INSTALLATION

1. Shut off main power at circuit breaker before attempting to install luminaire.
2. Install mounting plate to junction box in ceiling using mounting screws.
3. Secure the two screws to the mounting plate. You should leave the proper length of the two screws beyond the surface of the mounting plate to ensure enough thread is available to properly mount the canopy with the cap nuts.
4. Pull the existing electrical wires out of the junction box and make proper connections using wire nuts.
5. Position canopy over mounting plate and thread screw collar loop on the nipple tightly.
6. Hook the stems on the rings.
7. Thread the Iron Pipe on the wire box.
8. Put the stems into the top plate and tight with top finials.
9. Thread the collar to the center iron pipe.
10. Assembly the bulbs.

WARNING

To ensure the success of the installation,be sure to read these instructions and review the diagrams thoroughly before beginning.

Installation must be performed by a qualified electrician.

Turn off the main power at the circuit breaker before installation,replacing lamp or maintenance.

Use UL listed wire connectors for connections.
