A U B R E E

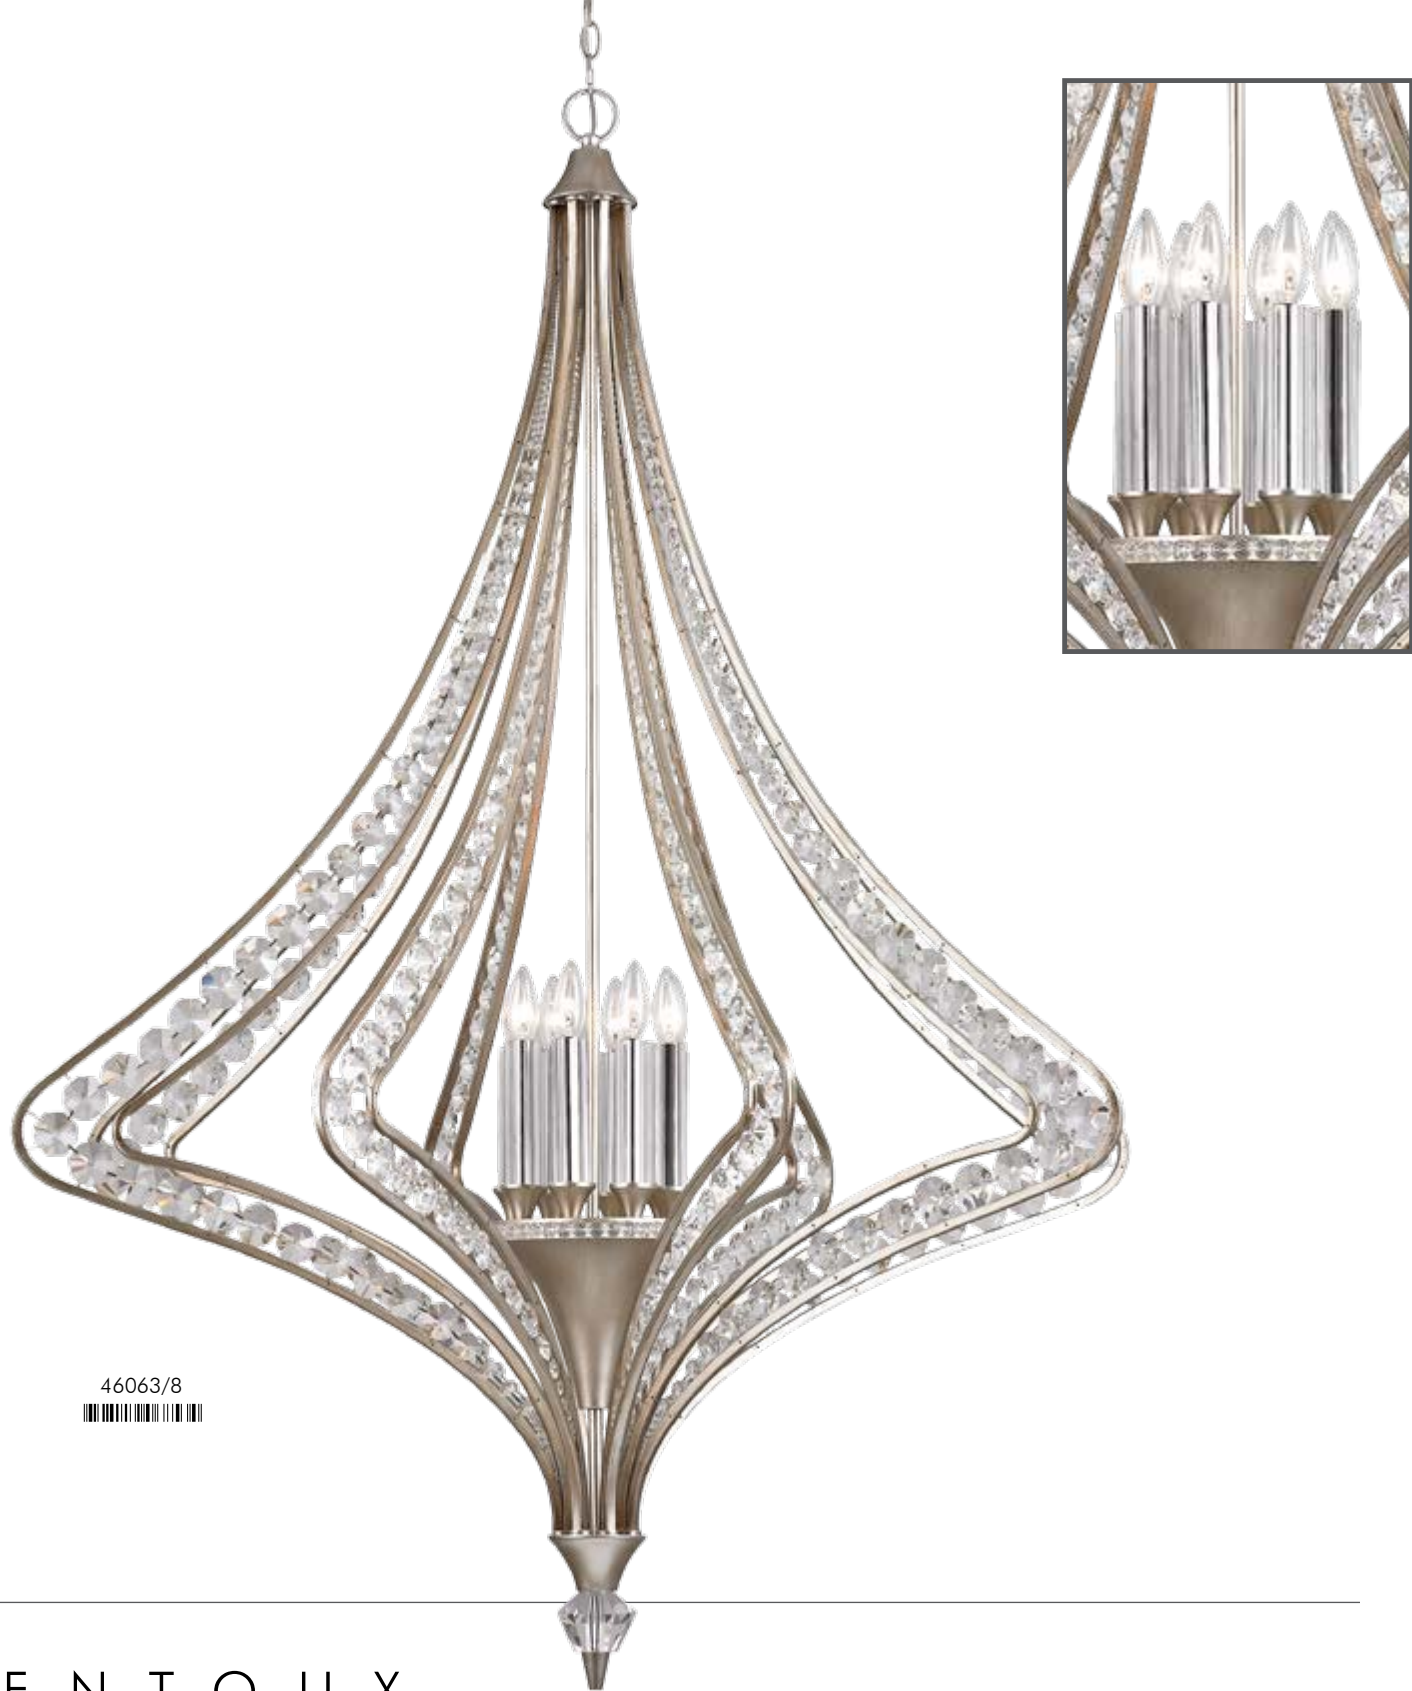

This collection offers highly polished K9 crystal beads and rectangle crystals that capture the light in an unimaginable array of sparkling beauty. The machined aluminum candle covers capture light while the Polished Nickel finish bounces the shimmering light textures among the sweeping lines.

V I V A N A T U R A

Brilliant arrays of crystal spears highlight the design of the Viva Natura collection. Overlapping steel wires, finished in Aged Silver, form a gently curved shape while crystals sparkle when illuminated yet still fascinate when unlit. The combination of these elements transforms this design into a sculpture of textured light.

VENTOUX

The Ventoux collection defines modern elegance by combining the charming characteristics of a lantern with the smooth curves of fashion forward design. Accented with crystal beads and glass candle covers, the central light cluster becomes the focal point from which crystal-lined arms are elegantly draped around. A Satin Silver finish softens the crystal for just the right balance of warmth and cutting edge style.

R A D E L L E

Classical motifs is the new chic. Enabling a truly “transparent” design, thick sheets of clear acrylic are laser cut into a detailed neoclassical silhouette. Crosshatched lines are also etched into the acrylic panels with crystals embedded at their intersections to enhance the presence of the collection. A minimalistic Polished Nickel finished frame clasps only the edges of the acrylic keeping a transparent, edgy style. These items are also available with side-lit RGB LED lights as a special order.
