Assembly Instruction Sheet #IS-UPYK42828C For Style UPYK42828C

Tools Required: Flathead screwdriver, Phillips screwdriver, pliers, gloves, safety glasses.

Bulb Recommended: None.

Estimated Assembly Time: 20-30 minutes

Preparation: Identify and inspect all parts before beginning installation. Check package content list and diagrams below to be sure all parts are present. If any parts are missing or damaged, do not attempt to assemble, install, or operate the mirror. Contact customer service for replacement parts.

Warnings and Cautions

These instructions are provided for your safety. It is very important you read them completely before installing the mirror. We strongly recommend that a licensed, professional electrician perform the installation.

Package Contents

Part	Description	Quantity
A	Mirror Hanger	2 pcs
B	Hanger Nail	4 pcs
C	Washer	4 pcs
D	Lock Screw	4 pcs
E	Mirror Frame	1 pc
F	Mirror	1 pc

Assembly Instruction Sheet #IS-UPYK42828C

For Style UPYK42828C

STEP 1 – Assemble Mirror

- Place the Mirror Frame (E) onto a flat working surface with the back facing you. Carefully place the Mirror (F) to the Mirror Frame (E). Line up holes on Tabs and mounting holes on the back of the Mirror Frame (E).
- By using screwdriver, thread Lock Screws (D) with Washers (C) into the mounting holes on the Mirror Frame (E) to secure the Mirror (F). Hand-tighten gently until snug.

Figure 1

FOR VERTICAL

STEP 2 – Mark Points for Mirror Hangers

- Lift and position where the Mirror will reside on the wall surface and with a tape measure, mark distance from floor to the bottom edge of the frame with a pencil. Mark should be located at a point representing $\frac{1}{2}$ of mirror width.
- Place the Mirror on a flat surface with back facing you. Measure the distance from the bottom edge of the Mirror Frame to top edge of the Holes on Crossbars. This represents distance "B" in the illustration.
- With tape measure, add this distance to Mark "A" on wall surface and mark with pencil.
- Measure distance between the centerline of (2) Holes. Add this $\frac{1}{2}$ distance from Mark "B" on each side and mark with pencil. (Distance "C" in the illustration)
- Measure 3" up from Mark "C" and mark. These marks are locators for the (2) Mirror Hangers. Check for marks straightness with level.

STEP 3 – Locate Mirror Hangers and Mirror

- Locate Mirror Hangers (A) and align the top center with 3" Locator mark. Secure them to wall surface with Hanger Nails (B). **Please be noted that the Mirror Hangers are fully adjustable allowing for easy leveling.**
- With Mirror Hangers properly installed, be sure that the (2) Bracket Catches are approximately equal in length from the top of Mirror Hangers (A). Adjust overall length with Adjustment Screws.
- With the help of another person, pass the Holes on the Crossbars at the back of the Mirror over the Mirror Hangers (A) so that the Crossbars rest on the inside of the Bracket Catches.

Clean glass with household glass cleaner. Retain this sheet for future reference.

STEP 4 – Mark Points for Mirror Hangers

- Lift and position where the Mirror will reside on the wall surface and with a tape measure, mark distance from floor to the bottom edge of the frame with a pencil. Mark should be located at a point representing $\frac{1}{2}$ of mirror width.
- Place the Mirror on a flat surface with back facing you. Measure the distance from the bottom edge of the Mirror Frame to bottom edge of the Crossbar with Side Holes. This represents distance "B" in the illustration.
- With tape measure, add this distance to Mark "A" on wall surface and mark with pencil.
- Measure distance between the centerline of (2) Side Holes. Add this $\frac{1}{2}$ distance from Mark "B" on each side and mark with pencil. (Distance "C" in the illustration)
- Measure 3" up from Mark "C" and mark. These marks are locators for the (2) Mirror Hangers. Check for marks straightness with level.
