

**IMPORTANT**  
**TURN OFF THE POWER AT THE MAIN FUSE**  
**OR CIRCUIT BREAKER BOX**  
**BEFORE STARTING INSTALLATION**

**NOTE: Carefully unpack and identify all parts before assembly. Bulbs are not included.**

1. Spread open arms so they are evenly spaced to each other.
2. Fasten hex nut and then teeth washer 1/2" deep onto one end of threaded pipe. Then screw same end of threaded pipe into coupler. Tighten hex nut.
3. Before proceeding below instructions follow enclosed "Fixture Installation Instruction" for electrical and fixture installation to outlet box.
4. Install light bulbs (not included). See relamping label located at socket area for type and maximum allowed wattage.
5. Slip pan, glass shade, and cap thru threaded pipe. Lock them into place fastening finial at bottom. Stop screwing finial when L-Bracket fits inside of pan.

\* L-Bracket screw adjusts as needed to fit pan .
