

MODERN FORMS
A WAC LIGHTING COMPANY

Within these pages, you will find plentiful products that meet ADA and Dark Sky compliance, many with universal voltage input (120V-277V) or other custom order options, all in a variety of sizes that permit maximum versatility in style and application.

We also invite you to explore the possibilities of working with a true manufacturer where your needs may require something custom. For more information, contact MODERN FORMS.
www.MODERNFORMS.com.

About MODERN FORMS

Engineered to the finest detail for unsurpassed performance and design sophistication, MODERN FORMS was established as a future forward manufacturer and innovative brand of unique upscale all LED luminaires. Founded as an independent subsidiary of WAC Lighting, MODERN FORMS took North America by storm in the last five years with avant garde designs that leverage exclusive LED technology developed by WAC Lighting engineering.

MODERN FORMS is designed to complement a diverse array of architectural interiors and exteriors while delivering high quality, functional illumination for luxury homes, hotels and commercial spaces. Each design is lovingly developed by our in-house designers to showcase innovative applications of upscale materials and painstakingly engineered for the tangible details that convey quality and years of robust performance.

MODERN FORMS offers a vast presentation that achieves superior illumination from clean upscale forms only made possible with proprietary LED technology. Premium powder coat and plated finishes, marine-grade stainless steel constructed designs, gold and silver leafing, and exclusively developed glass and crystal techniques are just a few of the features that speak to discriminating specifiers.

With over 30 years of experience as a vertically-integrated luminaire designer-manufacturer and over a hundred engineers on staff, we are confident that you will discover a unique experience at MODERN FORMS.

LED

Bath & Interior Sconces

Distinctive designs aspire to the ultimate modern aesthetic with innovative styling so inspiring that they can anchor the room decor. Best in class bath lighting emerges with versatile LED vanity and interior sconces. Perfect for flattering shadow-free illumination in fine baths or cutting-edge wall luminaires in other residential, hospitality and commercial spaces. Many styles mount both vertically and horizontally. These standout designs also offer long lasting quality light and superior lifelike color rendition with proprietary state of the art LED and driver technology. Multiple color temperature options are available to best represent colors in various design requirements and interior environments.

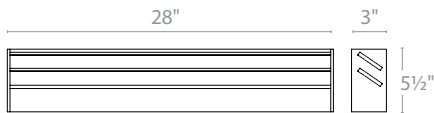

Louvre

New Collection

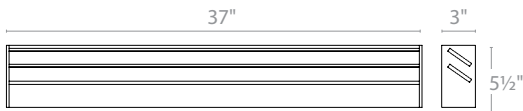

Louvered architectural details have historically conveyed intrigue with a play of natural light. Adapted now as an innovative LED luminaire with a sturdy louvered glass design featuring up and down lights, the simple structure is timeless and elegant. A unique low profile format with a modern aesthetic enhances interiors in residential, commercial and hospitality environments. Yields warm ambient and flattering downward illumination and excellent color rendition for today's fine baths.

- ADA compliant, Low profile design
- ETL & cETL damp location listed
- Aluminum construction
- 8mm etched glass panels
- No transformer or driver required
- Full range dimming when used with compatible dimmers*
- Up & down light
- 277V option available (special order)
- 50,000 hour rated life
- Color Temp: 3000K
- CRI: 90

A WAC Lighting Company

Ledge

A luminous architectural profile and superior construction make this sconce appropriate for transitional and contemporary interiors or exteriors. Mitered silk-screened glass encases a maximum number of LEDs engineered for optimal illumination. Six adaptable sizes allow for cohesive specifications across residential and commercial interior and exterior applications. See pages 140 and 228 for other available finishes and sizes for bath interior and exterior applications.

LED Interior Sconces

Awe-inspiring contemporary forms come to light with LED wall sconces incorporating innovative styling and unique materials such as walnut wood or fine hand-made crystal. Handsomely finished hardware is complemented with miter-cut glass, hand-hammered glass and other defining materials. Understated designs can center a space while other dramatic statement pieces define it. Many styles are carefully offered as ADA compliant for specification in public spaces.

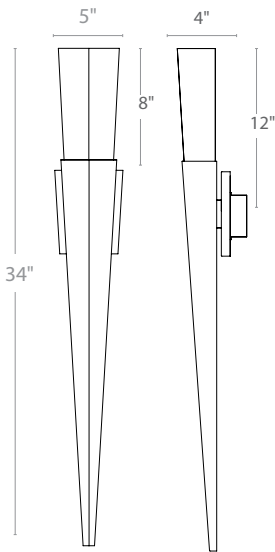

Elessar

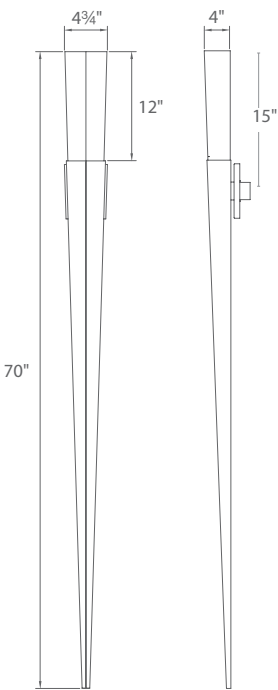

New 34" size

Magically transform a room with dramatic elegance. LEDs are thoughtfully hidden behind the striking polished stainless steel stem to provide dramatic indirect light on the wall behind and spectacularly crowned with solid crystal where the bubbles frozen within project a million sparkles upward. Put this one on the wish list. Available in 2 dramatic sizes

- 304 Stainless steel construction for an enduring polished finish
- ADA compliant, low profile design
- Clear seeded glass
- Projects up and body back lights the wall
- ETL & cETL damp location listed
- Full range dimming when used with compatible dimmers*
- Driver located in standard 4" junction box
- Universal driver (120V-220V-277V)

LED

Interior & Exterior Sconces

The aesthetics of clean, modern designs meet new levels of performance with luminaires that are scaled to complement modern architectural settings, only made possible with superb LED illumination. MODERN FORMS offers a vast variety of LED sconces that can be used throughout modern interiors and exteriors to perfect design continuity. Wall mount luminaires are essential for creating visual interest in accenting architecture, illuminating pathways, and creating gracious entryways with beautiful sculptural designs. IP65 wet listed sconces are available with premium powder coat finishes, as well as certain designs fabricated with 316 marine-grade stainless steel for more saline exterior environments. Many styles within are ADA and Dark Sky compliant, and include varying voltage options from 120V-220V-277V.

Dawn

Energy efficient indirect ambient lighting and down lighting creates bright, beautiful spatial illumination for superb security and architectural accent.

LED

Interior & Exterior Pendants

Distinctive LED interior and exterior MODERN FORMS pendants provide IP65 wet location listed options for outdoor entertaining spaces. Complementary designs to popular wall sconce styles allow for continuity of specification selections and are noted within. LEDs and driver electronics are thoughtfully engineered for years of robust performance protected from the elements.

Warlock

Commanding in its presence and the powerful way it dramatically illuminates spaces below. This imposing metal pendant is apposite for both interior and exterior spaces in either a brushed aluminum finish or bronze.

A WAC Lighting Company

LED Interior & Exterior Ceiling Mounts

Engineered to take advantage of LED arrays, low profile LED luminaires offer a wide array of styles for indoor and outdoor applications free from glare or undesirable lamp imaging. The curated offering of ceiling mounts provides a dramatic range of scale and dimension for general illumination usage in a variety of space requirements. Many styles within are also IP65 rated for wet locations, allowing clean architectural designs with minimalist profiles to continue from indoor applications to outdoor living areas. Expect to find classic contemporary geometric styling with powerful light output for wide applications that meet both residential and commercial requirements. Full range dimming and universal voltage options are available.

Circa

Bright ambient illumination from an inch thick round etched glass that has a ceramic interior that eliminates hot spot. Fits perfectly into handsome finished hardware to match seamlessly with nearly any décor in residential and commercial settings. Advanced LED technology delivers high output and CRI.

11"

LED Interior Pendants & Chandeliers

Eye candy for well-designed spaces.

Clean, luxurious ceiling designs reveal breathtaking and elaborate styles with bold profiles and distinguished finishes. Extraordinary glass and metal silhouettes are suspended as dynamic chandeliers and sculpted pendants. Thoughtfully engineered with hang-straight stems or field-cuttable aircraft cable for an unobtrusive floating effect, all feature pieces within this presentation achieve perfect color rendition and functional LED illumination. Multiple canopy options are available to customize applications, ranging from single monopoints to breathtaking displays of fascinating forms.

Truly modern luminaires designed to be conversation pieces.
