# INNOVATIONS *Mixed Metals*

There are rules to home decor that apply to mixing patterns, matching furniture or using only one type of wood. But the rules of home decor do not apply to decorating with mixed metals.

Innovations Lighting promotes the concept of mixed metals and encourages our buyers to design their lighting to suit their taste and decor. Mixing metals in your home lighting can add *depth, focus, elegance* and *charm* to any room in your home. Innovations Lighting allows you to personalize your lighting experience in home decor.
