

VISUAL COMFORT & CO. EST. 1987

25 YEARS

I L L U M I N A T I N G

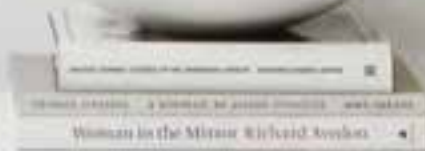

YOUR STYLE

Since 1987 Visual Comfort has been the leader in the lighting industry for impeccable design, immaculate finishes, and the beauty of our production.

Yet we believe great lighting is about more than a physical object.

It is beyond what the product looks like, or how well it is made. It is an experience.

The best possible light should be expressive, functional, and suited to your environment.

At Visual Comfort, we know that our lighting will not only shape a room, but also illuminate your style.

The experiences are endlessly yours. The quality of light is ours.

C E L E B R A T I N G

Inspiration

For 25 years, Sandy Chapman has served as our mentor, our inspiration, and the model for how we collaborate with our design partners.

In his extensive career, Sandy has set the standard for bringing technical production and design together with a tremendous level of quality. Sandy's iconic design sensibility is reflected in the timeless pieces he creates. We are honored to be part of Sandy's legacy as one of the most important lighting designers in the industry.

Thank you, Sandy for your incredible contribution to our company. We are honored and grateful for your partnership.

DESIGN

E. F. Chapman

Since 1996, lighting industry legend Mr. Sandy Chapman has been associated with Visual Comfort as Chief Designer. Under his creative direction, we established our first signature line of products, Chart House; and Sandy continues to design premium lighting for us today. His classically influenced style defines our core of traditional silhouettes.

Thomas O'Brien

Designer and merchant Thomas O'Brien is a master at bridging traditional and modern styles, in his acclaimed interiors, his New York store, Aero, and his influential program of home furnishings. His extensive lighting collection interprets the full spectrum of antique to modern to industrial designs in both luxurious and unexpected ways.

Barbara Barry

The Barbara Barry style is pared down and refined; hers is a look that is founded in elegance of form and simplicity of line. As with her interiors and other furnishings, Barry's signature lighting reflects her philosophy that nothing stands alone, but lives in harmony with its surroundings.

Alexa Hampton

Designer Alexa Hampton is admired for her updated neoclassical approach; yet, with generous silhouettes and ravishing detail, her work never appears conservative. She brings her clean formalist perspective to high-style lighting, featuring architectural scale and bold patternwork.

Suzanne Kasler

Suzanne Kasler is known for the chic mix of continental and classic style in her interiors, always emphasizing the antiques and collections that create a special setting. In her lighting, subtle details pair with structured silhouettes, and special finishes are principal to the look, in timeless materials and custom patinas.

David Easton

Design great David Easton made his mark as a neo-classicist, with English-style interiors that became emblems of an age. In recent years he has shifted to a more streamlined aesthetic, geared to a simplified life with less complicated surroundings. His very civilized lighting designs straddle both sides of this transition.

J. Randall Powers

From timeless traditional to sleek and clean-lined, J. Randall Powers follows the internal rhythm of each project to its own ideal conclusion. His interior decoration work has led to furniture and lighting with the same gathering of influences into multilayered designs.

Eric Cohler

Interior designer Eric Cohler has been dubbed "the Mixmaster" for his flair in fusing classical and contemporary forms. His lighting is equally distinguished yet relaxed, with historical reference points that give flight to elements of unusual texture, color, and verve.

Clodagh

For over 25 years, Irish-born, internationally acclaimed designer Clodagh has embodied a trademark mix of spirituality, the exotic and global in her work. Her sculptural lighting carries on this fusion with her emphasis on the inspirational aspects of good design.

Michael S. Smith

Reigning classicist Michael S. Smith is the creator of many famed interiors. His lighting focuses on vintage estate and moderne styles, using historical scale and formal aspects of symmetry. Designs are suitable for restorations as well as new construction.

Barry Goralnick

Award-winning architect and interior designer Barry Goralnick is best known for combining simple modern lines and classically informed spaces with the most considered details and materials. His lighting reinterprets elements of mid-century modernism in softer, more casual, yet luxuriously livable forms for eclectic and contemporary design expressions.

John Rosselli

Fifty years ago John Rosselli opened his first shop in New York City and it immediately became a destination for everyone in the world of design. His name now represents affordable antiques with a decorative, even whimsical sense, and his lighting based on favorite pieces extends that style to distinctive rooms.

It features a large, cylindrical, brushed metal head with a large, circular, frosted glass lens. The head is mounted on a central vertical pole via two adjustable metal arms. The pole is attached to a sturdy black metal tripod base. A small, wooden-handled adjustment knob is visible on the pole. The lamp is set against a plain white background.

FINISHES

Our “living” finishes make the difference for lighting choices that are unique in personality and design appeal. We use authentic natural materials to give our products their custom character: brass, bronze, nickel, silver and chrome in antique and polished lusters; classic enamels, ceramic, porcelain and gilding; forged irons and honed woods; hand blown glass; rock crystal and alabaster; elegant parchment papers, silks and linens.

Our selection of more than eighty finishes is a central part of our promise to serve all aesthetic preferences and design applications in our lighting.

These abundant options can help you adapt your favorite lighting profiles to the right mood for your project. From the superior quality of our Hand-Rubbed Antique Brass and Polished Nickel to the perfect elegance of Gilded Iron and Antique Silver Leaf, and many more casual and painted finishes in between, we have the look that will help you create your own lighting décor.

CARE INSTRUCTIONS

All products should be cleaned with a soft, dry cloth or duster. Our products should never be sprayed with a cleaning solution or polish. When it is necessary to use a cleaning agent, please apply only a mild detergent to a soft, damp cloth for gentle cleansing. Do not use scouring agents, abrasive sponges, hydrochloric acid, vinegar, ammonia, petroleum distillate or metal silicates.

CUSTOMIZATION

Many of our products can be modified in our custom department. Changing height, finish or switch type on an item can be done upon request.

VARIATION

Minor variations may occur in product dimensions and finishes due to the handmade nature of our products. We recommend that designs being purchased in pairs or sets for a specific job be ordered together to ensure they match.
