

**IMPORTANT**  
**TURN OFF THE POWER AT THE MAIN FUSE**  
**OR CIRCUIT BREAKER BOX**  
**BEFORE STARTING INSTALLATION**

Carefully unpack and identify all parts before assembly. Bulb not included.

1. While pulling the fixture wires from above, install the upper column by fastening with two cap nuts onto top of fixture. Make certain cap nuts are securely tightened.
2. Spread open all arms so they are equally spaced apart to each other.
3. Follow enclosed supplement installation instructions for electrical and fixture installation onto house outlet box. If you do not have an outlet box at desired location to attach the fixture than hire a qualified electrician to create one.
4. Install glass shade onto fitters by fastening with two plastic washer and screws. **IMPORTANT:** Do not over tighten.
5. Install bulbs (not included). Use 75 Watt maximum of mini-can base halogen bulbs. **IMPORTANT:** Do not touch glass surface of halogen bulb with bare fingers. Use a clean and dry cloth or paper to handle them.
6. Install protective glass dome by snapping onto clip located next to sockets.
