I only went out for a walk and finally concluded to stay out till sundown, for going out, I found, was really going in.—John Muir, American author and naturalist

Rediscover the beauty and majesty of the great outdoors. Maxim Lighting celebrates the simple wonders of nature with innovative outdoor lighting that complements the character of a home. As the sun sets, our exterior collections create a warm, inviting al-fresco atmosphere.

While illuminating nature's beauty, Maxim Lighting also preserves it. Select wall mounts, posts, and hanging lanterns in a variety of designs, finishes, and materials are energy saving, come equipped with ENERGY STAR certification, and Dark Sky lighting to help ensure that future generations continue to enjoy the magnificent outdoors.

VIVEX™

Beauty that Lasts. Maxim Lighting's outdoor collections made with Vivex™ are non-corrosive, UV resistant and are backed by a 3 Year Limited Warranty.

Exclusively from Maxim Lighting, Vivex, the new standard in outdoor lighting, boasts a winning combination of innovation, intricate design capabilities, quality construction, and astonishing finishes. Combined, these elements create outdoor fixtures that are non-corrosive, UV resistant, and backed by a Three-Year Limited Warranty.

Vivex and Innovation

- With over twice the strength, Vivex is far superior to the polyurethane resin material used in traditional outdoor lighting.
- Vivex withstands temperatures greater than 130°F and less than -20°F.

Vivex and Design

- Injection under pressure into quality steel molds makes Vivex a very hard and dense component.
- The molding process frees designers' creativity, enabling them to implement imaginative designs without the restrictions imposed by the traditional resin process.

Vivex and Quality

- A special paint finishing process with superior adhesion qualities developed specifically for Vivex resulted from a joint effort between the material manufacturer, the paint manufacturer, and Maxim Lighting.
- Maxim Lighting oversees the entire Vivex production process from molding to finishing.

Cathedral Forged Iron

Made with the same attention to quality and durability as craftsmen used ages ago, the Cathedral forged-iron collection in a powder-coated Country Forge finish is built to last. The clear Seedy glass adds authenticity to this look.

Die Cast Aluminum Outdoor Lighting

Optic

The contemporary Optic outdoor collection combines high style with functionality. The two concealed halogen light sources give powerful light with Dark Sky qualities, and the aluminum housing comes finished in choice of Architectural Bronze or Platinum.

Energy Saving & Dark Sky Lighting

Optic LED

Two different light sources create the unique effect of the Optic LED outdoor collection. The upper-light source concealed in the top moves light forward while complying with Dark Sky requirements. The lower concealed light source spreads light directly on the ground below where it is needed most. Most important, Optic LED offers the ultimate in energy savings and long life.

Beam ES

The Beam Collection features low-profile wall lighting designed with versatility and energy saving technology. Fixtures are constructed of stainless steel to allow for outdoor installation, and with the low-profile design, the Beam Collection can also be used interior for corridors and hallways with ADA compliance. The fluorescent light source saves energy and allows for maintenance-free operation. The White acrylic lens is durable and strong. The metal is finished in either Stainless Steel or Oil Rubbed Bronze.

Zenith ES

These contemporary, European-designed fluorescent outdoor fixtures are a perfect combination of energy efficiency and durability. The Zenith Collection features die-cast metal frames painted with a polyurethane powder coat, finished in Platinum or Architectural Bronze. The durable white acrylic lens diffuses the light nicely. The fluorescent light source gives the ultimate in energy saving and long life.

Energy Efficiency

Energy Star
Certified

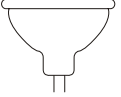

Installing new ENERGY STAR qualified light fixtures is a smart way to save energy and money. Maxim Lighting is proud to be a ENERGY STAR partner. Look for this ENERGY STAR logo to find Maxim Lighting fixtures that use ¼ of the energy of traditional incandescent fixtures and last up to 10 times longer. More information on ENERGY STAR can be found on the ENERGY STAR web site at energystar.gov.

California
Title 24

All new homes, additions, alterations and most commercial buildings in California must meet minimum energy efficiency standards contained in Title 24, Part 6 of the California Code of Regulations. When you see the California Title 24 symbol next to a Maxim Lighting fixtures, you can be assured that the fixtures complies. More information on California Title 24 can be found on the California Energy Commission web site at energy.ca.gov/title24.
