## FIXTURE ASSEMBLY INSTRUCTIONS

**Read and review installation instruction sheet before assembling the fixture.**

1220-SF RT

**For Semi-Flush version:**

1. Install the fixture Frame to ceiling then continue with Shade installation on Fig 1, Step 9

**NOTE: INSTALL THE SHADE ASSEMBLY AFTER THE FIXTURE IS HUNG.**

For Customer Service, contact the place of purchase to arrange for replacement parts.

# PARTS & ASSEMBLY SHEET

Fixture Name: Emptyreal 1220-SF RT

## ASSEMBLING THE FIXTURE as Chain hung (Fig.2)

1. Remove the Circular strap from top of Fixture and replace the long mounting screws with two short screws(O) to hold the Deco nuts (F) in place on the fixture Top cap (E).
  2. Feed the fixture wires through the Top loop (P) and pull the wires until taut. Then screw the Top Loop (P) to the coupler in Top Cap until tight.
  3. By measuring determine correct number of links needed for proper hanging height. Use a pair of pliers to open one link of the Chain (K) then remove the excess Chain (K) and discard it.
  4. Use one chain connector (L) to attach one end of the chain to the Top loop (J) and close the chain connector.
  5. Feed the fixture wires through the Chain (every three links) and pull the wires until taut.
  6. Slip Canopy loop collar (H) over the chain, then do the same with the canopy (G).
  7. When ready to complete the installation Use the other chain connector and attach the other end of the chain to the canopy loop (F) and close the chain connector.
  8. Make sure the weight of the chandelier will be supported by the chain-not the electrical wire.
- \* You may now install the fixture.
- Note: Complete these remaining steps after the fixture is hung.
9. Thread Nipple (H) into Socket Assembly (G), and lock into position by tightening Hex Nut.
  10. Install light bulbs in accordance with the fixture's specifications.
  11. Slide Shade (I) over Nipple (H) so the Nipple (H) protrudes through bottom of Shade (I), slide Rubber Washer (J), Metal Washer (K) over Nipple (H) and secure with Hex Nut (L)
  12. Slide Bottom Cap (M) over the Nipple (H), screw the Finial (N) onto the Nipple (H) until tight.

NOTE: DO NOT EXCEED THE MAXIMUM WATTAGE

Fig 1

DO NOT put the stone shade in dishwasher.  
To clean - wipe with damp cloth

For Customer Service, contact the place of purchase to arrange for replacement parts.

Subject: Onyx Shade Material

Dear Golden Customer,

Beautiful grain, organic color and solid weight of Onyx make it a great material for use on a light fixture. Onyx is a semiprecious translucent stone with color ranging from white to deep browns.

Onyx shades are carved from natural stone, therefore actual colors and striations may vary slightly from one piece to the next. Because the stone is natural, please understand that each shade piece is unique and one of a kind.

Golden Onyx shades are considered to be within the range of an amber color. Of course, the manufacturer controls the basic color and attempts to match the best they can. We have worked with them extensively and agreed on an acceptable range of Onyx color. All Onyx shades provided by Golden have been inspected and found to be within our color limit.

Please accept this with our best intentions to supply you with an elegant Onyx shade.
