Established in 1987, Z-Lite began their manufacturing operations in a small glass shop, custom manufacturing stained glass lamp shades and pairing them with simple wiring components and lamp bases. From those early days Z-Lite designers and artists practiced their trade, with successes and failures, learning every step of the way. This catalog and Z-Lite are the result of these 25 years of practice and the many important steps taken along the way to grow the company and brand into the success it is today. Our attitude towards customer service is heavily influenced by this history as well. Every customer is of the utmost importance to us. We want to ensure every customer experience at Z-Lite is a good one and to that end we strive. It is our goal to offer quality products, exceptional design, outstanding customer service and good value in our products.
