

# Assembly Instructions For

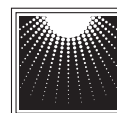

# F2542/3 (E) 11/09

## IMPORTANT TURN OFF THE POWER AT THE MAIN FUSE OR CIRCUIT BREAKER BOX BEFORE STARTING INSTALLATION

Carefully unpack and identify all parts before assembly.  
Bulbs not included.

1. Slip center column through fixture wires. And then secure by screwing on top of socket assembly.
2. Attach long threaded pipe by screwing into finial. Then slip threaded pipe through front and glass shade. Secure all together by fastening with a flat washer and hex nut from above. **IMPORTANT: DO NOT OVER TIGHTEN.**
3. A. Install arms onto upper section of fixture by fastening with washer and screws.  
B. Slip shade inside of crown until it sits securely.  
C. Install crown onto bottom of arms by fastening with screws from above.
4. Slip fixture loop through fixture wires. And then securely by screwing on top of center column.
5. Follow enclosed supplement installation instructions for electrical and fixture installation onto house outlet box. If you do not have an outlet box at desired location to attach the fixture then hire a qualified electrician to create one.
6. Install bulbs (not included). See relamping label located near socket area for type and maximum allowed wattage.
7. Install two glass plates onto top of socket assembly by placing holes in plates through four screw studs and securing with four ball cap nuts. Do not over tighten.
