exquisite finishes are the trademark of all Fine Art Lamps collections; many of the finishes require dozens of steps and applications to achieve the desired effect. Each piece is handcrafted with a unique finishing process, making it a one-of-a-kind work of art.

Through Fine Art Lamps' exclusive Customization Program, many of our products can be tailored to create your very own work of art. The Program allows you to select the finish, choose the shade type and make minor design modifications.

The Fine Art Lamps Customization Program offers added range and flexibility to enhance the décor of discerning Fine Art Lamps' owners around the world. Ensuring that the human instinct to beautify and decorate will be satisfied once again.

WWW.FINEARTLAMPS.COM

Log-in now to experience our most current and up-to-date comprehensive product line. Our enhanced website features, expanded search capabilities with filters, dynamic high resolution images, project tools and video content. Fineartlamps.com is also home to our comprehensive digital product catalog. This dynamic downloadable, page-turning, fully searchable, and e-mailable edition has consolidated our entire active product assortment, including product not featured in our printed catalog, into one reference tool.

As an American manufacturer with a global audience, our site displays both English and Metric size and weight specifications in tandem and will provide access to installation instructions and other technical diagrams assisting the designer and end-user in their lighting planning and acquisition.

For questions regarding our site or digital catalog, please contact marketing@fineartlamps.com.

CRYSTAL BAKEHOUSE

— AVAILABLE IN SILVER, SILVER LEAF OR BRONZE —

Carefully hand-casted by skilled craftsmen, our art glass may exhibit occasional small bubbles and/or surface variations which are characteristics of hand made glass, making each piece unique. Variations in color and pattern are also acceptable. These unique qualities are inherent to our design and manufacturing process and not considered defects. All items featured in this supplement were photographed with bright white, 4100K GU24 CFL bulbs.

CRESCENTS

— AVAILABLE IN WARM-TONED SILVER LEAF OR PLATINIZED SILVER LEAF —

In a totally new, aero-dynamic concept, unique crescent-shaped arms are hand-fabricated of sturdy steel, precision cut, then curved and fitted to form each cambered, three sided faceted arm. The arm supports one or more handblown crystal candles with a finely striated texture suggesting clear running dew drops. The dew-drop candles are lit to maximum effect by tiny halogen bulbs that are fully dimmable. The adjustable tapered faceted metal links carry the spirit of the arms upward to the canopy containing state of the art transformers.

CELESTIAL

Stunning fixtures and sconces inspired by the rings of Saturn and cascading stars on the galaxies. The metal rings in silver leaf are suspended by narrow silver-leaf metal rods and contain incandescent lights shielded by finely perforated metal diffusers, and casting light on the falling strands of hand-cut crystals cascading at the center. Each crystal is individually coated with a fine thin layer of silver to create a reflective surface while the crystals are still transparent. The light from the rings reflects off the crystals while more lights inside the cascades light the crystals from the within. The effect created by the inner lights and the outer lights on these unique crystals that are both reflective and transparent, is celestial, elegant, and dramatic.

CANDLELIGHT: 21ST CENTURY

AVAILABLE IN GOLD-TONED SILVER LEAF OR CLEAR SILVER LEAF

Faceted metalwork frames in a warm, gold-toned silver leaf finish accented by solid brass fittings or clear silver leaf accented with polished nickel fittings. Hand-blown patterned glass tapered candles with matching blown art glass panels in pale gold with gold-toned finish, or in white with clear silver leaf finish. The glass candles with tiny halogen bulbs and the illuminated glass panels are fully dimmable.

VOL DE CRISTAL

The Vol de Cristal Collection presents innovative lighting designs evocative of wings in flight. Graceful sweeps of tapered beveled crystals are precisely set in metal wings and feature an airy platinized silver leaf finish for a refined visual effect to uplift any traditional or contemporary setting.

CASCADES

Metal frames of warm silver leaf support dramatically bold cascades of hand-cut crystals delicately woven together and trailing away like water droplets. Light playing on the crystals recalls the effect of sun or moon light animating cascading water.

PORTOBELLO ROAD

Fine Art Lamps has created original designs in this vibrant spirit: strong lines that break with the past and form a bridge to the future. Portobello Road emits an aura of chic in gold leaf, silver leaf, or tortoisèd bronze, with hand-tailored silk shades.

All pendants include an adjustable 6' rod.

PERSPECTIVES

— AVAILABLE IN BRONZE OR SILVER LEAF —

Sculptural and structural, these lighting forms make a strong visual focal point that add a subtly varied and uniquely layered pattern of light in a room. Featured in a patinated golden bronze finish with shades of multi-tonal gold organza, or in a warm muted silver leaf finish with hand tailored laminated shades of multi-tonal white crepe and coordinating trim.

Slope ceiling adapter.
All pendants include an adjustable 6' rod.

ENTOURAGE

The Entourage Collection features lighting designs of iron in a rich bourbon finish with golden mist highlights. This collection includes pendants of intricate open-work metal cages revealing interior shades of hand-blown glass or shimmering gold organza. Chandeliers and sconces deliver visual delight with their streamlined geometric designs and a unique lighting effect through layers of perforated offset inner and outer organza shades creating an extraordinary lighting effect.

FUSION

The merging of aesthetics and techniques from diverse cultures transforms the science of fusion to an art. Its deceptively simple forms suggest the influence of Asian philosophies on contemporary design. The surface of woven bands or hammered bronze evokes the timeless beauty of traditional crafts. Fusion by Fine Art Lamps, the stunning result of merging techniques and cultures.

SINGAPORE MODERNE

— AVAILABLE IN BRONZE OR SILVER LEAF —

This collection is offered in two finishes — a warm muted silver leaf or a brown patinated bronze. Both feature complimentary translucent mica shades, glass panels, orbs and drops. All of these are combined to create a strong design statement and dramatic subtle lighting effects.

ENCASED GEMS GEM FINISH REFERENCE SHEET

This original collection features three beautiful finishes; vintage silver leaf, variegated gold leaf, and venerable bronze patina. Every style in the collection is available in each of the three finishes with two crystal gem options; all clear crystal gems or a multi-color gem configuration designed to compliment the finish color as shown above. To order the item with the finish and crystal gemstone color configuration desired, please use the item's six-digit style number that indicates the desired finish with the crystal gem color extension (-1 Multi-color, -3 Clear). For additional information please contact your Territory Manager or Account Service Representative. NOTE: Any other selection of single crystal gem colors will be processed through our Customization Program.

STYLE NO.	EXTENSION PER FINISH	GEM COLOR
Style #	-1	Multi-Color
Style #	-3	All Clear

GOLDEN AURA

The handcrafted iron frames are painstakingly finished in an aged gold patina with unique golden crystals which are designed to refract a warm, rich light. Shades are hand-sewn in silken pale taupe with metal filigree bandings in matching patina.

VILLA 1919

Wrought iron with shades of decorated mica, a mineral rare until the 19th Century, when reserves were found and mined in Africa. The lighting designs of Villa 1919, exquisitely hand-wrought of patinated iron, have delicately painted mica shades that cast a warm and welcoming glow.

CASTILE

Castilian decorative style in the 16th century inspires a collection of lighting which captures the beauty and Romance of Castile, through richly-wrought iron, with worn gold leaf highlights, gold-dusted blown glass, beige silk handsewn shades with antiqued trimmings, and warm-toned mica panels.

NEWPORT

Newport lends the luster of its name to a collection of lighting fixtures in iron with metal filigree galleries in burnished gold with silver highlights. Distressed mirror panels have a tunningly different look when illuminated from within. Taupe silk shades have unique matching metal filigree galleries.

LOUVRE

Inspired by the simple yet elegant lines of the lanterns that have adorned the arcades of the Louvre for centuries. In a fine bronze finish with clear blown glass, Louvre is a strong addition to many architectural styles.

CAPISTRANO

Featuring a warm bronze patina and striated champagne linen glass, these pieces offer a clean architectural design while emitting a warm inviting glow. The smooth finish and clean lines are complemented by details such as the chain and bolt shapes that carry the design elements throughout the collection.

Post mount (shown above) also includes adapter and
instructions for pier mount application (shown left).
Post not included.

How we measure INDOOR PRODUCT

PRODUCT TERMINOLOGY

ADA Applicable

Any product identified as 'ADA Compliant' is regulated to be installed in hospitality areas that are appropriate according to the American Disabilities Act.

Fixture Height

Height is measured from the BOTTOM-MOST to the TOP-MOST point on the product, including any finials or fixed links. See diagrams below.

Shade Dimensions

The width of a shade is measured as the shade is orientated on the product. For example, a hexagon shade width is measured CORNER-TO-CORNER, while an octagon shade is measured FLAT-TO-FLAT.

The height of a shade is measured along the side of a shade as orientated on the product. For example, a hexagon shade is the shortest distance from the top corner to bottom corner. This dimension is not usually vertical but slanted.

Standard Chain Length

Most of our fixtures include 6' of standard chain, rod or cable.

Additional chain kits are available for purchase, please contact Fine Art Lamps Account Services Department at 305.821.3850 for availability and pricing information.

How we measure OUTDOOR PRODUCT

PRODUCT TERMINOLOGY

Backplate Height

Some of our fixtures include backplates that affix to the wall for installation. Backplate height is measured from the BOTTOM-MOST to the TOP-MOST points of the backplate. See diagram below.

Fixture Height

Height is measured from the BOTTOM-MOST to the TOP-MOST points on the product, including any finials. See diagrams below.

Other Valuable Information

Standard Chain Length: Most of our fixtures include the following standard chain lengths:

Medium Lantern - 6'

Large Lantern - 8'

Grande Lantern - 8'

Additional chain kits are available for purchase, contact Fine Art Lamps Account Services Department for availability and pricing information.
