

Note: Use Drawing 1 for parts reference

Please follow mounting instructions prior to assembling fixture.

Steps for fixture assembly

1. Slip glass (1) over candle cluster and onto fixture base (2).
2. Place spider (B) inside glass and line up center hole with threaded hole in top of cluster. Thread center stem (3) into top of cluster body (A), and down onto top of spider. Spider assembly (B) should contact inside of glass to help support glass.
3. Slip fixture crown (4) over center stem (3).
4. Thread knurled cap on arm (C) to back plate (5). Tighten secondary knurled cap (D) to secure arm.
5. Thread top finial (6) onto center stem (3).

Note: Turn off power to junction box before proceeding.

1. Remove 6 ball knobs (4) from fixture and remove retaining plate (1).
2. Thread wires from junction box through 9/16" hole in retaining plate.
3. Remove appropriate knockouts and mount retainer plate (1) to outlet box (5). Using the 6 screws (3) provided.
4. Attach fixture backplate to wall using 6 ball knobs (4).

Note: Continue assembly of fixtures using instructions on front side.
