 Lamp DIT0820**

1 Light
 Diameter: 8"
 Height: 19-1/2"

Geometrix™ is designed by Schonbek with Strass® crystal by Swarovski.

This design is the proprietary trade dress/trademark of Schonbek Worldwide Lighting Inc

Please save your trim diagram for future reference.

IMPORTANT: Label on back contains important information on your crystal color. Please save in case you ever need to order matching crystal.

1

1 - A19, BT15, or JDD Bulb
(Halogen Bulb Recommended)
100 Watts Max

Install bulbs and be sure to test
fixture BEFORE assembly.

To avoid damaging, do
NOT touch bulb with bare
hands. Install bulb with
clean cloth or tissue.

REPLACING CRYSTAL OCTAGON:

If a crystal octagon breaks, you'll
see a bare spot in the framework.

A Turn both tabs 90° counter-
clockwise on either side of
pocket where the octagon
should be.

B Slide crystal octagon into
pocket. Turn both tabs clockwise
back to original position to hold
the octagon in place.

REPLACING CRYSTAL BEAD:

If a crystal bead breaks, you'll see a bare
spot in the framework.

A Use needle nose pliers and
pull the empty "L"
bracket straight out.

B Slide crystal bead
onto the bracket. Use
your thumb and push the
bead and bracket back
into place.

CRYSTAL
SHADE

How to Assemble Your Dionyx Lamp:

2 Carefully place crystal shade over bulb. Make sure
to position shade so that the (4) locator pins line up
with the (4) locator holes in the crystal shade base.

Frequency of cleaning crystal

We know people who clean their crystal every few months,
because they love handling the crystals and admiring them
close up. Others do a cleaning every six or nine months.

To stretch the time between cleanings, dust lightly every two
or three months with a feather duster, lambswool duster or
make-up brush.

Frequency of cleaning depends on location of your Dionyx
and other environmental factors.

Crystal needs cleaning when it appears dusty or dull. Just
look at your Dionyx frequently (always enjoyable), and you'll
know when it's time for a cleaning.
