Lamp Works

Utilizing the latest technologies, our company has the unique ability to create items that draw inspiration from nature while embodying sleek modern design attributes.

Our award winning designers and engineers search the globe for the finest metals, fabrics, woods and other natural materials to create our exquisite collections. Our lighting designers carefully select the appropriate materials for each design. The lighting bodies utilize various materials ranging from cast metals, embossed ceramics, mouth blown and textured glass and carved woods to compliment each style. A great lamp design would not be complete without a coordinating shade in the proper scale, shape and texture. We select fine silks, linens or other natural and man-made fibers to create our vast array of shade styles.

By combining modern technology with old-world craftsmanship ensures we offer you the highest standards of quality, innovation and design. Most of our lamps can be outfitted with fluorescent lamps or LED technology and can be customized according to your specifications. Additionally, many of our lamps can be outfitted with modern conveniences like USB ports and convenience outlets.

We invite you to explore our unrivaled array of distinctive products and hope this catalog inspires you to select a lamp that will prove to be a brilliant addition to your surroundings.

Sincerely,

Bradford Smith

Chief Executive Officer
ELK Group International

COLLABORATION

Working in unison, our design team incorporates the latest “next-trend” materials and techniques across our complete line of lighting, furniture, art, and accessory brands. Together, these creative threads form an array of complimentary home furnishing options.

TRADITION

For more than 30 years, discerning customers have known our brands to be synonymous with a commitment to transcend the boundaries of innovation and style while offering artful lighting and décor products.

COMMUNITY

The foundation of our social responsibility programs is ingrained in the ideal that the support given today benefits the generations of tomorrow. We provide aid to organizations such as Habitat for Humanity, Concourse for Kids, the Embrace Kids Foundation, and many local community programs. We also fight global deforestation through a semi-annual tree planting initiative and limit the use of natural resources through implementation of the latest energy- saving lighting technologies.

INNOVATION

Our award-winning, international team of designers and engineers brings visionary thinking to the product development process; we constantly strive to echo themes from the past while creating the styles of the future. In this quest, we uphold a pioneering role in the development of technical and aesthetic aspects that challenge convention.

CRAFTSMANSHIP

From inspiration to design, our curators carefully select quality materials and the appropriate techniques to capture the essential elements of each collection. The character, depth, and richness of the finished pieces reflect the ingenuity and passion of our collective desire to distinguish and define our brand.

THE UBIQUITY OF NATURE'S
INSPIRATION FUELS OUR MINDS
AND CAPTIVATES OUR HEART
