ASSEMBLY INSTRUCTIONS FOR 400-GA

IMPORTANT
 TURN OFF THE POWER AT THE MAIN FUSE
 OR CIRCUIT BREAKER BOX
 BEFORE STARTING INSTALLATION

NOTICE:

THE COUPLING , THREADED PIPE, METAL DISK AND NUT IS NOT A PARTS NEEDED FOR THE FIXTURE . IT IS ONLY FOR PACKAGING PURPOSE. YOU NEED TO TAKE OFF IT AND INSTEAD SCREW ON THE BOTTOM FINIAL TO FINISH THE ASSEMBLY OF THE FIXTURE.

styro foam

Notice: Please rest your fixture on the styro foam inside the packaging carton during the installation of the fixture in order to not damage the bottom glass leaves.

Please Note:

Each Blown Glass floral that adorns the Fiore Collection is tied by hand. Due to it's delicate nature, it is not uncommon for these florals to fall off in transit or if moved too aggressively.

Once taken out of the box, the flower cluster will need to be gently groomed by hand to make sure the glass leaves look vibrant and alive. Should a glass leaf break off, simply tuck the exposed wire back into the flower cluster and continue to gently groom the rest of the floral grouping.

The Fiore Collection was designed with this in mind; therefore, we have added extra glass leaf florals with each fixture.

Please see diagram for illustration on how to tie the replacement florals to the fixture.
