

2020

CEILING FANS

KICHLER®

The image is a full-page background photograph of a modern interior. On the left, there is a tall, dark wood cabinet with a sliding door that is partially open, revealing a dark interior. The wall behind the cabinet is made of white bricks. To the right of the cabinet, there is a black shelving unit with a small potted plant on top. The floor is a light-colored, polished material. The overall aesthetic is minimalist and contemporary.

Style in Motion

A light and appliance all in one, Kichler® Ceiling Fans, help shed light on what matters most while they bring comfort and style to any room – inside or outside. From open areas to cozy bedrooms, from grand living rooms to outdoor patios, there's a Kichler ceiling fan designed for you.

Choosing The Right Size Ceiling Fan For Your Room

1

STEP ONE

Determine the square footage of your room.

Measure the length and the width of the room and then multiply. For example, 12 feet long x 10 feet wide = 120 square feet.

2

STEP TWO

Have a tall or cathedral ceiling?

Many Kichler® ceiling fans work with 8 or 9 foot ceilings. If your ceiling is higher, you'll need a downrod. The rule of thumb is that fans should have a minimum of 7 feet of clearance between the bottom of the fan blades and the floor in order to circulate the air efficiently.

3

STEP THREE

Determine the size fan you need:

<p>90 SQ. FT. OR LESS</p>	ROOM SIZE	ROOM TYPE	BLADE SWEEP
	90 square feet or less	<ul style="list-style-type: none">• Small bedroom or office• Galley kitchen• Outdoor applications	15" to 42"
<p>90-100 SQ. FT.</p>	ROOM SIZE	ROOM TYPE	BLADE SWEEP
	90 to 100 square feet	<ul style="list-style-type: none">• Over a kitchen table• Large walk-in closet• Laundry room• Small screened-in porch• Outdoor applications	44" to 48"
<p>100-150 SQ. FT.</p>	ROOM SIZE	ROOM TYPE	BLADE SWEEP
	100 to 150 square feet	<ul style="list-style-type: none">• Bedroom• Larger kitchen• Formal dining room• Outdoor applications	50" to 54"
<p>150-300 SQ. FT.</p>	ROOM SIZE	ROOM TYPE	BLADE SWEEP
	150 to 300 square feet	<ul style="list-style-type: none">• Great room• Large outdoor patio• Master suite• Outdoor applications	56" to 70" or multiple fans
<p>Over 300 SQ. FT.</p>	ROOM SIZE	ROOM TYPE	BLADE SWEEP
	Over 300 square feet	<ul style="list-style-type: none">• Lobbies• Restaurants• Large open spaces	Over 70" or multiple fans

Five Reasons to Choose a Kichler® DC Motor Fan:

1

USES UP TO 70% LESS ELECTRICITY
than Kichler® AC motor fans.

2

WHISPER QUIET OPERATION
virtually eliminates noise.

3

EASY INSTALLATION
thanks to a light-weight motor.

4

LIFETIME LIMITED WARRANTY
on all Kichler® fans. Visit [Kichler.com/Warranty](https://www.kichler.com/Warranty)
for details.

5

COOLTOUCH™ 6-SPEED REMOTE
OR WALL CONTROL
comes standard with all of our Kichler® DC
motor fans for full-function operation.

Why Choose Kichler® LED Ceiling Fans?

REPLACEABLE LIGHT SOURCE

All Kichler® LED light sources, whether an integrated module or lamps, are replaceable, which makes them an easy choice for a long-lasting fixture.

ENERGY EFFICIENCY

LED light sources are up to 90% more efficient than fluorescent or incandescent light sources.

TESTED & APPROVED

Kichler® integrated LED light sources are tested and approved to meet our rigid engineering standards and quality assurance requirements.

ENHANCED LIGHT QUALITY

Kichler® integrated LED light sources produce 1,600+ lumens of light, greater output than two 60W incandescent bulbs or one 100W incandescent bulb. And with a Color Rendering Index (CRI) of 80, Kichler LED light sources help you more accurately see the color and subtleties of the objects being illuminated.

LESS WATTAGE EQUALS LESS WASTE

Most Kichler® integrated LED modules use only 17W versus a 100W incandescent bulb, resulting in significant energy savings.

Ceiling Fan Performance Guide

Here's what the numbers mean to you.

Designing ceiling fans that maximize performance for our customers has always been how we do business. We proudly display a rating system for each fan we offer, so you can compare fans with confidence.

Look for this rating guide listed with every Kichler® fan.

AIR PERFORMANCE		
AIRFLOW Cubic Ft. Per Minute on High	POWER USAGE Watts on High (Excludes Lights)	AIRFLOW EFFICIENCY Cubic Ft. Per Minute Per Watt
6225	73	86

Engineered for Optimal AIRFLOW

Airflow is measured in Cubic Feet Per Minute (CFM) – a U.S. Government-mandated standard.

- The higher the airflow number, the more air the fan is circulating.

Designed for Minimum POWER USAGE

Power usage for your fan motor is measured in watts.

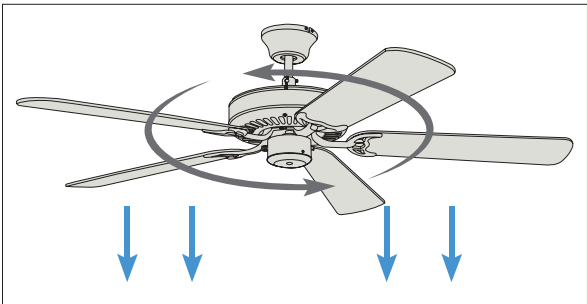

- The lower the watts, the less energy the fan consumes.
- DC motor ceiling fans are the most energy-efficient, using the least amount of wattage.

Built for Enhanced AIRFLOW EFFICIENCY

Airflow efficiency gives you the total picture: dividing the fan's CFMs by the watts of power it consumes.

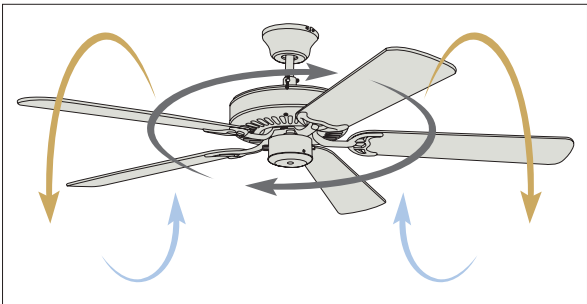

- The higher the airflow efficiency number, the more air the fan is moving per watt.

Circulate Air With The Seasons

COUNTER-CLOCKWISE

When it's hot outside, set the fan to rotate counter-clockwise. The blades will push air down – creating a breeze or cooling effect on the people in the room.

CLOCKWISE

In the winter, set the fan to rotate clockwise. The blades will pull the air up and around, moving the warm air that rises to the ceiling back down to the living space.

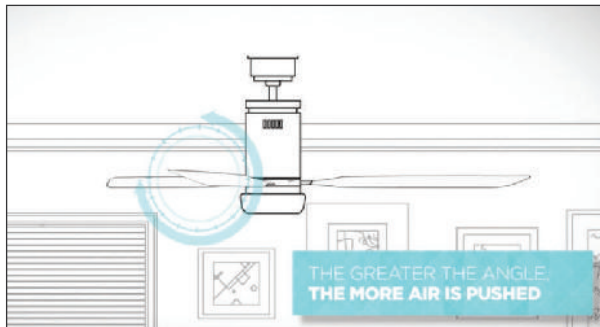

By changing the fan direction, you can adjust your thermostat up to +4° F when it's hot and -2° F when it's cold, which can save on energy costs.

Educational Videos

Need help? Watch our Kichler Fan Fast Facts at [Kichler.com/FanFastFacts](https://www.kichler.com/FanFastFacts)

Blade Pitch

What is blade pitch and why is it so important for a ceiling fan? What affects airflow efficiency? Let Kichler Fan Fast Facts help you make the most of your ceiling fan.

Fans with Lights

Kichler® ceiling fans with lighting energize and add ambiance to any space, both in terms of style and function. So how do you pick the lighting that's right for a space? Let Kichler Fan Fast Facts help.

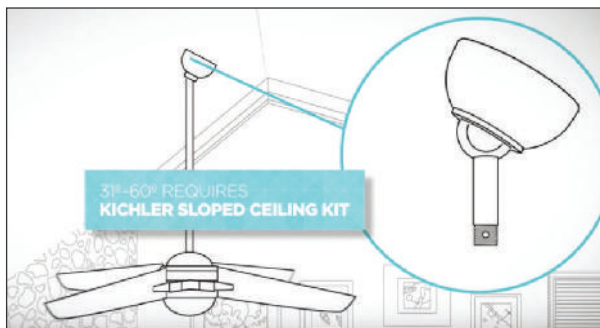

Location

What's the best placement of a ceiling fan? Any do's and don'ts for hanging a ceiling fan? Let Kichler Fan Fast Facts help you make the most of your ceiling fan.

Outdoor Fans

Which fan is right for an outdoor space? Damp-rated fans work in high-humidity areas that won't have direct contact to rain or the elements. Wet-rated fans can handle rain and water spray, as well as direct exposure to the sun. CLIMATES™ fans can withstand the harshest outdoor elements.

Sloped Ceilings

How do you hang a ceiling fan on a sloped ceiling? How steep is too steep? Is an adapter required to hang your fan? Let Kichler Fan Fast Facts help you make the most of your ceiling fan.

Bluetooth® Technology

Did you know that with a Kichler Bluetooth® speaker light kit you can turn your ceiling fan into a sound system? Get the details and see the technology in action with Kichler Fan Fast Facts.

Advanced Product Solutions & Layout (APS)

Helping You Get The Job Done.

Our Advanced Product Solutions & Layout (APS) Team is a free service provided to our partners to help with design, layout, and technical challenges.

Need to know which cabinet lights to use in a kitchen? Or how to achieve the best lighting effects for your landscape project? Send our layout team your plan. Want to understand how one of our products will operate in a unique location? Give our Technical Support Team a call.

CERTIFIED EXPERTS

With years of combined technical and design training, our APS team is ready to support your layout design service needs for the interior, exterior, commercial, or residential spaces, as well as technical guidance on our entire product line.

A FREE service, only for Kichler partners.

APS LAYOUT SERVICES

This layout design service is available to all Kichler Lighting partners.

- 1 Email us at layouts@kichler.com with a completed design request form (available at Kichler.com/APS) along with any drawings or pictures related to the job.
- 2 Our team will create a bill of materials (BOM) and email it back to you.
- 3 Once you confirm the BOM and pricing, we'll return a completed layout design.

APS TECHNICAL SUPPORT

No question is too complex. We're available 8:00 AM to 6:30 PM EST, Monday-Friday.

Call us at 844-KICHLER (844-542-4537) or email us at techsupport@kichler.com.

Visit Kichler.com/APS to get started

Indoor Living

Add a breath of fresh air to any room.

Any size, any finish, any style... Kichler®'s comprehensive offering turns ceiling fans into focal points you'll love looking at in any room – even laundry rooms and master closets. We offer one of the largest collections of modern styles available, and feature some of the most unique textures you'll find including Anvil Iron, Satin Black, Weathered White Walnut, Bamboo, Brushed Nickel, Weathered Zinc, Walnut and many more.

Bring it all together.

Carry the look and the light throughout a room to create an effect you'll love for years.

1

Get the ambient effect of a recessed fixture with a seamless look.

Symbol Guide

DC MOTOR CEILING FANS

The ultimate in energy-efficient operation

- Use up to 70% less electricity than AC motor fans
- Have whisper-quiet operation
- Cool and efficient operation extends motor life

ENERGY STAR® CEILING FANS

The trusted, government-backed symbol for energy-efficient products

- Meet strict guidelines set by the U.S. Environmental Protection Agency (EPA)
- Are 40% more efficient than conventional fan/light units
- Come with highly efficient light source options

LED LIGHT KIT CEILING FANS

Feature a long life, light source that is extremely energy efficient

- All Kichler® LED light sources are replaceable, whether an integrated LED module or lamps
- Use up to 90% less energy than incandescent light sources and are a low-maintenance alternative
- Last up to 20 times longer than incandescent light sources
- Generate less heat than incandescent light sources

DAMP LOCATIONS

DAMP-RATED CEILING FANS

Engineered for high-humidity areas

- For enclosed porches, sunrooms, bathrooms and more
- Have water-resistant, durable finishes
- Incorporate galvanized undercoating on all metal surfaces
- Include stainless-steel mounting hardware
- Feature all-weather ABS plastic or sealed wood blades

WET LOCATIONS

WET-RATED CEILING FANS

For open or direct exposure to sun, rain or water spray

- Are ideal for pergolas, lanais, open porches and more
- Have highly durable finishes against rain and snow
- Feature stainless-steel mounting hardware
- Include all-weather ABS plastic blades

DRY LOCATIONS

DRY-RATED CEILING FANS

- Rated for indoor use only and are NOT intended for damp or wet locations

EXCELLENT QUALITY, SLEEK
AND BEAUTIFUL!

“ This has to be one of the most beautiful fans I have ever seen! Installation was simple, once we figured out how to get to our 18 ft ceiling. Instructions are very detailed, which I appreciate. Controls are fairly simple once you read through the booklet. Great power and creates a good breeze to cool our home. Over all wonderful quality, and just stunning! ”

- Ar38special | West Virginia

Imari LED

With a 65-inch blade span, Imari offers airflow to fit the occasion. The propeller-inspired single-mold three-blade design creates a clean, sophisticated look. The LED light source provides 2,300 lumens of output – about the equivalent of two 150-watt incandescent light bulbs – for a substantial amount of room-filling ambient light.

AMAZING LIGHT FIXTURE

“ I love this ceiling fan. It took minutes to install, it is exceptionally beautiful, and the quality of the piece is outstanding. You can not hear it when it is on, which is important because it is in my bedroom. I love the color, it is kind of an espresso wood color. Because mine is so beautiful, my mother went and bought one! I plan to have one in every room of my house. ”

- Kayla McCoy | Gibraltar, MI

Jade LED

The Japanese art of origami is known for turning a flat plane into a sculpture. Jade's intricately engineered folds work in harmony to move air effectively.

THE BEST CEILING FAN
I HAVE EVER OWNED!

“ This ceiling fan has both a beautiful modern sleek design as well as superior functionality. The 60 inch span and unique design of the blades provides amazing air flow. The instructions were easy to follow and install was simple. I would highly recommend this product to anyone who wants an above average ceiling fixture. ”

- AshlyKaye | Orange, VA

FAN-TASTIC FAN!

“ This fan is great! It was easy to install for my husband and the directions were simple enough to follow. The fan itself feels durable. The design is flawless and looks great in the room. It is quiet and moves the perfect amount of air. ”

- MRRN | Michigan

KICHLER'S FANS ARE THE BEST!

“ Another great Kichler product! Having acquired this fan online, I was not sure about the materials and how it looked in person. The moment I "deboxed" and started putting this fan together, I knew it was another extremely great quality product from Kichler. This fan is huge, the blades are metal and can seriously put off some breeze. I also love the fact that if you are using it for outside and do not need the light kit, they already have a metal cover to go over it. Plus the wall mounted remote and switch is really convenient. I cannot praise Kichler enough, 2nd product from them and many more to come! ”

STEP 3

Choose Blade Material
(Wood or Polycarbonate) and Finish

Wood Reversible Blade Sets

Polycarbonate Non-Reversible Blade Sets

STEP 4

Choose Blade Length
(58", 48" or 38")

Three Blade Lengths to Choose from

Ordering Example

If you chose the Antique Pewter motor assembly, order 300146AP.

Then

You might order the matching Incandescent Light Kit, order 380047AP.

Then

Finally, you choose the Polycarbonate Clear Black 58" Blade Sets, order 370030AP.

60" KICHLER LYNDON™ PATIO
CEILING FAN

“ This is an amazing ceiling fan. It was very easy to install and works great. I love that I don't have to worry about it getting wet and breaking during a bad storm since its meant for outdoor use however, you're able to use it indoors also. ”

Accessories

Want to enhance your ceiling fan? Simple tweaks can make a big impact. To help, we offer a variety of ceiling fan accessories such as wall and remote controls, light kits, blades, and shades to help change the look of your ceiling fan.

AC Control Systems

Includes transmitter and receiver.

371082 WH (shown) CoolTouch™ Handheld Control System – Limited Function

W

- Designed for AC motor fans
- **65K Code**
- 3 Forward Speeds, Motor Off
- Manual Reverse
- Lights on/off with full-range dimming (including LED light sources). On/off only for fluorescent.
- Wet-rated for indoor/outdoor covered areas. Wireless radio frequency operational radius of 30' or less.
- Replaces any single-wall switch or mounts on any flat surface. Retrofits most pull chain fans and most ceiling fan brands.
- Includes transmitter and canopy-mounted, learn mode receiver with 65,000 code settings. Also includes wall bracket and mounting hardware, plus replaceable long-life lithium batteries. Transmitter is Dry-rated for indoor use only. **CoolTouch Limited Function also available in Almond (ALM) and Ivory (IV) faceplate colors – 370010.**

Available Transmitter
371062 MULTR

AC Fan Hardwire Wall Controls

Dual-Slide Control – Fan/Light 337010 ALM, IV, WH (shown)

- Designed for AC Motor Fans
- **Max 1.25 Amp**
- Fan speed and light control
- Controls 1 fan and light
- Full-range dimming light control
- Includes faceplate. Requires 3 wire + ground installation. For use with most AC ceiling fans.

4-Speed Wall Control – Rotary 370040

- Designed for AC Motor Fans
- Max 10 Amp
- Controls multiple fans on one circuit
- Brushed Aluminum faceplate with black control knob. For use with most AC ceiling fans.

4-Speed Slide Control – Fan only 337012 ALM (shown), IV, WH

- Designed for AC Motor Fans
- **Max 1.25 Amp**
- 4-Speed fan control
- Controls 1 fan
- Includes faceplate. Can be used in dual gang box alongside our Dimmer Slide Control 337011. For use with most AC ceiling fans.

4-Speed Wall Control – Rotary 370032MUL

- Designed for AC Motor Fans
- Max 5 Amp
- Controls 2 or 3 fans (3 max.)
- Includes Almond, Ivory, and White faceplates and control knobs. For use with most AC ceiling fans.

Dimmer Slide Control – Light only 337011 ALM, IV (shown), WH

- Designed for AC Motor Fans
- **Max 600W**
- Full-range light dimmer
- Controls 1 fan light or light fixture
- Full-range dimming light control
- Includes faceplate. Can be used in dual gang box alongside our 4-Speed Slide Control 337012. For use with most AC ceiling fans.

DC Control Systems

6-Speed DC Wall Transmitter – Full Function 370036 ALMTR, IVTR, WHTR (shown)

- **DC Motor Fans only**
- 6 Forward Speeds, Reverse, and Motor Off
- Lights on/off with full-range dimming
- Sold separately
- Includes White faceplate and mounting hardware. No more than two fans on one circuit.

6-Speed DC CoolTouch™ Transmitter – Full Function 371075

- **DC Motor Fans only**
- 6 Forward Speeds, Reverse, and Motor Off
- Lights on/off with full-range dimming
- Sold separately
- Includes White faceplate and mounting hardware. No more than two fans on one circuit.

Accessory Blades

For use exclusively with Canfield™ 52"/54"/56" (320500) and Canfield™ XL Patio 60" (310193) Outdoor/Indoor ceiling fans.

W Select blades are wet-rated, for installation in open porches and patios, or anywhere that is exposed directly to water spray or rain. All are constructed from durable ABS plastic to resist weathering, even in the harshest elements.

D Optional hand-carved, solid wood blades feature a moisture-resistant coating, appropriate for covered patios, verandas and other areas protected from direct exposure to the elements.

Equivalent Light Output

To determine which qualified CFL light bulbs will provide the same amount of light as your current incandescent light bulbs, consult the following chart:

Incandescent Light Bulbs Watts (W)	Incandescent Minimum Light Bulbs Lumens (lm)	Common CFL Light Bulbs Watts (W)
40W	450 lm	9W - 13W
60W	800 lm	13W - 15W
75W	1,100 lm	18W - 25W
100W	1,600 lm	23W - 30W
150W	2,600 lm	30W - 52W

- Lamps are included with all light kits.
- Wattages stated are the maximum recommended; however, you may use lower wattage lamps to suit your lighting needs.
- All electrical products are certified and listed to UL/CSA/ETL Standards for use in U.S. and Canada.

Inspirational.
Helpful. Mindful.

Symbol Guide & Notes

SYMBOL GUIDE

DC MOTOR CEILING FANS

The ultimate in energy-efficient operation

ENERGY STAR® CEILING FANS

The trusted, government-backed symbol for energy-efficient products

LED LIGHT KIT CEILING FANS

Feature a long life, light source that is extremely energy efficient

DAMP LOCATIONS

DAMP-RATED CEILING FANS

Engineered for high-humidity areas

WET LOCATIONS

WET-RATED CEILING FANS

For open or direct exposure to sun, rain or water spray

DRY LOCATIONS

DRY-RATED CEILING FANS

Rated for indoor use only and are NOT intended for damp or wet locations

Federal Communications Commission devices designated with this logo comply with part 15 of the FCC Rules

NOTES

- Bulbs not included unless otherwise noted.
- Wattages stated are the maximum recommended; however, you may use lower wattage lamps to suit your lighting needs. Some recommended lamps are not available in the maximum allowable wattage.
- All electrical products are rated as 120-volt, AC unless otherwise noted.
- All electrical products are certified and listed to UL/CSA/ETL Standards for use in U.S. and Canada except where noted.
- All products featured in the outdoor section are certified and listed to UL/CSA/ETL standards for wet location except where noted.
- Many long-life tungsten halogen capsule lamps are now available as alternates to conventional incandescent light bulbs. The halogen capsule lamps may be used to replace any lamp of a higher wattage, but not to exceed the existing specified maximum wattage, i.e., 72W may replace a 75W.
- Finishes for fixtures installed outdoors are subject to change due to prolonged exposure to sunlight, airborne pollutants and other forms of weathering.
- To serve you better, Kichler reserves the right to make improvements to the products in this catalog. Therefore, some products may change during the life of the catalog and the product information contained in this catalog may also have changed.
- Kichler® lighting products are not produced or associated with any Native American Indians, nor are they a Native American product or the product of a particular Indian, Indian tribe or Indian arts and crafts organization as defined by 25 U.S.C. §305 et. seq.

CONSUMER NOTICE

Federal Legislation to phase out 100W incandescent bulbs started January 2012.

The federal government enacted the Energy Independence and Security Act of 2007 in December 2007, requiring all general-purpose light bulbs that produce 310–2600 lumens of light be 30% more energy efficient (similar to current halogen lamps) than current incandescent bulbs by 2014. The efficiency standards started with 100W bulbs in January 2012 and will end with 40W bulbs in January 2014.

Light bulbs outside of this range are exempt from the restrictions (historically, less than 40W or more than 150W). Also exempt are several classes of specialty lights, including appliance lamps, rough service bulbs, 3-way, colored lamps, and plant lights.

By 2020, a second tier of restrictions will become effective; which requires all general-purpose bulbs to produce at least 45 lumens per watt (similar to current CFLs). Exempt from the Act are reflector flood, 3-way, candelabra, colored and other specialty bulbs.

Many governments worldwide have passed measures to prohibit the sale of incandescent light bulbs for general lighting. The aim is to encourage use of more energy-efficient lighting alternatives, such as compact fluorescent lamps (CFLs) and LED lamps.

References: www.energy.senate.gov

We go to great lengths to assure the metal, glass finishes and blades shown in the catalog match the actual products, but printing variations and variations in chemical finishes and the nature of hand-applied finishing will cause some differences between the printed images and actual product, and from one product to another.

We use only non-ferrous materials on the exterior parts of our outdoor products, and use the best available weather-resistant finishes. However, due to some extreme environmental conditions such as acid rain, salt air and ultraviolet exposure, we cannot guarantee our exterior finishes, with the exception of our LifeBrite® lanterns.

Due to environmental conditions such as soil acidity, concrete alkalinity and other corrosive soil and air conditions, we cannot guarantee our direct burial posts.

Our Vision

At Kichler Lighting, everything we do, every single day, is with the intention of creating and delivering products that allow people to see what matters most to them. We will do that by relentlessly pursuing quality, ensuring continued innovation, always going one step further in our commitment to exceptional customer service and education, as well as creating on-trend designs that are both stylish and “life-stylish,” promising to deliver project success for you.

Get inspired at **Kichler.com**

KICHLER®
