FIXTURE ASSEMBLY INSTRUCTIONS

Read and review installation instruction sheet before assembling the fixture.

1. Slide the Shade (H) over Socket (I) and secure Shade (H) by threading the Socket Ring (J) to Socket (I).

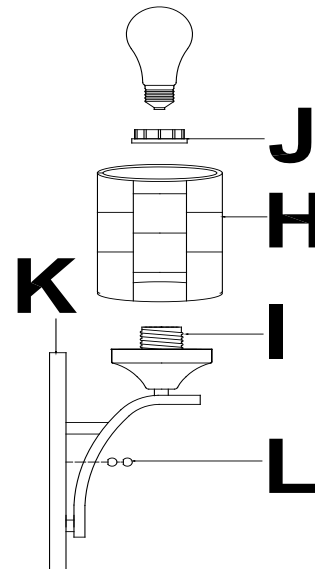

2. Install light bulb in accordance with the fixture's specifications.

(DO NOT EXCEED THE MAXIMUM WATTAGE RATING!)

NOTE: INSTALL THE SHADE ASSEMBLY AFTER THE FIXTURE IS HUNG.

1220-1W RT

For Customer Service, contact the place of purchase to arrange for replacement parts.

WARNING ! SHUT OFF POWER AT FUSE OR CIRCUIT BREAKER.

HANGING THE FIXTURE (Fig 1)

1. Carefully remove the new fixture from the carton and the yellow bag that holds all your parts. Check that all parts are included as shown in the illustration and parts list.
2. Shut off power at the circuit breaker and remove the old fixture from wall, including the old mounting strap.
3. The Mounting Strap (A) contains several pairs of threaded holes, find the pair of holes that match the holes spacing in your fixture Back Plate (K) and thread the two Mounting Screws (B) half way into the Mounting Strap (A).
4. Place the Mounting Strap (A) over the Junction Box (E) so the Mounting Screws (B) are vertical or horizontal, as required by fixture type.
5. Attach the Mounting Strap (A) to the Junction Box (E) by using the two mounting screws (D). Tighten the screws securely.

CONNECTING THE WIRES (Fig 2)

6. Attach the power supply wires to the fixture lead wires by connecting BLACK to BLACK (or SMOOTH) and WHITE to WHITE (or RIBBED).
7. Attached the GROUND wire (GREEN or COPPER) from the Junction Box and the fixture Ground wire to the green Ground Screw on the Mounting Strap (A) or connect both wires together using the correct size of wire connectors
- NOTE: Twist the wires together in the same direction you twist the wire connector onto the wires.
8. Tuck these wire connections neatly into the Junction Box.

FINISHING THE INSTALLATION (Fig 3)

9. Place the fixture Back Plate (K) over the Mounting screws (B), so they protrude through the holes in the Back Plate (K).
10. Thread the Deco Nut (L) onto the Mounting screws (B) and continue turning until the Back Plate (K) is snug against the wall.
11. Install shade and light bulbs as per the fixture assembly instructions

(DO NOT EXCEED THE MAXIMUM WATTAGE RATING)

Subject: Onyx Shade Material

Dear Golden Customer,

Beautiful grain, organic color and solid weight of Onyx make it a great material for use on a light fixture. Onyx is a semiprecious translucent stone with color ranging from white to deep browns.

Onyx shades are carved from natural stone, therefore actual colors and striations may vary slightly from one piece to the next. Because the stone is natural, please understand that each shade piece is unique and one of a kind.

Golden Onyx shades are considered to be within the range of an amber color. Of course, the manufacturer controls the basic color and attempts to match the best they can. We have worked with them extensively and agreed on an acceptable range of Onyx color. All Onyx shades provided by Golden have been inspected and found to be within our color limit.

Please accept this with our best intentions to supply you with an elegant Onyx shade.
