

ABACUS COLLECTION

HUBBARDTON FORGE.

MODULAR, SCALABLE LIGHTING

Longer, shorter, wider...the customizable nature of the Abacus is endless. Either side of a headboard, a 30' space divider with 15' ceilings, above a 10' long island, or over a dining table...the Abacus is as versatile as it gets. Custom options are available to accommodate specific applications.

LED TECHNOLOGY

Glass globes are individually lit via a frosted LED tube, powered by low-voltage cables.

CUSTOM OPTIONS

Working with local Vermont artisans, we can create custom colors and shapes to suit any design needs.

ADJUSTABLE

True to its namesake, the Abacus moves up and down its cable "rails" by virtue of tiny grippers on each side, that when squeezed, free the globe to slide and stop exactly where you want to position it.

GLASS COLOR SELECTION

Glass globes are offered in two standard colors (cool grey or opal). A variety of hand-blown, artisanal glass globes are additionally available as custom options for your Abacus.

The Abacus is offered in 9 different finish options—Gold, Black, Dark Smoke, Bronze, Mahogany, Burnished Steel, Natural Iron, Vintage Platinum, and Soft Gold.
