ELK LIGHTING CREATIVITY™

Our iconic symbol has served as a beacon for discerning customers for over 30 years, reflecting a commitment to transcend the boundaries of innovation and style while encouraging customers to express themselves through our collections.

Our award winning team of international designers and engineers are visionary in their thinking, constantly striving to uncover the styles of the future while revitalizing themes from the past. They challenge convention in the search for elements that fill emotions with feelings of nostalgia, tranquility and inspiration.

With the design collaboration of our sister companies - the boundless character and exquisite details of our **Dimond** lamp company to the aspirational elements of our **Sterling** home furnishings line - all of these creative threads converge into an array of complimentary home furnishing options.

The dedication to our designs is only surpassed by our unrelenting commitment to service. From our resourceful design and product consultants to our friendly and knowledgeable customer care team, we are by your side to make it fun and easy to select an item that will be a brilliant addition to your surroundings.

I invite you to explore our unrivaled array of distinctive products which are crafted to exceptionally high standards of quality, innovation and design.

With sincerest gratitude,

Bradford Smith

JORGENSON

The Jorgenson collection stylishly bridges the gap between mid-century modern furniture design and lighting. This collection was designed using solid wood that emulates the tapered angle of fine furniture legs and angular metalwork that compliments its sleek style. Choose between two combinations of taupe wood, Polished Nickel metalwork and champagne fabric shades, or mahogany finished wood, Satin Brass metalwork and tan crosshatch textured linen shades.

BRIGHT IDEA

To calculate the light needed for each room, multiply the length times the width of the room in feet. Then multiply that number times 1.5. This number gives you the amount of wattage needed to light the room properly for general illumination.

TINDALE

Generous sized clear glass panels act as windows to the superbly crafted light cluster that resides behind the glass. This oversized, Brushed Antique Brass lantern boasts historic quality details such as candlestick style bobeches, arched metal bands and ball finial accents.

BRIGHT IDEA

To determine the proper fixture height: The bottom of the fixture should be at least 7 feet from the floor. Depending on ceiling height, you could use a flush mount, semi flush, or if you have a tall ceiling, you may use a 2 or 3 tier chandelier.

CHELTHAM

The allure of the Cheltham collection is the design of the champagne plated glass which has a symmetrical ripple pattern that exudes a brillant array of light. Further accentuating the appeal is a band of alternating champagne and clear crystals that adorn the top of the glass. The metalwork is finished in Mocha which complements the hue of the glass.

NATHAN

This pendant collection combines rich wood tones with stylish fabrics for an alluring appearance. Each drum shade has a realistic wood printed band that is recessed into the bottom of the fabric shade and tapers into a frosted glass diffuser. A turned wood center column supports one style while the other pendant has the versatility of extension rods to convert to a semi flush. Choose from Dark Walnut with a wheat linen or foliage patterned fabric and Washed Pine with a gray or slate linen fabric.

EARLY AMERICAN

The combination of wood and iron is a historic pairing of materials inspired by the early days of colonial America. Solid wood is either turned or milled to provide an understated hand-made character. The colonial maple finish compliments the Vintage Rust metalwork while the Wheat linen shades cast a warm glow of light.

MARTIQUE

Sophisticated styling and a sleek two-tone finish characterize the Martique collection. The reflections of a ribbed Chrome plated glass center column is subdued by a Silver Leaf finished framework of curved arms and tall candlestick style bobeches. The combination of these shiny and satin surfaces results in a uniquely refreshing appearance. Textured white linen drum shades diffuse the light onto the fixture, further highlighting the dazzling finish combination.

NEW YORK

Taking styling cues from the Art Deco period, the Trump Home® New York collection features clean lines and unique design elements. The lights are supported by rings that gracefully "float" around a larger double ring. Finished in Renaissance Silver Leaf with cream fabric shades, this series is versatile and contemporary. Shades are optional on items with crystal.

LUMINESE

The sparkling effect of the glass in this series is captivating. The process to achieve this desired result starts with making a clear, hand-formed glass bowl. Then, a coating of either clear or amber mini glass fragments are melted to the inside surface, giving it a crystallized appearance, while the outside surface remains smooth. Choose between a Satin Nickel frame with clear glass or Aged Bronze frame with amber glass.

OAK PARK

Frank Lloyd Wright's early architecture laid the groundwork for today's mission style. Many of Wright's projects were concentrated around his residence and original studio in Oak Park, Illinois. His style was notable for use of sleek profiles, bold lines, and dramatic angles. This collection features those design elements made from precisely cut flat iron in our Tiffany Bronze finish that presents exquisite honey dune art glass.

INSULATOR GLASS

The Insulator Glass collection was inspired by the glass relics that adorned the top of telegraph lines at the turn of the 20th century. Acting as the centerpiece of this series is the recognizable shape of the glass insulator, made from thick clear glass that is complimented by solid cast hardware designed with an industrial aesthetic. Finishes include Polished Chrome, Oiled Bronze, and Weathered Zinc.

CHAPMAN

This series is reminiscent of the hurricane oil lanterns predominantly used in railroad and nautical applications in the late 1800's. Although powered by electric, the essence of this old world inspired collection remains. The Matte Black finish of the heavy ironwork cleverly contrasts the acid etched blown glass to complete the historic appeal.

HALOPHANE

Halophane glass became popular at the turn of the 20th century when it was discovered that its refractive qualities cast a crisp, even light throughout the room. These characteristics reduced shadows and allowed for a brighter and safer environment. Over a century later, we still value those same attributes. The ribbed hyalophane glass with complimenting turned detailing in the framework pays homage to early period lighting. The Halophane collection reunites the past with modern style in Polished Chrome or Aged Bronze.

SCHOOLHOUSE PENDANTS

In the early 1900's, schoolhouses, banks, and other public institutions began using fully enclosed pendants that not only gave off an abundance of light, but were also easy to clean and maintain. The period authentic styling is reflected in the fluted or patterned white blown glass and matching hardware finished in polished chrome, satin nickel and oiled bronze. These exclusive pendants exemplify the uncompromising historic styling.

MENLOW PARK

Industrial inventions of yesteryear are reclaimed and reinterpreted to deliver the style demands of today. The classic filament style bulb can be showcased within a clear or mercury blown glass shade or proudly shown alone. An Oiled Bronze finish with a cloth cord or a Polished Chrome finish with a clear cord offer versatility for any décor.

BROOKLINE

This unique pendant collection takes advantage of a shapely clear glass shade which serves as a "window" to the finely detailed metalwork behind the glass. A removable ring on the bottom edge of the glass allows you to change up your decor on a moment's notice. Finishes include Polished Nickel and Oiled Bronze.

EMILION

Drawing inspiration from the creative spirit of the French Renaissance, Emilion incorporates styles indicative of the era, blending natural influences with elegant charm. The Burnt Bronze finished metalwork allows the crystal embellishments to radiate. The distinctive attributes meld together to form a compelling statement of originality.

GEORGIAN COURT

During the mid-eighteenth century, the Georgian style became immensely popular, not only in England, but also in Colonial America. The "Colonial" home was influenced by the Georgian style, characterized by a sense of proportion, balance, and carefully thought out details. Furniture and objects of the time were of a larger scale, yet with a lighter feeling than earlier periods. This lighter feeling transmitted grace, elegance, and prominence, and allowed details to become more of the focal point, rather than the principle elements of the structure. The Georgian Court Collection reflects those earlier influences with well-balanced proportions, attractive brass finished details, and amber glass with a marbelized finish and decorative ring.

BELA IGUAZU

Iguazu Falls, one of the natural wonders of the world, lies deep within the Amazon Rain Forest in South America. This spectacular area of the world produces some of the most exotic flowers and plant life ever seen. The Bela (Portuguese for beautiful) Iguazu Collection reflects this natural beauty of the jungle with the vivid colors of the hand-formed glass flowers and the texture of the solid cast bronze frame. This bronze frame is finished in a genuine Silver Leaf and resembles a group of vines dangling from the canopies of the forest.

HUARCO

The true source of the Amazon was discovered in 1953 to be a small stream, The Huarco, in the Andes Mountains of Peru. The thick canopy of foliage that surrounds this meandering waterway was the inspiration for the collection. The refreshing green leaves invoke a feeling of a tropical rain forest. Complimenting the hand-blown amber glass, the base of each blossom is adorned with chestnut hues clasping clear crystal droplets.

BRILLARÉ

An arrangement of multi-colored crystal florets sets a lovely theme for any décor. This collection is set apart from others with its bold, rich colors throughout, as well as vines that seem to grow naturally in various directions. Notice the crystal tips on the ends of the vines that resemble a drop of freshly fallen rain.

HERITAGE

This series is a tribute to England's first porcelain manufacturers dating back to the mid-18th century. Factories of the time developed product for the aristocratic market. Although many are no longer in operation, the techniques used then still apply today of hand-working molds and patterns. The strength and non-porous nature of porcelain allow intricate details and shapes as evidenced in the exquisite flowers accenting this series. This collection has crystal accents and intertwined branches finished in cream.

GLASS LEAF

With an attractive pattern of brown and olive tones, the Glass Leaf collection is a refined series of art glass arranged into layered motifs. The highlight of this series is the banding of cast glass leaves that have a beaded center stem that separates the two rows of leaves. Finished in Tiffany Bronze, the neutral tones blend with a myriad of room settings.

Due to its hand-made nature, each piece of tiffany glass will vary slightly in color and pattern.

CORISANDE

The Corisande collection brings together various designer elements to create a stunning free-flowing presentation. Twisted arms radiate from a solid crystal center column which gracefully support clear crystal balls, frosted glass diffusers and silver organza drum shades. The shades are cleverly held by clear glass discs with no visible connecting hardware, giving the appearance that they are free floating. A Polished Nickel finish completes this bold statement.

FELTHAM

Feltham is a refined pull-down collection with clean styling and simple functionality. Using low voltage LED lighting allows the pendants to be cord-free for an uncluttered appearance while simply lifting up or pulling down gently on the fixture allows them to be adjusted to the desired height via a clever integrated counterweight. Opal white blown glass combines with a Polished Chrome finish to enhance the modern attributes.

LANDMARK LIGHTING

BRIGHT IDEA

When adjusting the fixture height in kitchens and dining rooms, the bottom of the fixture should be no lower than 30″ above the tabletop for an 8′ ceiling. Raise the fixture 3″ higher for each additional foot of ceiling height.

ITEM NO.	BULB	W	H	EXT.	WEIGHT	ADDITIONAL DETAILS
68000-1	(1) 60W Med.	6″	10″	–	1 lb.	Includes 6 feet of cord

MADISON

A pristine balance between form and function is achieved with this colonial period rejuvenation series. The Matte Black (MBG) finish has subtle hand applied gold highlights that grace the antique profile of the fixtures. The water glass diffusers lend a touch of additional texture to complete the stylish impact. Use with or without the decorative ring that is provided with the series.

SAN GABRIEL

During the late 1800's and early 1900's, Missionary padres from Spain created the California Mission style, which was a simplified version of centuries old Spanish architecture. This style was known for its simplicity of form with minimal ornamentation. The San Gabriel collection pays homage to this design philosophy with smooth, architectural lines and a Hazelnut Bronze finish.

KANSO

"Embracing the everyday, unadorned things in life is to embrace truth". Rarely has any one philosophy had such a clear and defined impact on a garden style as the indelible mark left by Zen on the Japanese garden. Kanso is one of the six basic aesthetic principles embraced by Zen. Simplistic styling, a key tenet of Zen, and cleanliness of form is a repeated motif in Japanese architecture. Constructed of cast aluminum, this series features an Aged Bronze finish with contrasting white glass.

FARMSTEAD

Lanterns have been widely used for portable lighting for hundreds of years until the time electricity reached rural farming areas. Its simple design and function made it one of the most practical and widely used devices in history. This series carries on this historic design style with clear water glass and period authentic Matte Black finish.

INSULATOR GLASS

The Insulator Glass collection was inspired by the glass relics that adorned the top of telegraph lines at the turn of the 20th century. Acting as the centerpiece of this series is the recognizable shape of the glass insulator, made from thick clear glass that is complimented by solid cast hardware designed with an industrial aesthetic. Finished in Brushed Aluminum.
