

90"  
(2286mm)

The diagram shows a mechanical assembly with a central vertical shaft. At the top is a rectangular component. The shaft has a break symbol in the middle. Below the shaft is a horizontal flange with a central nut and washer. The shaft continues down to a base with a complex, multi-lobed profile. A vertical dimension line on the left indicates a height of 90 inches (2286mm). A horizontal dimension line at the bottom indicates a width of 18 inches (457mm). A diagonal dimension line on the right indicates a height of 16 inches (406mm) from the top of the base to the top of the flange.
