HINKLEY
INTERIOR

The idea of home has always resonated deeply with the Hinkley DNA and it's why we pour such passionate enthusiasm for design and quality into our products. We remain driven by a commitment to keep your "Life Aglow" with lighting that delivers both style and solutions. Over the last 97 years that promise has transformed from a simple offering of outdoor lanterns in the 1920's to the incredible range of dazzling and innovative products and styles we offer today. At the heart of it all, we are committed to families, not fads and we design for people, not personas. We strive to go beyond your expectations, anticipate your needs and continually adapt to ensure your experience with the Hinkley products you bring into your home surpasses your expectations.

In the spirit of evolution, for the first time we are presenting our portfolio of products in separate Interior and Outdoor catalogs to simplify your research and inspire your selection process. The Interior catalog you are enjoying now takes on a dynamic new presentation with several key collections and a comprehensive overview of Hinkley's interior products, including chandeliers, pendants, sconces, flush and semi-flush mounts as well as a complete offering of superior Bath lighting, which features an incredible range of silhouettes and styles to choose from.

An artful curation of one of Hinkley's most exhilarating new collections features an inspiring collaboration with designer Lisa McDennon. Her modern, organic approach to lighting brings an entirely new spin that is rooted in her contemporary coastal aesthetic. Her dynamic LED chandelier is truly innovative, and it was our top choice to feature on the cover of our Interior catalog.

Rounding out the Interior presentation is our outstanding selection of luxury lighting from Fredrick Ramond. Statement silhouettes that are dazzling, bold and opulent cover a range of styles with an emphasis on luxe materials and skilled craftsmanship. We continue to honor the pioneering spirit of the Fredrick Ramond brand, which debuted in 1965 with a maverick's approach to lighting as an art form.

Of course, no shopping journey is complete without a powerful digital experience to complement it. I encourage you to visit hinkleylighting.com and immerse yourself in the incredible online world of Hinkley. Lastly, you astound us daily with your own interpretation of 'Life Aglow', when you choose our products to be a part of your homes and projects. Thank you for including us and keep sharing your #hinkleystyle. We are grateful for your passion for our products and brands and will work hard to continue earning your trust.

COLOR TEMPERATURE The comparative color appearance of a light source, measured in Kelvin (K).

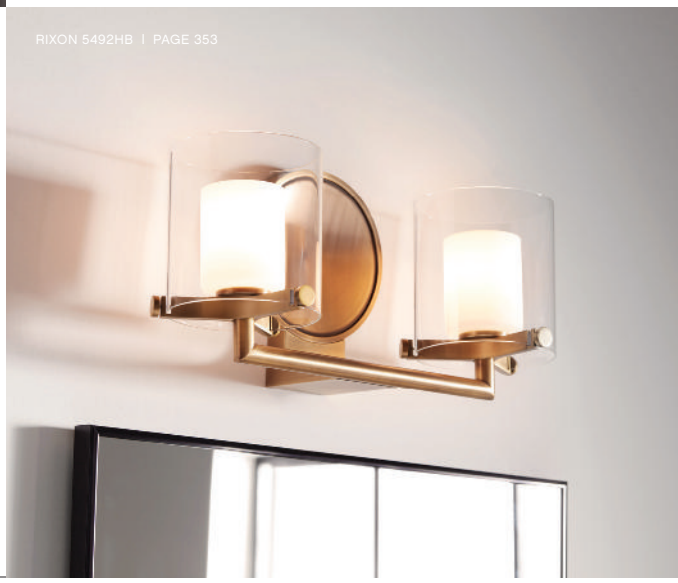

CRI (Color Rendering Index) The quality of light in how objects exhibit color compared to incandescent lamps.

INCANDESCENT EQUIVALENCY Resulting light intensity similar to same incandescent fixture with this wattage lamp.

LAGUNA™

FINISH Burnished Gold
GLASS Clear

Imagine a net gently breaking the water's surface, then slowly emerging with a cascade of droplets trickling through and shimmering with light. Laguna uses a hand-made open framework design in Burnished Gold as the foundation in this artistic interpretation. Clear glass droplets fall at varying lengths, casting the light. Minimal hanging wires ensure the net itself appears to float, as a candle cluster emits light from within.
