# Assembly Instruction Sheet #IS-TFBK2820IO For Style TFBK2820IO

**Tools Required:** Flathead screwdriver, Phillips screwdriver, pliers, wire cutters, wire strippers, electrical tape, safety glasses.

Bulb Recommended: (4) Medium Base 100W Maximum

Estimated Assembly Time: 20-30 minutes

**Preparation:** Identify and inspect all parts before beginning installation. Check package content list and diagrams below to be sure all parts are present. If any parts are missing or damaged, do not attempt to assemble, install, or operate the fixture. Contact customer service for replacement parts.

# **Warnings and Cautions**

Turn off electricity at circuit breaker or main fuse box before installation. Consult a licensed electrician if in doubt.

These instructions are provided for your safety. It is very important you read them completely before installing the fixture. We strongly recommend that a licensed, professional electrician perform the installation.

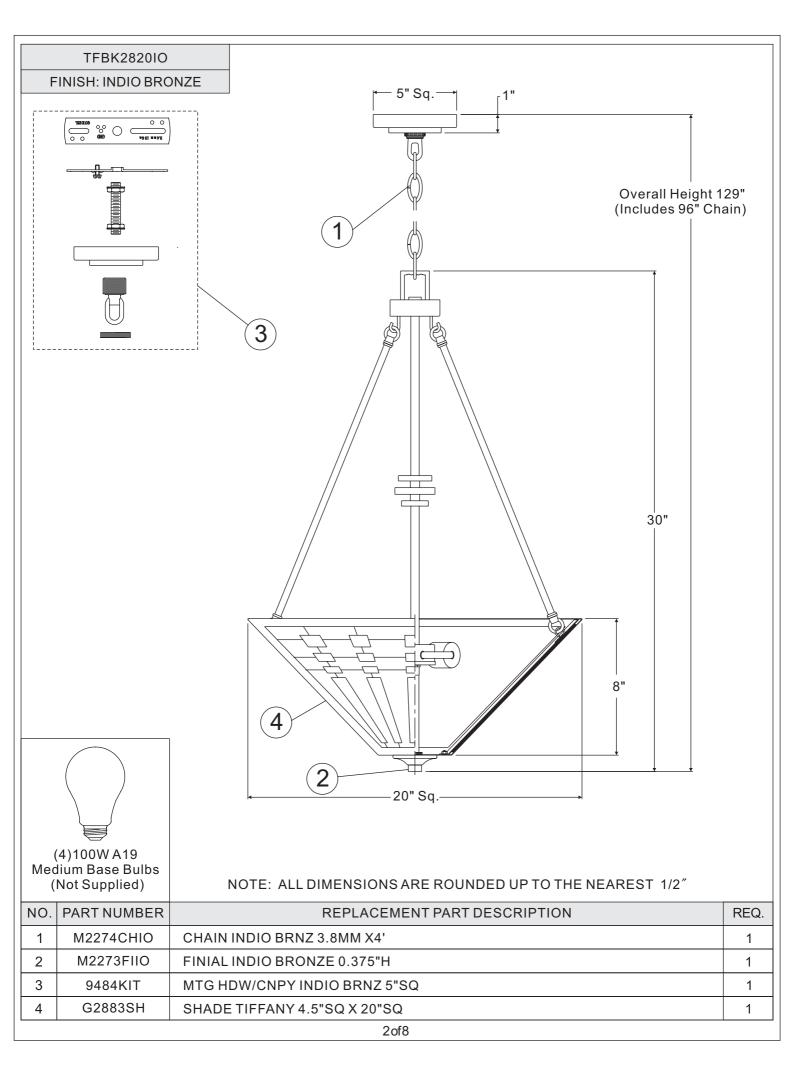

Disconnect fixture from power source before replacing bulbs. Make sure bulbs are given sufficient time to cool before removal. Do not subject glass parts to any shock while in operation or shattering may result.

Thank you for purchasing a Quoizel product.

Loop

#### STEP 8 - Make Wire Connections

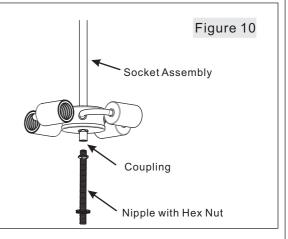

- A. Un-thread the Canopy Lock Ring (F) and slide Canopy Lock Ring (F) and Ceiling Canopy (H) down the Fixture Chain (G).
- B. Push all slack fixture wire through Canopy Chain Loop (E) into Outlet Box. Trim excess fixture wire leaving a minimum of 6 inch. Hanging out of the Outlet Box.
- C. Use standard wire connectors to make all wire connections. (Connectors are not included with fixture.) Strip and prepare wire ends according to instructions supplied with connectors.
- D. Connect White Supply Wire from the Outlet Box to White Wire from fixture.
- E. Connect Black (or Red) Supply Wire from the Outlet Box to Black Wire from fixture.
- F. Connect Ground Wire from the Outlet Box to Ground Wire from fixture.
- G. Twist connectors until wires are tightly joined together.

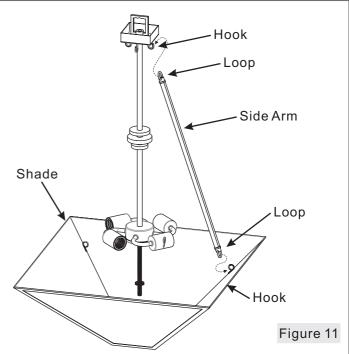

## STEP 9 - Assemble Nipple with Hex Nut

a. Thread the short nipple end of Nipple with Hex Nut (I) into the Coupling underside of the Socket Assembly (H). Hand-tighten until snug.

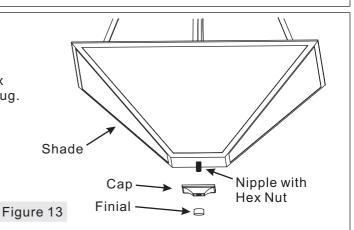

### STEP 10 - Install Side Arm and Shade

- A. Place the center hole on the Shade (O) over the end of the Nipple with Hex Nut (I).
- B. With one person hold the Shade (O), another person attach the Loop on one end of the Side Arm (N) to the Hook on the side of the Fixture Canopy of Socket Assembly (H). Attach the Loop on the other end of the Side Arm (N) to the Hook inside of the Shade (O).

#### STEP 12 - Install Finial

A. Attach Cap (J) over the end of Nipple with Hex Nut (I), Secure by threading the Finial (K) onto the Nipple with Hex Nut (I) extruding from the Shade (O). Hand tighten until snug.

### STEP 13 - Install Bulb

- A. This fixture uses standard bulb with a standard screw base. Maximum 60 watts.
- B. Insert bulb and screw properly into place.

Your lamp semi-flush fixture is now assembled and ready to use. Enjoy!
