1) Turn off power.
2) Assemble mounting screws into threaded holes in mounting strap.
3) Attach mounting strap to outlet box. (Screws not provided)
4) Grounding instructions: (See Illus. A or B).
    A)   On fixtures where mounting strap is provided with a hole and two raise dimples. Wrap ground wire from outlet box around green ground screw, and thread into hole.
    B)   On fixtures where a cupped washer is provided. Put ground wire from outlet box under cupped washer and green ground screw and thread screw into hole in mounting strap.
    If fixture is provided with ground wire. Connect fixture ground wire to outlet box ground wire with wire connector, (not provided) after following the above steps. Never connect ground wire to black or white power supply wires.

5) Make wire connections (connectors not provided.) Reference chart below for correct connections and wire accordingly.

Connect Black or Red Supply Wire to:	Connect White Supply Wire to:
Black	White
*Parallel cord (round & smooth)	*Parallel cord (square & ridged)
Clear, Brown, Gold or Black without tracer	Clear, Brown, Gold or Black with tracer
Insulated wire (other than green) with copper conductor	Insulated wire (other than green) with silver conductor

*Note: When parallel wires (SPT I & SPT II) are used. The neutral wire is square shaped or ridged and the other wire will be round in shape or smooth (see illus.)

Neutral Wire

6) Push fixture to ceiling so mounting screws can pass through keyhole slots. Turn fixture until screwheads appear as in detail. Tighten screws.
7) Push bulb into socket. Turn bulb to the right slightly to lock bulb in place.
8) Raise glass up to fixture fitting glass inside edge of fixture.
9) Thread thumbscrews through holes along edge of fixture.
10) Tighten thumbscrews to secure glass in place.
