
Spring/Summer **2016**

L:ightsUp

www.lightsuplighting.com

sales@lightsuplighting.com

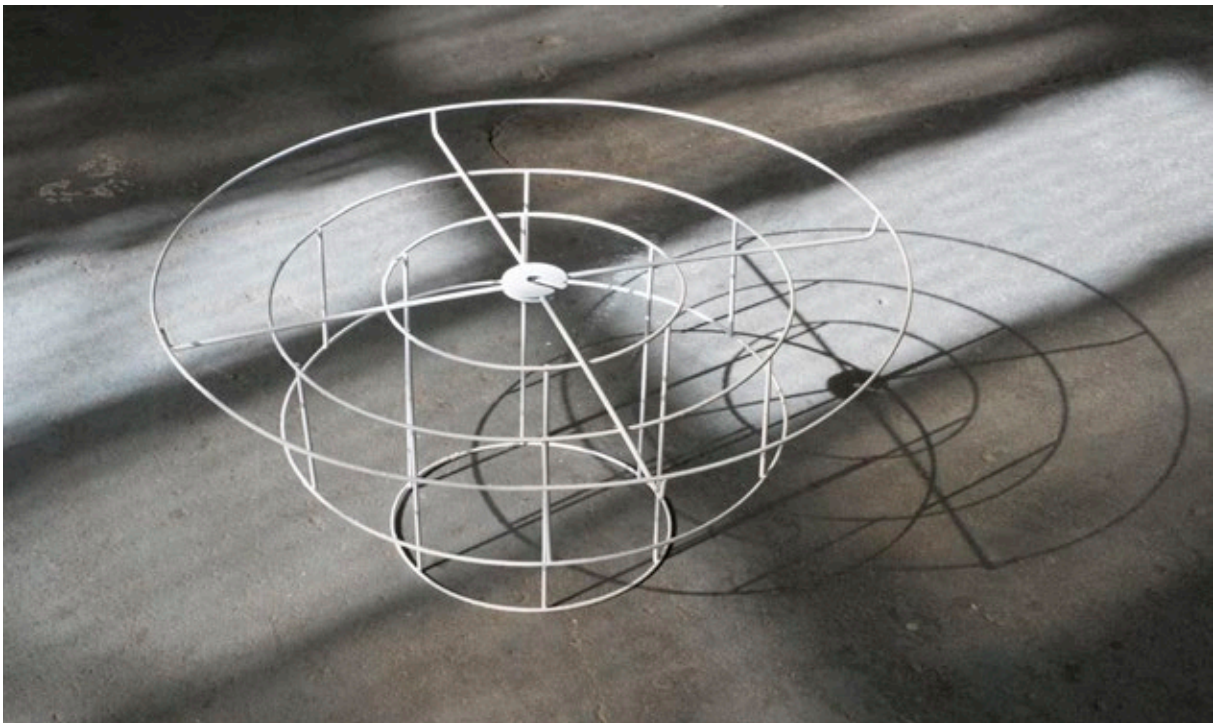

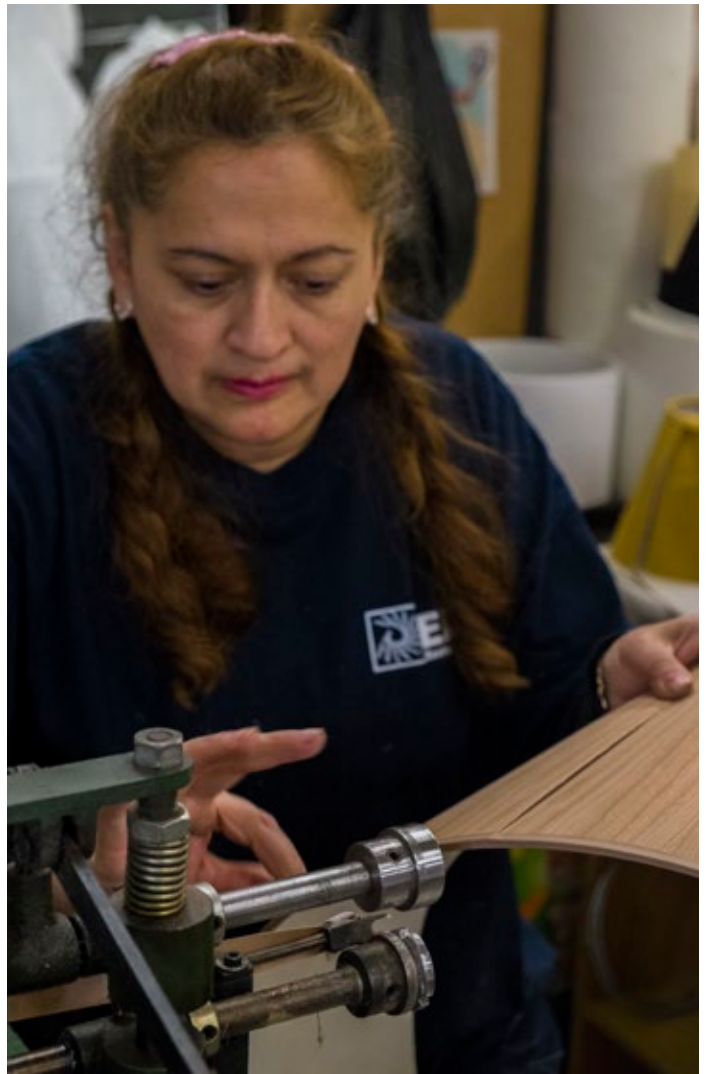

Lights Up has been creating functional and ambient lighting in industrial Brooklyn, NY since 1987. Our lighting is designed under the creative direction of Rachel Simon, with a focus on quality of light and quality of life. All Lights Up bespoke lamp shades are made by hand in our factory in Brooklyn, with a selection of over 60 shade material options, including 100% recycled PET fabric for our exclusive print patterns, and responsibly forested wood veneers. All Lights Up lighting is UL and/or ETL listed, and LED & CFL compatible (and encouraged!)

For 2016 we have several stunning new portable groups, from the cased-glass elegance of the Martha and Colette to the functional integrated LEDs of the BIP Torchiere. As always, we believe in light you can read by, light that creates a space and flatters all that is in it; in short, Modern Lighting For Easy Living.

Enjoy!

LightsUp

OUR FACTORY IN BROOKLYN PRODUCES ALL OF OUR WIRE FRAMES AND FABRIC SHADES BY HAND USING **TRADITIONAL EQUIPMENT** AND **NEW TECHNIQUES**

Lights Up has always been headquartered in Brooklyn, NY. Our current factory in Industry City integrates facilities for design, inventory, and on-demand shade manufacturing under one roof, which allows us to offer a combination of quality, value and flexibility unique in contemporary lighting. We partner with other manufacturers in Brooklyn, the US, and abroad to create our distinctive look, but our fixtures are always designed to take advantage of our shade-making capabilities. We take pride in being a US manufacturer, and in our most important resource, the skills and experience of our craftspeople.

Kevin Clip Light

LightsUp

Kevin Clip Light

Lights Up is proud to introduce the Kevin Clip Light, a contemporary take on the industrial work lighting classic. Inspired by the need for functional yet aesthetic lighting in settings where a larger or more permanently-installed fixture doesn't serve, the Kevin Clip Light fits in any number of settings. It easily clips over an under-lit countertop or adds a reading light in a tight corner where a table or floor lamp can't fit.

"We think customers will find all kinds of uses for this simple, versatile piece, since they may already have something similar as a temporary solution. The difference is, they won't need to call the Kevin Clip Light temporary," says Rachel Simon, President and Founder of Lights Up.

The Kevin Clip Light comes in two sizes, a 6" shade and a 12" shade, with 15 shade material options, all made to order in the Lights Up shade factory in Brooklyn, NY. This versatility allows customers to tailor the light to their own personal aesthetic. From a black and silver foil shade that creates a dramatic directed light, to a Faux Bois printed shade for a bit of pop, or a Duotrans shade for a contemporary translucent aesthetic, the Kevin Clip Light offers a brilliant combination of style and function in one easy-to-use, easy-to-move package.

The Walker collection is our contemporary take on arc and bridge lamps. The pivoting shade and the on-off switch on the base make the table lamp a very functional light for bedsides or desks, while the branching neck tempers the minimalism with a hint of the organic.

Duck and Pops Deluxe

Lights Up is proud to share two new additions to our American Ceramic Collection. The Duck table lamp and the Pops Deluxe table lamp combine the warmth of local maple wood with the texture of brushed ceramics. The distinctive Mid-Century silhouettes combined with period complementary woven linen shades present a stunning new pair to our line.

"It's a satisfying feeling to bring different domestic resources together and present well-made Mid-Century inspired designs. So many of our favorite classic Mid-Century pieces were originally made in the USA," says Rachel Simon, President and Founder of Lights Up, "And they easily fit in with our overall Lights Up aesthetic

of modern design; comfortable, affordable lighting you can read by."

The Duck and Pops Deluxe are offered in 2 ceramic finishes with stained maple and brushed brass accents: Cast Iron is dark and deeply textured. Bisque is soft and lightly brushed. The Duck is also available in Rust, not because Rachel secretly wants it for her home, but because it has a deep multi-layered copper finish that is the perfect pairing with the shape.

The Walker is our slimmed-down chandelier design. We got rid of the crystals but kept the multiple bulbs for drama and style. Minimal and elegant, they're perfect for dining rooms, living rooms and entry ways.

Shown in Brushed Nickel with our Copper Duotrans shade

9207BN-CDT Deco Pendant in Copper Duotrans

Duotrans Shade Materials

Combining all the gorgeous material qualities of glass and metal while keeping the flexibility and light weight of our classic fabrics, this new group of materials redefines the shade. Great with vintage filament, globe, clear, and other deco bulbs for a magical light.

CDT Copper Duotrans - Brushed copper off, warm glow on

GDT Gold Duotrans - Brushed brass/gold off, warm glow on

SDT Silver Duotrans - Brushed nickel/silver off, cool glow on

QDT Quilted Black/Gold Duotrans - Patent leather off, warm glow on, slightly translucent

ODT Opal Duotrans - Pearly dichroic effect

UFT Ultrafrost - Similar to etched glass, great for the bottom of drum shades as well

RODNEY DANGERFIELD

Custom Projects, Hospitality & Contract

Lights Up offers our lighting expertise for your custom, new construction, or retrofit projects. With our 40-year-old lamp shade factory, decades of experience, and a modern aesthetic, we offer a full range of LED, low-voltage and fluorescent lighting technologies, as well as replacement and OEM lamp shades.

- We are happy to competitively quote on custom fixtures and lamp shades in any of our fabrics, or customer-provided fabrics.
- Lead times generally range from two to four weeks. Very large or technically complex orders can take longer.
- We work easily with custom sizes, shapes and materials.
- All shades are made to order at our Brooklyn, NY factory using the same equipment that produces the Lights Up line, which means shorter lead times, more options, higher quality, and lower freight, and American-made pride.
- We produce shades for many of the most recognized names in hospitality and lighting on a regular basis.
- Please contact sales@lightsuplighting.com for more information, or contact your local Lights Up rep.
