GRAND NOSTALGIC COLLECTION

The Grand Nostalgic collection creates a vintage atmosphere in any environment. Meticulously crafted to preserve the traditional, oversized look of early 20th century lighting, the Grand Nostalgic collection features seven distinct bulb shapes:

- A globe shape with a spiral filament (NOS60-GLOBE)
- A pear shape with a spiral filament (NOS60-PS)
- A bulged tubular shape with a thread filament (NOS60-BT)
- A long tubular shape with a spiral filament (NOS60ET)
- A beehive inspired shape, with a thread filament (NOS60-BH)
- A diamond shaped bulb with a dazzling spiral filament (NOS60-DIAMOND)
- An elongated, exaggerated water-bottle inspired shape with a spiral filament (NOS60-WB)

Each bulb is oversized to create a strong visual effect, with a handmade filament and antique finish that creates a warm, ambient light. When paired with an open socket fixture, these bulbs generate a warm glow of light, creating a distinct feeling of uniqueness and nostalgia.
