

# ADESSO<sup>®</sup>

Two modern table lamps are displayed against a light gray background. Each lamp features a tall, cylindrical shade made of a textured, light-colored material. The shades are mounted on a conical base made of a dark, polished material. The lamp on the left is slightly in front of the one on the right. The lighting is soft, creating subtle shadows on the surface they are resting on.

Adesso blends form and function in the practical category of LED lighting. Adesso was an LED pioneer in the USA, shipping our first LED products in 2003. This long standing experience leads Adesso to a high degree of expertise in the craft.

The nature of LED allows us to create sleek, intricate designs that would not be feasible with a CFL or incandescent bulb. Aside from distinguished design, LED provides various benefits to the consumer including energy efficiency, longevity, durability, safety, and light quality. Adesso started off with a focus in task LED lighting but is quickly growing our expertise to other areas of lighting such as LED torchieres, decorative LED lighting and LED pendants.

Today, LEDs are the fastest growing category in lighting and we continue to provide you with the latest designs and developments in this exciting light source.

LED technology is constantly advancing and Adesso is there to source the latest developments. We offer high performance LEDs that deliver more lumens per watt in more natural color temperatures to suit your mood.

#### DECORATIVE GLASS 116-123

Adesso redefines contemporary style with a unique application of decorative glass. While decorative glass is most often used as a lamp base, we have found that the beauty of this material really reveals itself when used as a lamp shade. Using sleek lines and elegant structures, Adesso creates an intriguing contrast to the warm luster and industrial feel of the decorative glass. This style is very versatile, providing the user with a variety of looks to choose from.
