## IMPORTANT TURN OFF THE POWER AT THE MAIN FUSE OR CIRCUIT BREAKER BOX BEFORE STARTING INSTALLATION

Carefully unpack and identify all parts before assembly. Bulbs are not included.

1. Install the top leaf to the center body by inserting the top leaf's thread into one of the spacers, then insert the thread into the body. Install the other spacer onto the thread and secure the leaves together by screwing the bottom leaf to the top leaf's thread.
2. Follow enclosed "Multiple Standard Installation Instructions" for electrical and fixture installation onto ceiling outlet box.
3. Hang all crystal glass parts as shown on drawing. NOTE: To replace broken crystals extras are included in hardware bag. Replace by gently bending open pins, remove broken crystal, hook new one, then close back pins. Avoid bending pins into sharp angle.
4. Place candle tubes over candelabra sockets and screw bulbs (not included) into sockets to secure. See relamping label on candle tube for type and maximum allowed wattage.
