welcome to

# HINKLEY HOSPITALITY

---

Hinkley Hospitality provides you with a vast selection of LED and performance grade decorative lighting for the light commercial and hospitality markets. Drawing on our heritage of compelling design, outstanding quality and results-driven service, we are in a unique position to engineer and deliver the products you desire and the performance you need.

Our goal is to ensure the lighting you specify is a seamless process, from your initial creative spark to installation day and beyond. You can have complete confidence in bringing your creative vision to life with Hinkley. Throughout your project, we invite you to explore our diverse assortment of styles, participate in our unique approach to product customization, and trust in our shipping and fulfillment capabilities.

We are confident you will find our approach professional and refreshing. We look forward to earning your business.

Every client is different, and every project has unique demands. Hinkley believes that solving challenges is a collaborative process, whether it relates to performance, budget, timeline or aesthetic appeal – we are here to find solutions for you.

## UNIQUE FIXTURE SPECIFICATIONS

Our team of in-house designers and engineers are highly skilled in unique fixture specifications:

- > VARIOUS LIGHT SOURCE AND SOCKET CONFIGURATIONS
- > DISTINCT OPERATING VOLTAGES (12V/120V/277V)
- > SPECIFIED LUMEN OUTPUT, COLOR TEMPERATURE AND LIGHT PERFORMANCE
- > MULTIPLE DIMMING AND CONTROL PLATFORMS
- > EMERGENCY LIGHTING/BATTERY BACK-UP

Hinkley is able to offer you a solution-based specification process with speed and flexibility due in part to our ISO 17025 accredited product test lab. Under the Intertek® Satellite program, recognized at Level 4/Ulimate, the lab is operated by a dedicated team of certified test engineers. The on-premise lab conducts all required safety tests and inspections of fixtures, LED materials and drivers, to UL and CSA Standards.

Hinkley is fully committed to adhering to the codes and compliances in technology, specifications and government regulations to ensure safety and energy-efficiency.

# THE HINKLEY ADVANTAGE

## QUALITY

---

Hinkley products are the ultimate combination of style and substance, designed to fully integrate performance with style. It is our attention to detail, combined with the highest standards of materials and quality, that have helped set Hinkley apart since 1922. In addition:

- > We use ultra-durable outdoor materials and finishes resistant to ultraviolet and corrosive environments
- > Every fixture is carefully examined and inspected, from the stringent assembly and construction process, to the final finish application, as part of our exceptional quality control system
- > Durable, customized product packaging with all necessary mounting hardware ensures a successful delivery and installation process

## STYLE

---

Our decorative collections are brought to life by an inspiring team of creative artists and designers. The latest trends and styles in fashion, art, architecture and home décor infuse our collections to create a stunning portfolio of products that blend form and function.

A strategic family approach to our product line ensures incredible depth and variety. Multiple size and finish options of singular designs, as well as products that cross categories, make your selection process a breeze.

Hinkley integrates unique materials and finishing techniques into our designs. Stunning crystals, the finest jeweler's chain, robust steel ribbons, spun glass, hand-painted ceramic, natural agate, sun-bleached wood finials and hand-hammered steel bands are a few of the stunning elements in our lighting designs that will add panache to your project.

## WARRANTY

---

Hinkley offers a competitive warranty on all of our products with a lifetime warranty on a wide range of products and product components. For complete warranty information, visit [hinkleyhospitality.com](http://hinkleyhospitality.com).

## TECHNOLOGY

---

Hinkley engineers are passionate professionals supporting an agile research and development process. We offer a wide range of engineering services to offer advanced lighting solutions for you, including:

- > Integrated LED technology that is designed and built by our certified in-house engineers
- > Detailed luminaire specs that clearly communicate light output, light color, lifetime, compliancy, voltage and wattage to ensure all project requirements are satisfied
- > The in-house ability to add or modify existing LED technology allowing us to maintain total internal control over performance, quality and execution of your final lighting solution

## SERVICE & FULFILLMENT

---

Hinkley Hospitality's dedicated customer service team is available to collaborate and solve the unique requirements of your project and delivery needs.

We offer over 4,000 products with many items available to support projects with aggressive time lines that require immediate fulfillment. Hinkley's "Super Stock" assortment features a large selection of quick ship, high volume items that may be needed in large quantities.

Our designated customer portal allows you to check stock and monitor order status. Flexible delivery options allow Hinkley to meet any type of shipping identification your client requires, including warehousing, staging, labeling and unique fulfillment requirements.

## CONTACT US

To specify a project or ask questions regarding our customization options, contact [quotes@hinkleylighting.com](mailto:quotes@hinkleylighting.com) or call 1.800.446-5539.

## WIDE VARIETY OF STYLES

When you need interior fixtures that make a statement, Hinkley's wide range of chandelier and pendant styles mean the sky is the limit for your creativity, while ensuring unique solutions for every type of application and budget requirement.

## SUPERIOR EXTERIOR

Rain or shine, outdoor lighting from Hinkley is built to defy the elements. With 96 years of experience in outdoor lighting design, Hinkley recognizes that exterior fixtures require an added layer of protection from Mother Nature. Our team of in-house product designers is committed to developing style-forward products that mitigate the effects of atmospheric conditions such as UV rays, temperature extremes and precipitation.

## DECORATIVE BOLLARDS + PATH LIGHTS

When your project extends beyond the building to include the grounds and architectural landscape features, Hinkley has a full selection of low and line voltage landscape lighting to choose from. This includes decorative bollards and path lighting that can stand alone or combine with our coordinating exterior lanterns for a cohesive style statement.
