LIGHTING

## INSTALLATION INSTRUCTIONS

### IMPORTANT

Before assembling your access lighting fixture, please make sure that you carefully read through these instruction sheets. Consider having your fixture installed by a qualified licensed electrician.

**NOTE:** The important safeguards and instructions that appear in this manual are not meant to cover all possible conditions and situations that may occur. It must be understood that common sense, caution and care, are factors that can't be built into any product. These factors must be supplied by the person(s) caring for and operating the fixture.

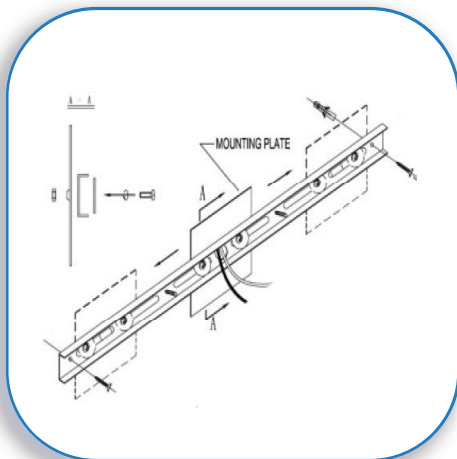

### GENERAL INFORMATION

All electrical connections must be in accordance with all ordinances, Local and National Electrical Codes. These fixtures are intended for mounting to a standard 4" x 2 1/2" metal octagon outlet box. The box must be directly supported by the building structure and U.L. Recognized.

### STEP BY STEP INSTRUCTIONS

Before starting your installation disconnect the Power by turning off the Circuit Breaker or by removing the fuse at the fuse box. Just turning the light off at the light switch is not sufficient to prevent electrical shock.

**COLLECTION**  
Onyx

**APPLICATION**  
Wall Fixture

**MODEL NO.**  
23875

### WHAT WE PROVIDE

- Back Plate
- Mounting Hardware
- Mounting Plate
- Front Plate with Fixture
- 1 x Crossbar
- 5 x Glass Shades
- 5 x 60W G9 Bulbs
- Glass Retaining Ring Tool

### WHAT YOU NEED

- Screwdriver
- Wire Cutters
- Wiring Supplies as Specified by Electrical Code

### MOUNT CROSSBAR

1

If there is an existing fixture remove it. Hold the fixture up to the j-box, mark the location on the wall for the supports. Drill holes and insert the supplied wall anchors. Position the floating mounting plate over the J-box, feed the supply wire through the center of the mounting plate. Insert the screws into the wall anchors and secure the back plate to the wall.

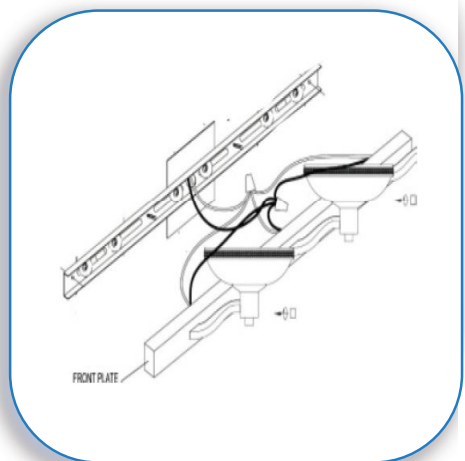

2

### CONNECT THE WIRES

Connect the black supply wire to the black fixture wire. Secure with the supplied wire nuts. Connect the white supply wires to the white fixture wire. Secure with the supplied wire nuts. Either wrap the green wire around one of the protruding screws or connect it to the supply ground wire. Secure all wire with U.L. Certified electrical tape (not supplied).

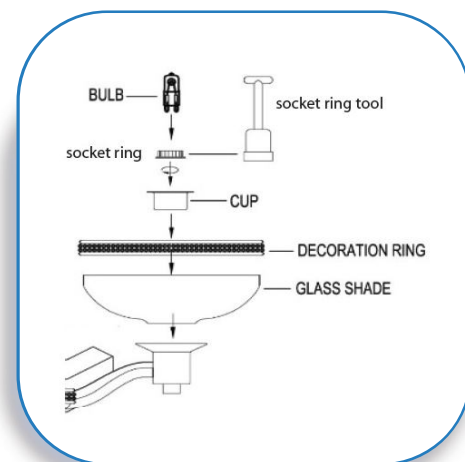

Tuck all wires carefully into the J-Box.

3

### MOUNT THE FRONT PLATE TO BACK PLATE

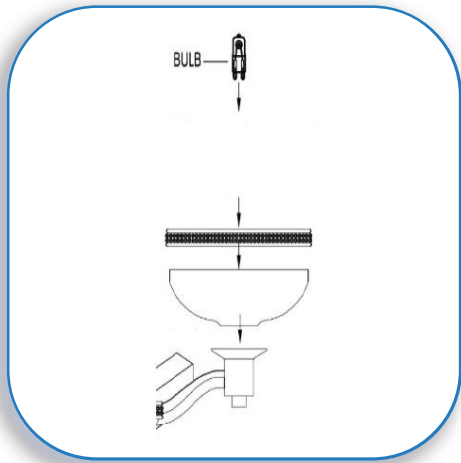

Fit the front plate over the back plate. Align so that the protruding screws on the back plate pass through the designated holes in the front plate. Secure with the supplied thumb screws. Tighten down to secure.

4

### SECURE THE GLASS SHADES

Place the glass shade over the socket. Place the cup onto the socket, followed by the socket ring. Use the socket ring tool to tighten down the socket ring and secure the glass shade. Repeat with the remaining glass shades.

5

**INSERT THE BULBS**

Insert the supplied bulbs. Handle bulb with supplied cloth, do not handle with bare hands.

MAXIMUM WATTAGE 60W.

DO NOT EXCEED THE WATTAGE AS STATED

ON THE WARNING LABEL AND IN THE INSTRUCTION SHEETS

6

**RESTORE THE ELECTRICITY AND CHECK THE OPERATION OF YOUR NEW ACCESS FIXTURE**

**CAUTION** Please ensure that the fitting is cool and switched off before replacing the bulb. DO NOT use bulbs that might exceed the maximum wattage, stated on caution label.
