LIGHTING

INSTALLATION INSTRUCTIONS

IMPORTANT

Before assembling your access lighting fixture, please make sure that you carefully read through these instruction sheets. Consider having your fixture installed by a qualified licensed electrician.

NOTE: The important safeguards and instructions that appear in this manual are not meant to cover all possible conditions and situations that may occur. It must be understood that common sense, caution and care, are factors that can't be built into any product. These factors must be supplied by the person(s) caring for and operating the fixture.

GENERAL INFORMATION

All electrical connections must be in accordance with all ordinances, Local and National Electrical Codes. These fixtures are intended for mounting to a standard 4" x 2 1/2" metal octagon outlet box. The box must be directly supported by the building structure and U.L. Recognized.

STEP BY STEP INSTRUCTIONS

Before starting your installation disconnect the Power by turning off the Circuit Breaker or by removing the fuse at the fuse box. Just turning the light off at the light switch is not sufficient to prevent electrical shock.

WHAT WE PROVIDE

- Crossbar
- Mounting Hardware
- PC shade + Acrylic plate

WHAT YOU NEED

- Screwdriver
- Wire Cutters
- Wiring Supplies as Specified by Electrical Code
- 5 x 26W GU24 Bulb

1

PREPARE FIXTURE AND MOUNT THE CROSSBAR

If there is an existing fixture remove it.
Expose the supply wire from the outlet box.
Mount the crossbar to the junction box with the supplied screws

2

MAKE WIRE CONNECTIONS

Gently pull the supply wires through the hole in the crossbar. Connect the black supply wire to the black fixture wire. Secure with the supplied wire nuts. Connect the white supply wires to the white fixture wire. Secure with the supplied wire nuts. Either wrap the green wire around one of the protruding screws or connect it to the supply ground wire. Secure all wire with electrical tape (not supplied). Tuck all wires carefully into the J-Box.

3

MOUNT FIXTURE TO THE CROSSBAR PLATE

Adjust the length of fixture by using grip lock. Position the canopy over the crossbar plate. Align the hole in the centre of canopy and secure with the supplied thumb screws.

4

INSERT THE BULBS

Slightly push up the acrylic plate. Insert the bulbs. **MAXIMUM WATTAGE 26W.** **DO NOT EXCEED THE WATTAGE AS STATED ON THE WARNING LABEL AND IN THE INSTRUCTION SHEETS** Slightly close the acrylic plate back to designated area.

5

RESTORE THE ELECTRICITY AND
CHECK THE OPERATION OF YOUR
NEW ACCESS FIXTURE

CAUTION

Please ensure that the fitting is cool and switched off before replacing the bulb. DO NOT use bulbs that might exceed the maximum wattage, stated on caution label.
