Functional Lighting Products Designed for Beautiful Rooms

Counterbalance style floor lamps allow for greater arm extension, thus more flexibility in directing light, as with the AB100-OB.

The MA14-OB mantel lamp provides up-light to accent a piece of artwork or a specific architectural feature.

Decorative table lamps, like the GS190-GM, add ambient light as well as personal flair to your space.

Desk lamps, like the P14-203, provide character and functional light to your work surface.

The PH100-91-J pharmacy lamp, provides targeted, downward light. When combined with arm and height adjustability, it makes an ideal task light.

TABLE OF CONTENTS

TABLE LAMPS

Desk/Piano  2-24

Battery Desk/Piano  19-20

Balance Arm  30-34

Pharmacy Desk  38, 57, 60, 62, 102, 125, 127

Decorative Table  43-44, 48-49, 61, 73, 80-81, 84, 90-93, 105-106, 110-123, 129-130, 135, 137-139

LED  19-20, 22, 24-26, 33-35, 57

PIANO CLAMP LIGHTS

Clamp-on Piano  25-29

Battery Clamp-on Piano  19

LED  19, 25-26

FLOOR LAMPS

Pharmacy Floor  35, 39, 41, 50, 63, 65-67, 73-76, 100-101, 128, 136

Piano Floor  35

Torchiere  99

FLOOR LAMPS

Decorative Floor  36, 45-47, 51, 53-54, 64, 76, 82-83, 85, 94-98, 105-106, 124, 132-135, 137

LED  35, 54, 65-67, 128

WALL LAMPS

Pharmacy Wall  37, 40, 57-59, 68-69, 103-104, 126

Sconces  77, 108-109, 140-147

Library  86-89

Decorative Wall Swing  42, 52, 55-56, 70-72, 78-79, 87-89, 107, 131, 148-156

Double Wall Swing  56, 75, 109,

LED  55-57, 59, 126

Ask yourself the following questions when choosing your picture light.

1. How will I power this light?

Direct Wire p. 159

Plug In p. 158

Battery Operated p. 162

2. What style of shade goes with my frame or decor?

Classic
p. 158

Contemporary
p. 163

Oxford
p. 167

Hyde Park
p. 165

Slim-line
p. 169

Horizon
p. 177

3. What type of light source should I use?

Incandescent
Warm yellow light 2700K
EFFICIENT
p. 158

Fluorescent
Warm white light 3500K
MORE EFFICIENT
p. 164

Solid State LED
Warm White 2700-3500K
VERY EFFICIENT
p. 171

4. What size picture light is best?

Measure the image (inside frame). Shade size depends on style:

CLASSIC

Shade width equals half of image.
p. 158

CONTEMPORARY

Shade width equals two-thirds of image.
p. 169

5. What finish should I choose?

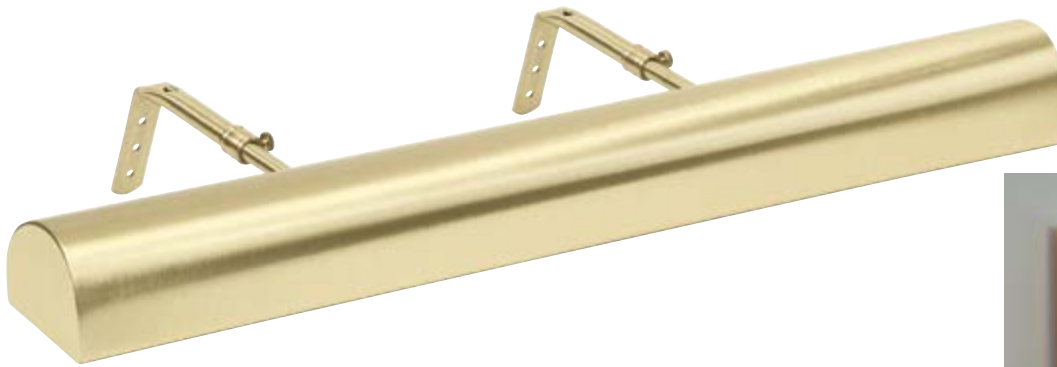

Choose finish to match frame. p. 188

Or match room décor.

Traditional Incandescent

Custom Direct Mount Lighting

Customizing House of Troy Picture Lights.

We are often asked for custom versions of existing products, especially picture lights. Picture Lights are easily adapted to lighting book cases and display areas. We have developed hardware to mount through any hard surface. These products are designed as cord and plug items and will require a receptacle to plug them into behind the soffit. Call our Customer Service department at 800-428-5367 for assistance in designing your direct mount product.

CD-T24-81

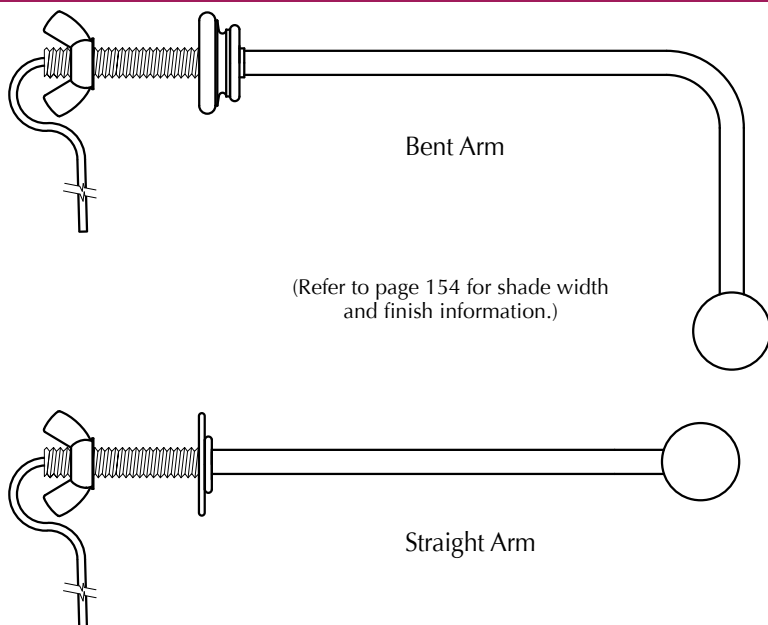

CD-SL16-51

Illuminate bookshelves with our Slim-line Library Lighting. The slim lamp profile is designed for interiors where reduced lamp visibility is desired.

Stoneware Lamps

Scatchard lamps are made by hand in our Vermont pottery studio. The lamps are slipcast in plaster molds which are built from the original hand thrown shapes.

The bases are trimmed and glazed by hand on a wheel, and then individually signed.

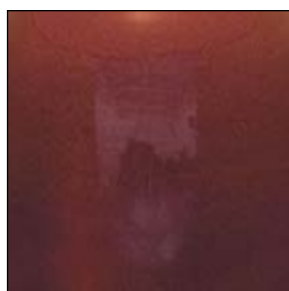

The lamps are then kiln fired to 2350° for 24 hours creating a highly durable body and complex depth to the surface finish.

Stoneware Glazes

The proprietary mix of clay and custom glazes, developed by George Scatchard through years of experimentation, in combination with the high fire reduction process creates a highly durable and beautiful stoneware product. Glazes are hand applied and may vary from lamp to lamp.

Product Finishes

Our Classic and Slim-line™ picture lights are offered in the most popular Finishes. If you would like a finish that is not stocked, call our customer service department for lead time and cost.

The antique and weathered brass Finishes are applied then rubbed by hand to achieve the proper effect. For this reason there are slight surface variations which are expected and desirable.

The stocked Finishes are listed on the product page. Refer to this page for a color representation of finish.

Questions & Answers

The following are answers to some of the most frequently asked questions about our products which should assist with your selection process.

Q. What are the benefits of LEDs?

- Low power consumption, energy efficient.
- No Ultraviolet or Infrared, kind to your art.
- Long life, LEDs last on average 30,000 hours.
- Environmentally friendly.

Q. Are House of Troy LED products dimmable?

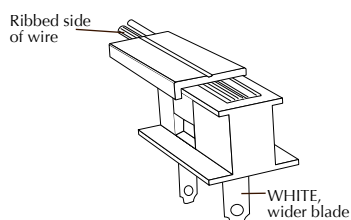

- A. All Direct Wire LED picture lights may be dimmed to 10% using a Universal Electronic Dimmer (i.e., Leviton IPL06). The plug in Slim-line LED series may be purchased with an optional remote control dimmer, SLED-RD).

Q. What size picture light should I use?

- A. Measure the width of the image and use a Classic picture light approximately one half the size, or a Slim-line picture light approximately two thirds the size of the image.

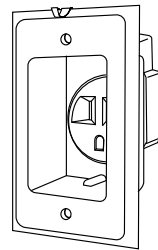

Q. Can I modify a cord length and add a polarized plug?

- A. Yes. We offer a UL approved snap-on-plug that can be attached to any standard UL approved SPT-2 cord. Instructions are included with plug.

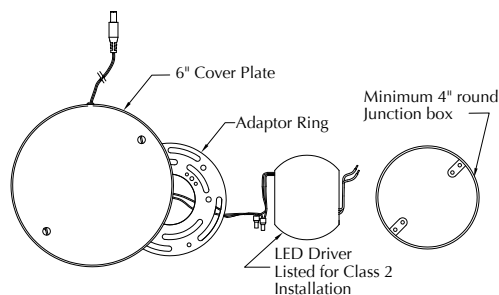

Q. Is there a way to eliminate seeing the cord?

- Install a recessed outlet (sometimes called a "clock outlet") behind the artwork.

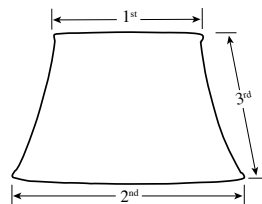

- Use our SLED43-CSII, class II installation kit with our Slim-line LED.

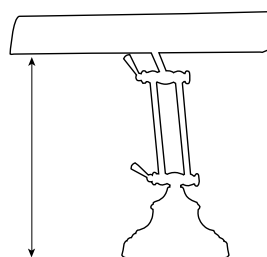

- Use a cord cover.
- Paint the cord to match the wall color.
- Place furniture, plants or other décor to hide cord.

Q. How are lamp shades dimensioned in the catalog?

- A. Top x Bottom x Side (slant).

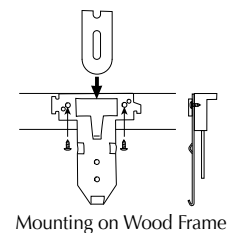

Q. How do you measure the height of a Desk/Piano Lamp?

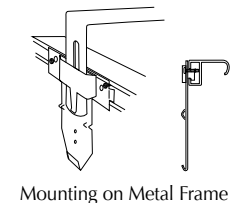

Q. How do you install a picture light?

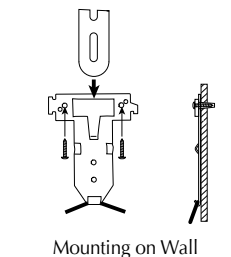

- A. All House of Troy picture lights come with mounting hardware and may be attached to either the picture frame or the wall. The only tools necessary are a screw driver and something to start a screw-hole, such as a small nail or awl.

Mounting on Wood Frame

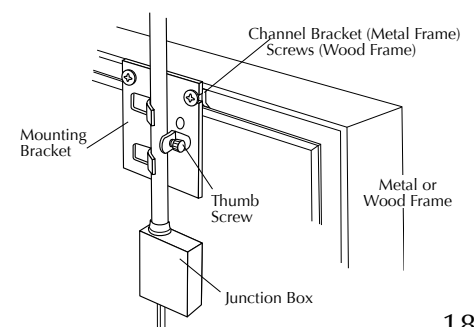

Mounting on Metal Frame

Mounting on Wall

Q. How do you install a Slim-line Picture Light?

- A. Snap the Picture Light arms into the Mounting Brackets. This will take a bit of force, but will not damage the arms. Slide the arms up or down to attain the desired shade location in relation to the frame.
