

IMPORTANT:

TURN OFF POWER AT MAIN FUSE OR CIRCUIT BREAKER BOX BEFORE STARTING INSTALLATION

Carefully unpack and identify all parts before assembly. Bulb not included.

1. Before proceeding below instructions follow enclosed **"Multiple Standard Installation Instructions"** for electrical and fixture installation onto wall outlet box.
2. Place shade over threaded socket and then the spacer tube and secure all with counter ring, using supplied wrench.
3. Install light bulb (not included). See relamping label located near socket area for type and maximum allowed wattage.
4. Slip rubber washer over threaded stud of bottom finial. Then slip from below the threaded stud through hole located at bottom section of fixture and secure from above with another finial.
