Instruction For Changing the Transformer E20302-26

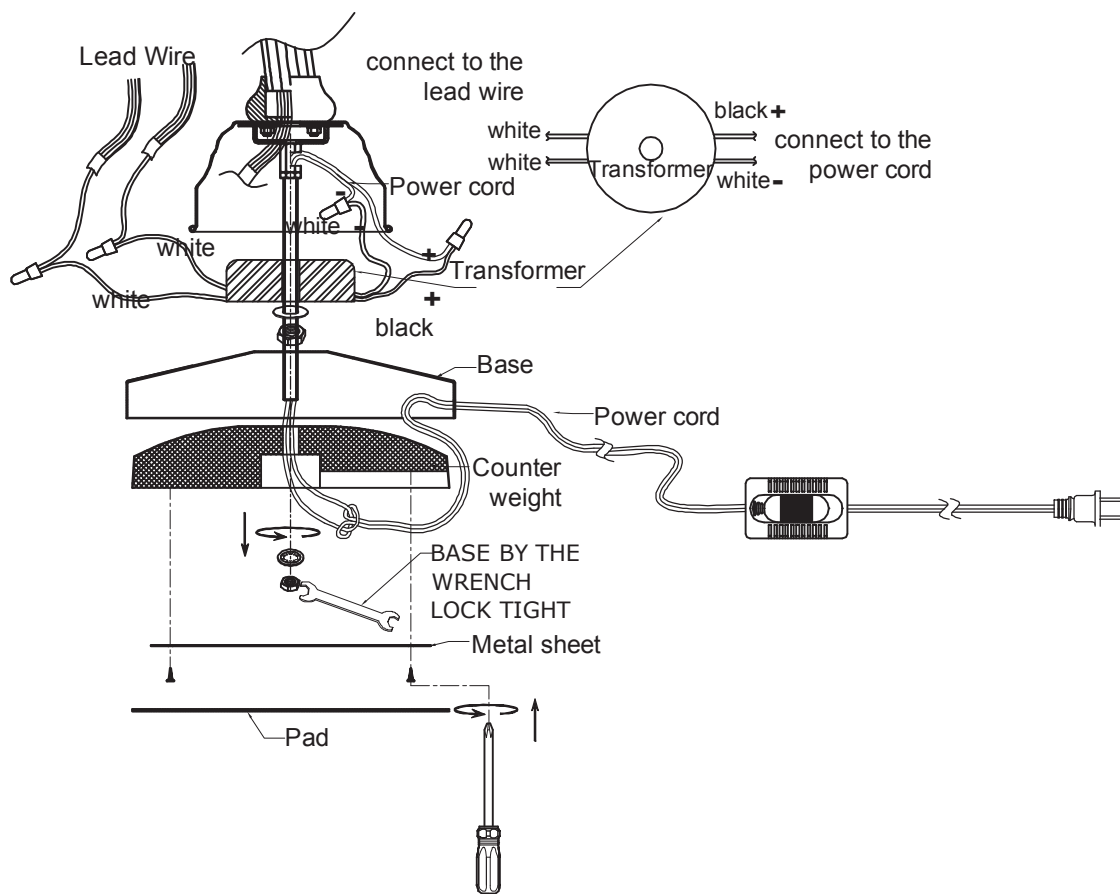

Please read the instructions carefully before replacing the transformer.

Referring to the drawing below .

Turn the lamp off, then unplug from outlet.

* All wiring must be done in accordance with national and local electric codes.

** If you do not have electrical wiring experience, Have your Lighting Fixture installed by a qualified licensed electrician.

Installation Procedures

1. Switch off the power supply to the outlet box on which you plan to change the transformer (Caution: Disconnect all power before servicing)
2. Use a wrench and a screwdriver as shown above.
3. Please remove the metal sheet, Counter weight and base in turn.
4. Connect the transformer to the power cord and lead wire as shown above. (Caution: One side of the transformer with black and white wire should connect to the power cord. The other side with two white wire should be connect to the lead wire.)
