#D532,925 & #D535,053

Instructions for crystal trimming STEPS 10-14

10

You will need 2 - C10
25 Watts Recommended
60 Watts Max

HOW TO TRIM GENESIS (Be Creative!)

There is no wrong way to trim Genesis. Colors are meant to alternate, so just avoid hanging crystals of the same color next to each other. We recommend attaching the crystals, a different color each time, in random order.

11

Screw Crystal Ball "N589" onto bottom of chandelier. Tighten setscrew with tool provided. Screw spike onto frame where indicated.

NOTE1: Pinch the wire hooks to attach each crystal securely to frame.

NOTE 2: Scrollwork is asymmetrical, so that in the next step you will be attaching the crystals at different heights and points as you go down the chandelier.

12

Hang Crystal "A", on top inside scroll and bottom inside scroll as indicated.

13

Using Crystal "B", work you way down the body of the chandelier, trimming from top to bottom. See indicated locations on diagram.

14

Using Crystal "C", again work your way down the body of the chandelier, trimming from top to bottom. See indicated locations on diagram.
