

82"  
(2083mm)

The diagram shows a technical drawing of a pendant light fixture. At the top is a rectangular canopy with a central mounting hole. A long, thin stem extends downwards from the canopy. A break symbol (two parallel diagonal lines) is placed on the stem to indicate it is longer than shown. The stem ends in a decorative, multi-tiered pendant cap. A cylindrical light bulb is mounted inside the cap. The base of the fixture is a wide, shallow, octagonal-shaped shade with a slightly flared top edge. Dimension lines and text are used to specify the overall height, the width of the base, and the height of the pendant cap.
