Platinum

collection

The Platinum Collection is an exciting new platform of contemporary design for Quoizel. It's a step into the future of lighting design driven by intensity of light, color and form. These contemporary designs take their roots from timeless traditional elements that Quoizel has successfully created for over 80 years. This new collection represents a movement towards more playful and dramatic expressions in lighting. Our collections utilize energy-efficient light sources like G9 or G4 (low-voltage) bulbs creating a dramatic effect through the intensity of light which showcases the refractive qualities of cut crystal.

5 YEAR WARRANTY

At our corporate headquarters in Charleston, South Carolina, our employees know first-hand the importance of materials that can stand up to the harshest weather conditions...from ocean salt and scorching sun to driving rain and punishing winds. It's why we developed Coastal Armour by Quoizel...an extraordinary new weather-resistant outdoor material. With a core-strengthening ingredient of natural quarry stone crushed to a fine powder and then mixed with a powerful blend of latex and adhesives, Coastal Armour by Quoizel creates the next generation of products by using a material of extraordinary strength, durability and beauty.

Our Coastal Armour composite material has been tested to withstand extreme heat and brutal cold; it is non-corrosive (acid and alkali-resistant) and UV resistant – both properties that make it stronger than the best resin products. **That is why we are offering a 5 year warranty.** Our unique synthetic composite formula allows us to fabricate our designs in high pressure injected steel molds that produce a superior quality of detail while increasing surface durability.

Coastal Armour by Quoizel will ensure many years of enjoyment with our beautiful outdoor products.
