 5. Thread Rod (U) into Frame (P) until tight.
 6. Thread Rod (M) into Rod (U) until tight. repeat for any additional rods.
 7. By measuring determine correct number of links needed for proper hanging height. Use a pair of pliers to open one link of the Chain (C2) then remove the excess Chain (C2) and discard it.
 8. Use one chain connector (E2) to attach one end of the chain to the Top loop (D2) and close the chain connector.
 9. Feed the fixture wires through the Chain (every three links) and pull the wires until taut.
 10. Slip Canopy loop collar (B2) over the chain, then do the same with the canopy (F2).
 11. When ready to complete the installation Use the other chain connector and attach the other end of the chain to the canopy loop (A2) and close the chain connector.
 12. Make sure the weight of the fixture will be supported by the chain-not the electrical wire.
* You may now install the fixture.
- Note: Complete these remaining steps after the fixture is hung.
