

MODERN  
FORMS  
NEW LUMINAIRES

2018

# MODERN FORMS

**AT MODERN FORMS,  
WE START EVERY CONCEPT  
WHERE THE FUTURE BEGINS.**

Our latest collections of all-LED luminaires seize upon the most cutting-edge technology to light your home, workplace, hotel or restaurant for years to come. Upscale materials like 24K gold leaf, Piastra glass, hand-cut crystal, stainless steel and die-cast aluminum promise to stand the test of time. The aesthetic is distinctly minimalist, with subtle influences of Scandinavian and Mid-Century design—a clean, sophisticated perspective that never goes out of style. Look for new luminaires with lustrous finishes like matte black and aged brass. Look for undulating chandeliers, sleek sconces and versatile vanities that inspire and delight. Look for seductively pure light sourced from the best available state-of-the-art LEDs.

**DISCOVER THE FUTURE OF MODERN ILLUMINATION.**

CHAOS

Like piano keys falling through the air, Chaos freezes a moment in time with breathtaking elegance. Ultra-thin powered aircraft cables stabilize the suspension, holding everything in place with as little visual interference as possible, and each section of this sculptural form is equipped with consistent, highly efficient LEDs for refined illumination throughout. Available in brushed aluminum, aged brass or black. Let chaos reign.

MIES

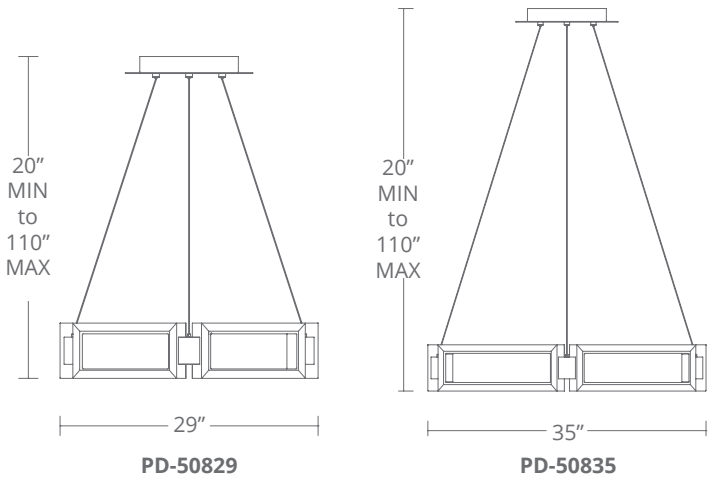

Inspired by Mies van der Rohe, one of the pioneers of modern architecture, this hexagonal chandelier nails the minimalist aesthetic while observing modern décor trends with its aged brass finish. Cutting-edge LED modules bring beautiful light into every setting, while ultra-thin aircraft cables connect the hexagon to a circular canopy for a subtle geometric contrast.

PD-50835

CINEMA

In a luxe aged brass finish, Cinema makes a modern statement that's right in line with the latest trends. Painstakingly V-cut seeded crystal adds understated glamour when it fills with light sourced from high-performance LEDs. With a variety of styles in the family, Cinema creates a matching lighting environment that can pull multiple rooms together.

PD-30826

COSMIC

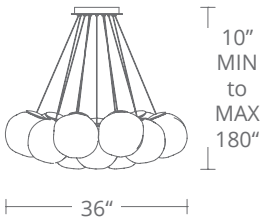

Bring dramatic visual flourish into your restaurant, hotel lobby or event space with Cosmic's massive dazzling art glass spheres—when filled with light, the bubbling and marbling effects of the 7-step art-glassmaking process captivates the room like celestial forms. It's easy to install, it's easy to adjust the length of the suspension, and it's easy to marvel at this spectacular piece, whether you choose the single pendant form or the chandelier.

PD-28801

RIDDLE

Riddle's intricate pattern and joinery is no joke. Our expert craftsmen use a special wet-etching process to create a textural motif that looks like a mash up of Sol Lewitt and the complex geometric shapes of Islamic architecture. Inside, an acrylic diffuser shields the high-performance LED modules to create a glare-free illumination, which peekaboos through the etchings and creates stunning patterns on the nearest surface. A true statement piece with a bold black finish.

PD-62812

PD-62864

FEATURES

- Wet-etched steel with matching black cables and hardware
- Injection-molded acrylic diffuser inside
- **Universal Driver** (120V-220V-277V) within canopy

FIREFLY

This shimmering chandelier captures all the spontaneity and magic of fireflies lighting up a glass jar in summertime, but we're doing a little more here than your everyday Mason jar. Each rod is handcrafted from luxe Piastra glass, an artisanal touch that's surpassed only by the cutting-edge technology of the LEDs inside. Flexible steel arms are easy to assemble and shape for a personalized touch.

FEATURES

- Flexible steel hardware with artisanal Piastra glass
- Pieces can be easily assembled by hand for a customizable shape
- Transformer within canopy
- ELV Dimming
- Color Temperature: 3000K
- CRI: 90
- Rated Life: 50,000\* hours

SCISSORS

A customizable design that can contract or expand into the exact shape you want, Scissors cuts a fine figure in dining rooms, museum display areas, hotels and more. Finely crafted strips of extruded aluminum are affixed without the appearance of any fasteners for a finished appeal, while cutting-edge LEDs create a smooth, even illumination that's consistent across each section of the design.

FEATURES

- Contracts and extends 10°–170° for customizable shape
- Indirect illumination
- Thin aircraft cables provide an ultra-clean look and are easy to adjust for customized suspension height
- Transformer within canopy
- ELV Dimming
- Color Temperature: 3000K
- CRI: 90
- Rated Life: 54,000 hours

DREAM

Smooth, sinuous lines. Powerful yet ambient light. Gracefully engineered design. These are the things Dream is made of. Extruded aluminum gives the chandelier its shape, which flows in five magnificent strips and is gently bowed in the middle like a melancholic sigh. A long rectangular canopy provides a discreet geometric contrast and holds the form in place with four, ultra-thin powered aircraft cables.

FEATURES

- Silica gel diffusers
- Thin aircraft cables provide an ultra-clean look and are easy to adjust for customized suspension height
- Transformer within canopy
- ELV Dimming
- Color Temperature: 3000K
- CRI: 90
- Rated Life: 50,000\* hours
- 277V option available (special order)

RINGS

Breakthrough LED technology and clever engineering details elevate the classic chain motif on this pendant. Each circle features a magnetic closure to create a seamless look, which is echoed by the ultra-thin powered aircraft cables and round canopy. Light radiates from inside each loop, delivering warm, energy-efficient illumination into atriums and living spaces. Choose from one, two, three, or four links in sleek titanium or authoritative black.

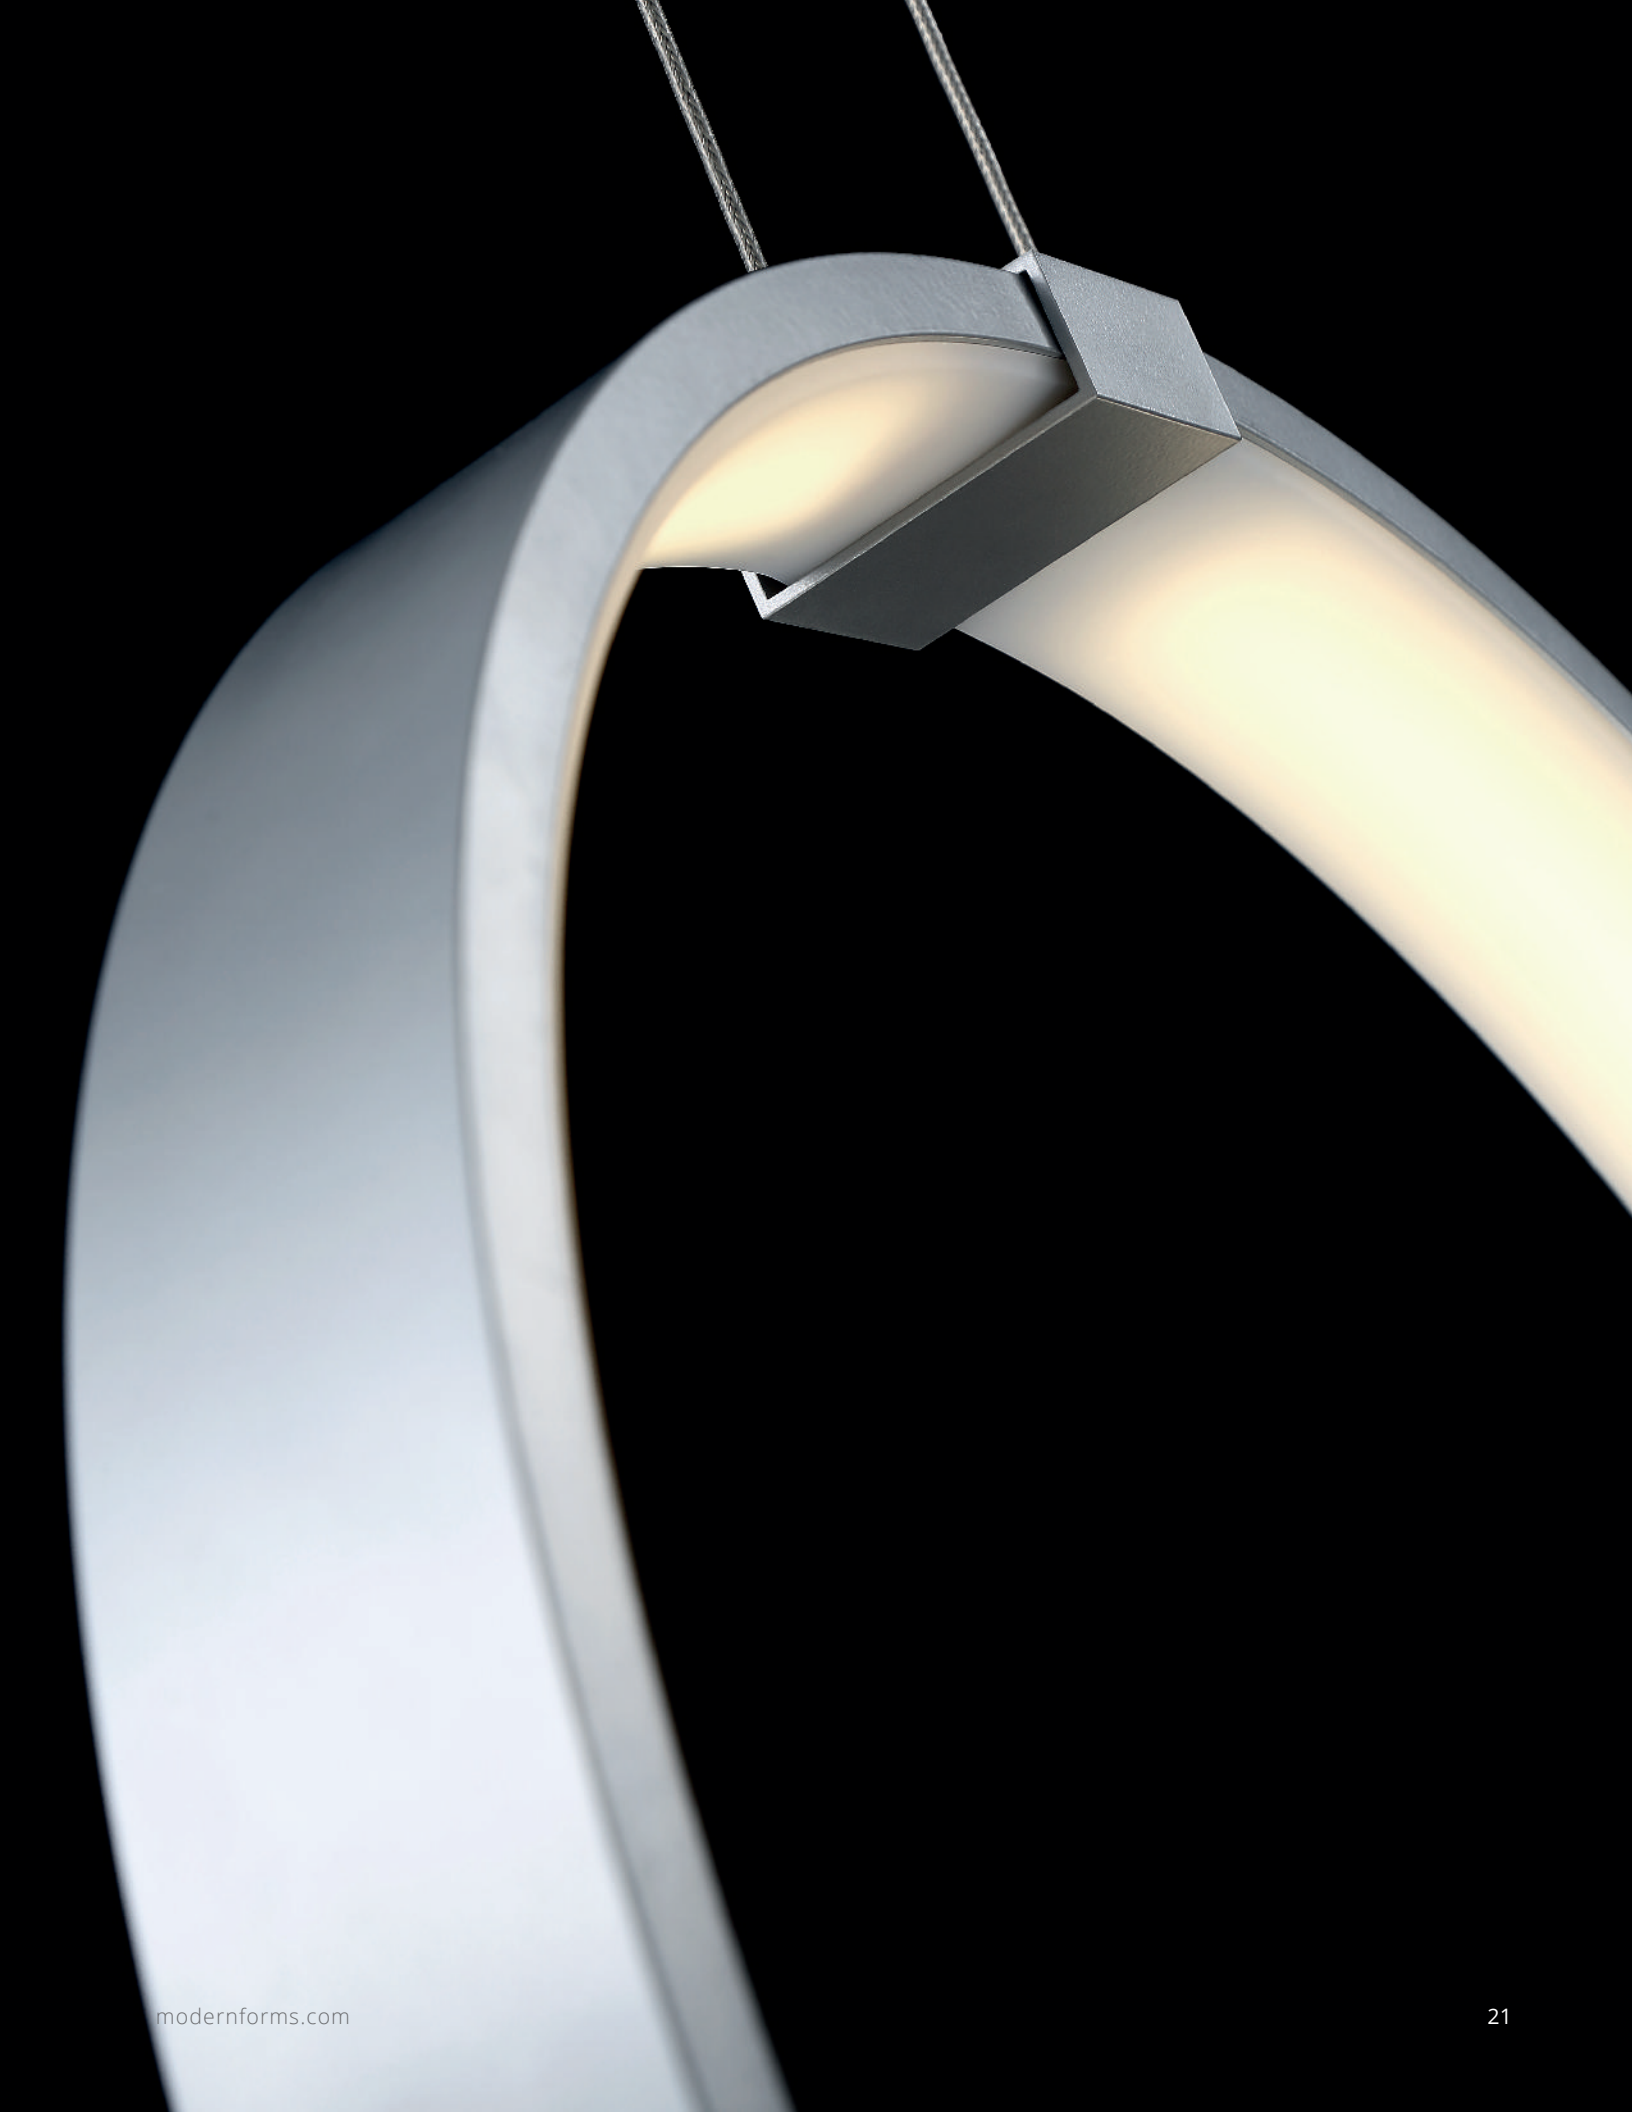

FEATURES

KINETIC New in Black and 28" size

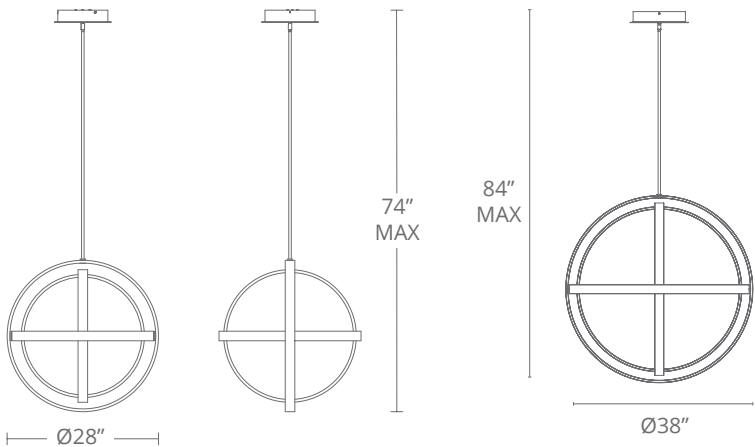

Whether you think of gyroscopes, the atomic structure or da Vinci’s “L’Uomo Vitruviano,” Kinetic has deep roots in science, exemplified by brilliant edge-lit LED panels that broadcast 360-degrees of seamless, even light. Even better, those rings are adjustable for a personalized look. New and noteworthy here is the smaller 28” size and a black finish—but you can still get the 38” and the original titanium too.

See page 32 for larger size

FEATURES

- Silica gel diffusers
- Adjustable rings for customizable form
- **Universal Driver** (120V-220V-277V) within canopy
- 0-10V Dimming
- Color Temperature: 3500K
- CRI: 90
- Rated Life: 84,000 hours

MARIN

Soft, elliptic curves flow through this elegant form and give it a decidedly feminine look that meshes well with the effulgent LED light and powder white finish. While the rounded shapes give a subtle nod to traditional design, this chandelier is unequivocally modern, featuring the finest technology and materials along with an aesthetic that's part minimalist, part sci-fi.

FEATURES

- Silica gel diffusers
- Thin, powered aircraft cables provide an ultra-clean look and are easy to adjust for customized suspension height
- **Universal Driver** (120V-220V-277V) within canopy
- **Title 24 Compliant**

GOTHAM

Perpendicular lines travel up and down on this hexagonal design, forming building-like columns that suggest an austere cityscape. A round canopy adds a geometric accent, while thinly coated wires deliver power and the cleanest look possible. With a beautiful black finish and superior light, Gotham is a modern meditation on monochromatic contrasts and does justice in town or country.

FEATURES

- Silica gel diffusers
- Thin, powered aircraft cables provide an ultra-clean look and are easy to adjust for customized suspension height
- **Universal Driver** (120V-220V-277V) within canopy
- **Title 24 Compliant**

Shown: PD-60834-BK

MEMORY

Using an intricate welding process, artisans smooth out the transitional seams of this Bauhaus-inspired design, giving it a clean look overall, then coating it with an enduring black finish. Behind the steel bars, sleek opalescent rectangles are illuminated by edge-lit LED modules carefully positioned to give the appearance of floating within, creating an unforgettable stark contrast of black and white.

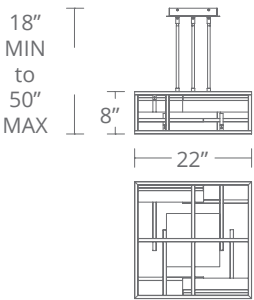

See page 100 for complementary sconce

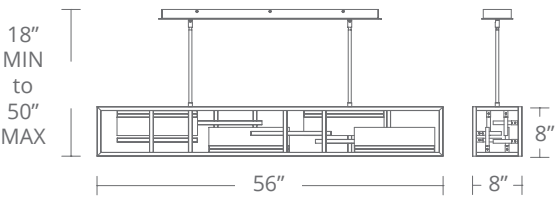

FEATURES

- Intricate welding for rectangular accents
- Edge-lit LED optic panels spread light evenly
- **Universal Driver** (120V-220V-277V) within canopy
- **Title 24 Compliant**
- ELV, 0-10V Dimming
- Color Temperature: 3000K
- CRI: 90

KOOLHAUS

A rich, dark-walnut wood veneer envelops the aluminum channel of LEDs that mysteriously illuminate the thick halo of white acrylic. This expertly crafted chandelier is an elegant octagonal composition inspired by the famous architect Rem Koolhaas. Powerful, energy-efficient LEDs are expertly positioned within the structure for a diffuse illumination that's perfect for dinner parties, restaurants, boutique hotels and office lobbies.

FEATURES

- Dark walnut wood and acrylic diffuser
- LED positioned between wood and diffusers
- Thin, powered aircraft cables provide an ultra-clean look
- **Universal Driver** (120V-220V-277V) within canopy
- **Title 24 Compliant**
- ELV, 0-10V Dimming
- Color Temperature: 3000K
- CRI: 90
- Rated Life: 50,000 hours

PADRÓN

For absolute precision, our craftsmen use a computer-controlled cutting process to shape the aluminum base, then finish the middle section with a rich dark walnut for a fine material contrast. Like the glowing ember of a cigar, a sanded acrylic diffuser at the tip softens the powerful LED illumination and fills the room with warm, even light.

FEATURES

- Precision-cut aluminum and solid dark walnut wood
- Sanded acrylic diffuser
- Thin, powered aircraft cable provides an ultra-clean look and are easy to adjust for customized suspension height
- Optional matching wood canopy included
- **Universal Driver** (120V-220V-277V) installs within canopy

TABLET

Thoughtful lighting design and a minimalist aesthetic join forces in Tablet, an exceptional pendant with a rich dark walnut finish. Using edge-lit LED technology on the inner perimeter, along with a light extraction panel to enhance the brightness, Tablet ensures an even spread of beautiful, ambient illumination day after day and night after night.

FEATURES

- Dark walnut wood
- Edge-lit LED modules with light extraction panel for ambient illumination
- **Universal Driver** (120V-220V-277V) within canopy
- **Title 24 Compliant**
- ELV, 0-10V Dimming

DRIFT

The natural finish of Drift and its linear form perfectly express the tension of minimalist design. LED modules are stationed from end to end and diffused through a strip of tempered, sanded glass, which spreads the light evenly and prevents any glare or hot spots. With its versatile shape and three different lengths, Drift translates across a variety of applications, from residential to commercial office with ease.

MODERN FORMS

CASCADE New Design

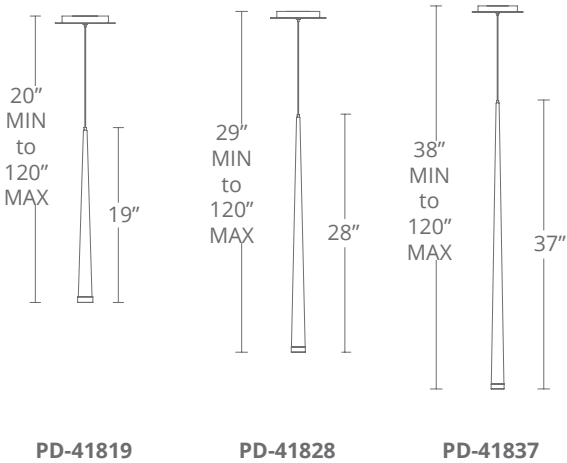

Etched Glass Accent

Suspended alone, in pairs or in multiples as a beautiful chandelier, Cascade captures the imagination and makes an alluring presentation in restaurants, hotel atriums and residences alike. The slim tapered form has a minimalist sensibility that we enhanced with a new flat cap design, crafted in precision-cut and etched glass. Available in a new matte black finish as well as glamorous polished nickel.

FEATURES

- Precision-cut etched glass
- Thin, powered aircraft cables provide an ultra-clean look and are easy to adjust for customized suspension height
- **Universal Driver** (120V-220V-277V) within canopy
- ELV, 0-10V Dimming

METROPOLIS

A diaphanous shade provokes the imagination on this elegant design, creating softer light and a beautiful, sophisticated expression of form. Inside the glowing round diffuser, state-of-the-art LED modules broadcast consistent and enduring illumination. Metropolis handles urban décor with ease, but makes a welcome addition to Scandinavian and Mid-Century styled spaces too.

FEATURES

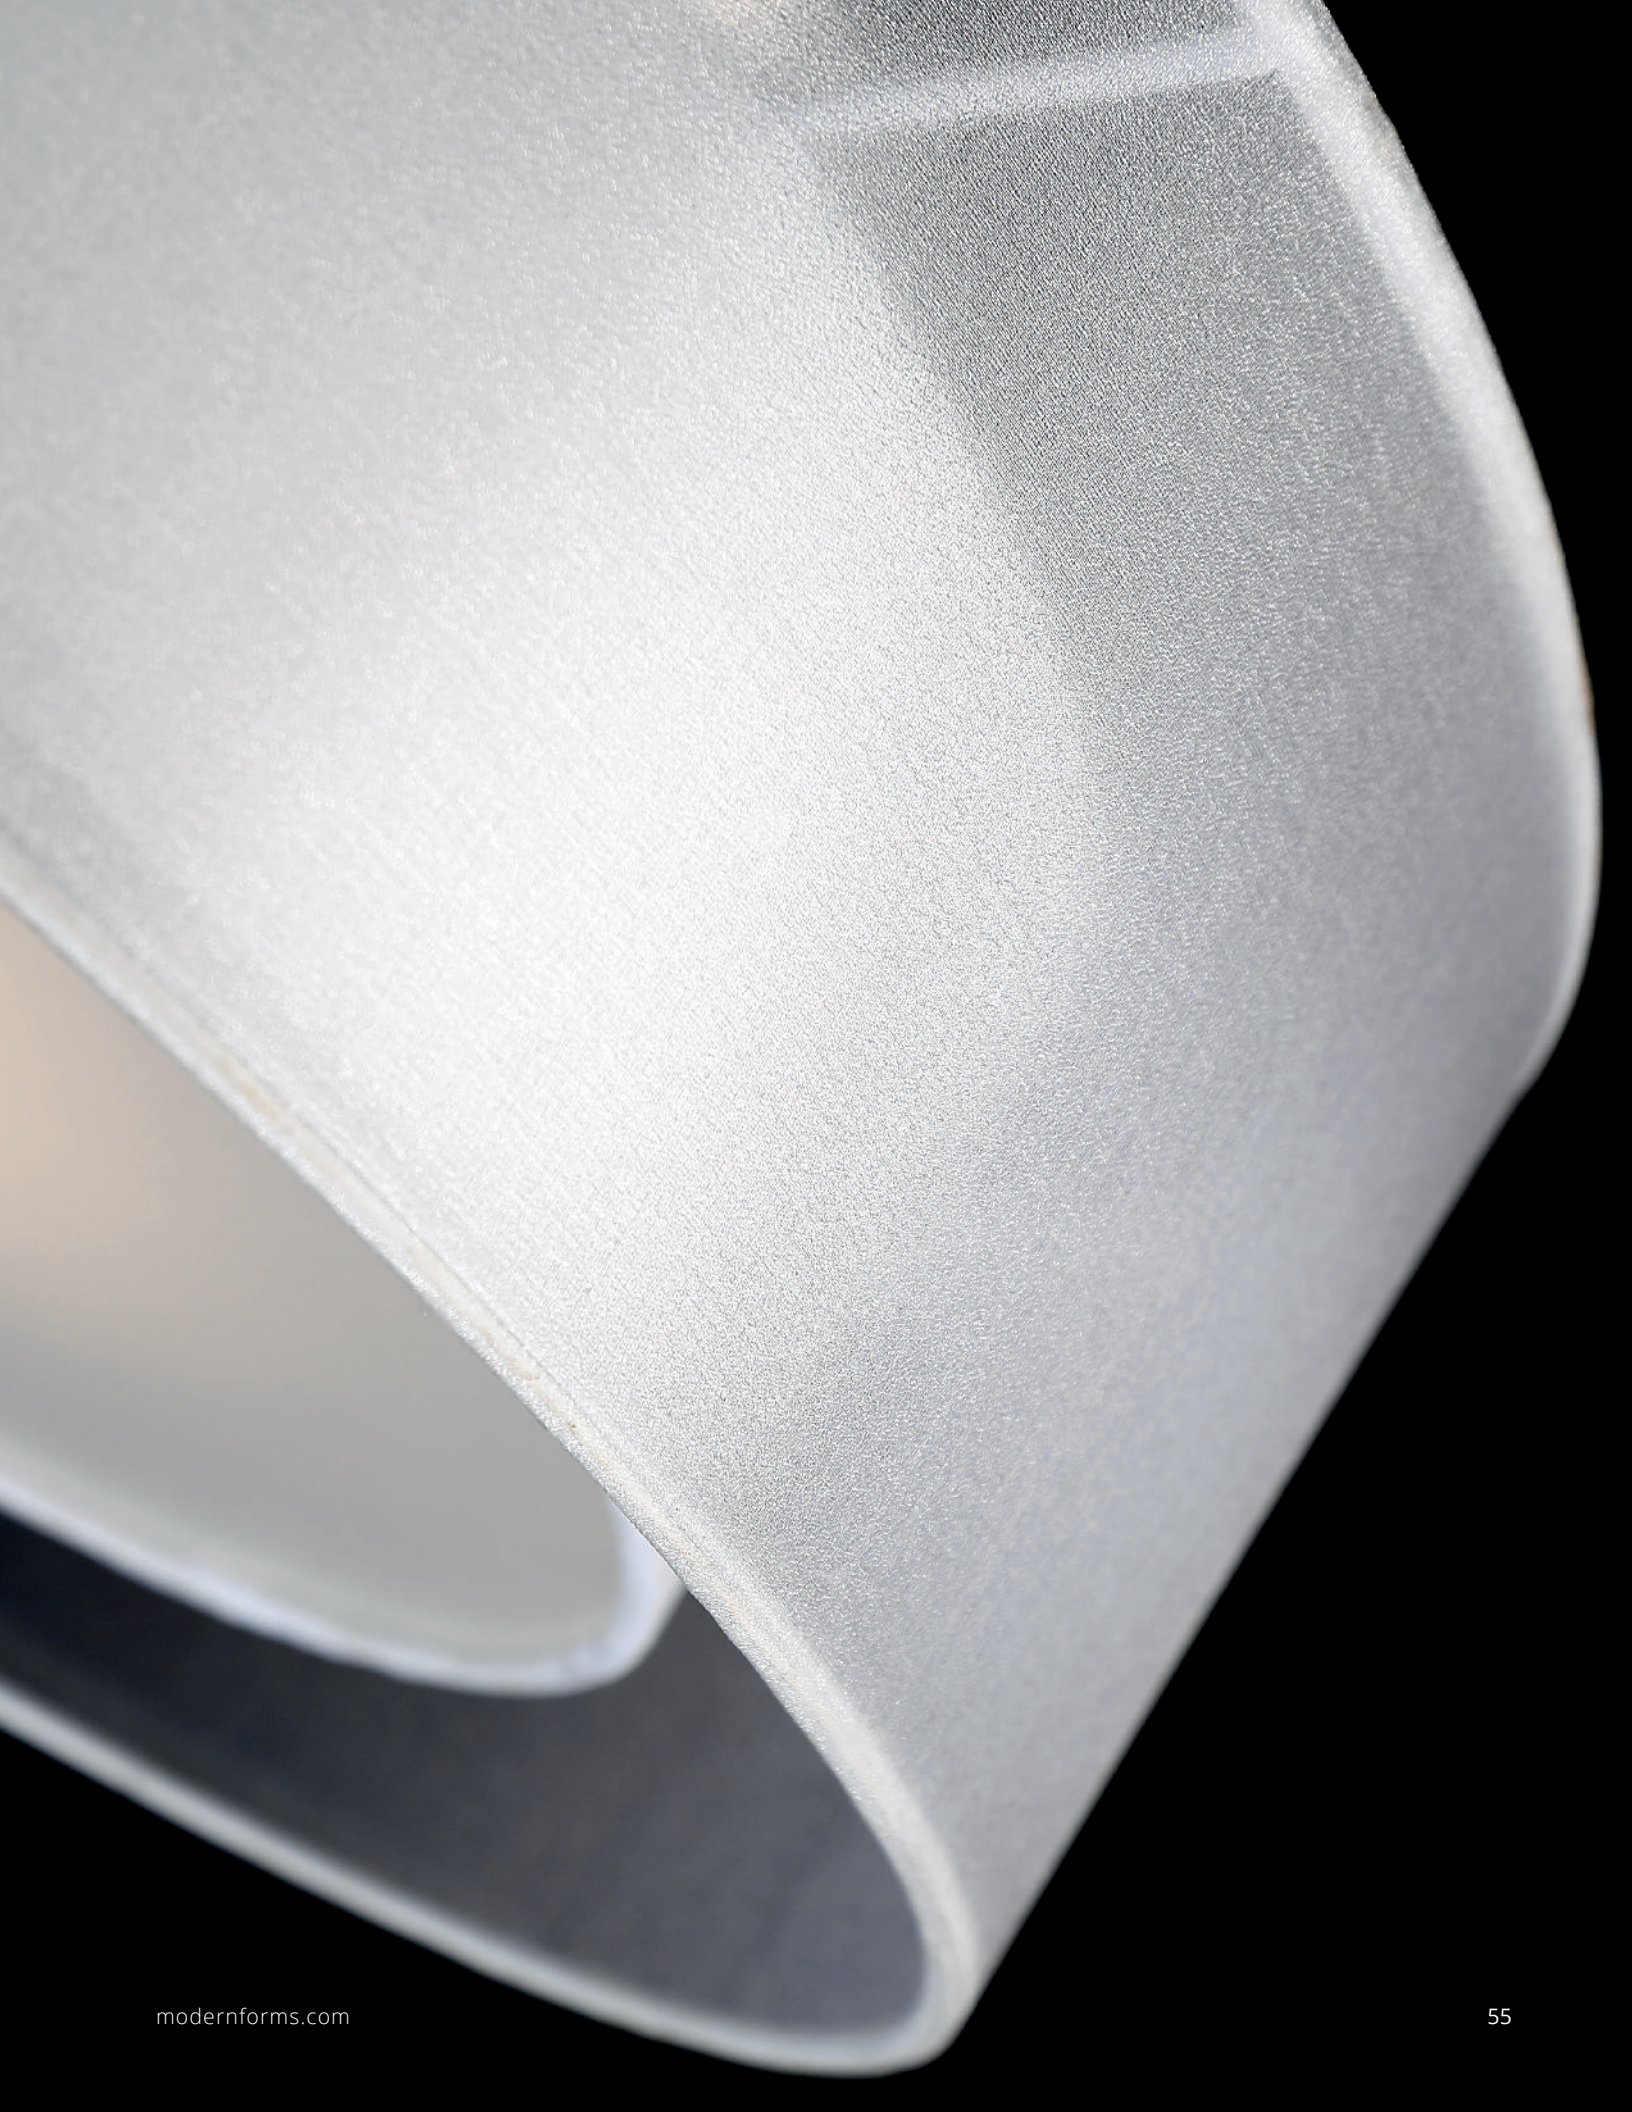

- Clear glass diffuser with fabric shade
- Ultra-bright lumen output
- No transformer or driver needed
- **Title 24 Compliant**
- ELV Dimming
- Color Temperature: 3000K
- CRI: 90
- Rated Life: 54,000 hours
- **PD-16818 & PD-16824:** 277V option available (special order)

ISSA

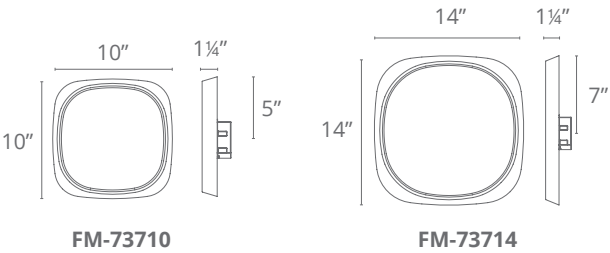

New in Satin Brass

A restrained profile with a sculptural form gives Issa a graceful presence, while a new satin brass finish adds luxe polish to the equation. Artfully crafted in die-cast zinc to create the perfect shape, Issa mounts securely on the wall or ceiling to illuminate evenly and beautifully throughout your restaurant, hotel or home. Also available in brushed nickel.

FEATURES

- Can be mounted on wall or ceiling
- **Universal Driver** (120V-220V-277V) installs in 4" junction box
- ELV Dimming
- ADA Compliant
- Color Temperature: 3000K
- CRI: 90

CIRCA New in Black

This utilitarian family adds a smaller shape and black finish to its arsenal to accommodate more compact spaces like narrow hallways or over stairwell landings. What hasn't changed is the superior craftsmanship and innovative technology. The glass shade is pressed and sanded for pure whiteness, while a second insert is layered inside to extract the optimal amount of light from the high-performance LED modules.

FEATURES

- Two layers pressed, sanded glass with additional vacuum formed optical insert inside
- Can be mounted on wall or ceiling
- No driver or transformer needed
- **Title 24 Compliant**
- Wet Location Listed, IP44
- ELV Dimming
- ADA Compliant
- Color Temperature: 3000K (2700K/3500K special order)

VIGO

Dark walnut wood and mitered glass suggest a subtle influence of art deco, but this luxe design is unequivocally modern with highly efficient, cutting-edge LED modules that produce outstanding illumination. Excellent as a task light in luxury bath—both horizontally over a vanity or vertically as a sconce—Vigo also works well in restaurants, hospitals and hotels because its clean, sophisticated form adapts almost anywhere.

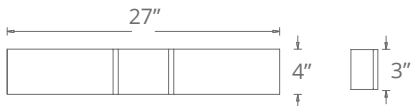

FEATURES

- Dark walnut wood veneer
- Hand-crafted mitered glass diffuser
- Can be mounted vertically or horizontally
- No transformer or driver needed

SABRE     Now available in a 12" size with sliding backplate

Newly designed with an adjustable back plate, the 12" Sabre can slide up and down so you can find the exact position you want, regardless of where the junction box is located. As for the cutting-edge LED and the luxe brushed aluminum finish, nothing's changed there—Sabre is still the high-performing, energy-efficient design you already love and trust.

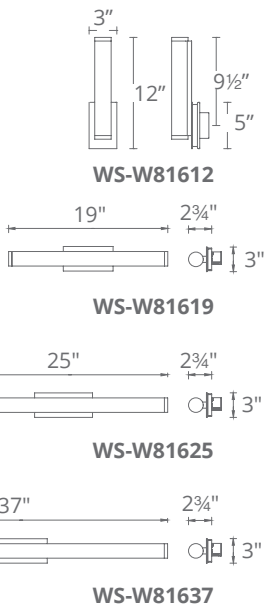

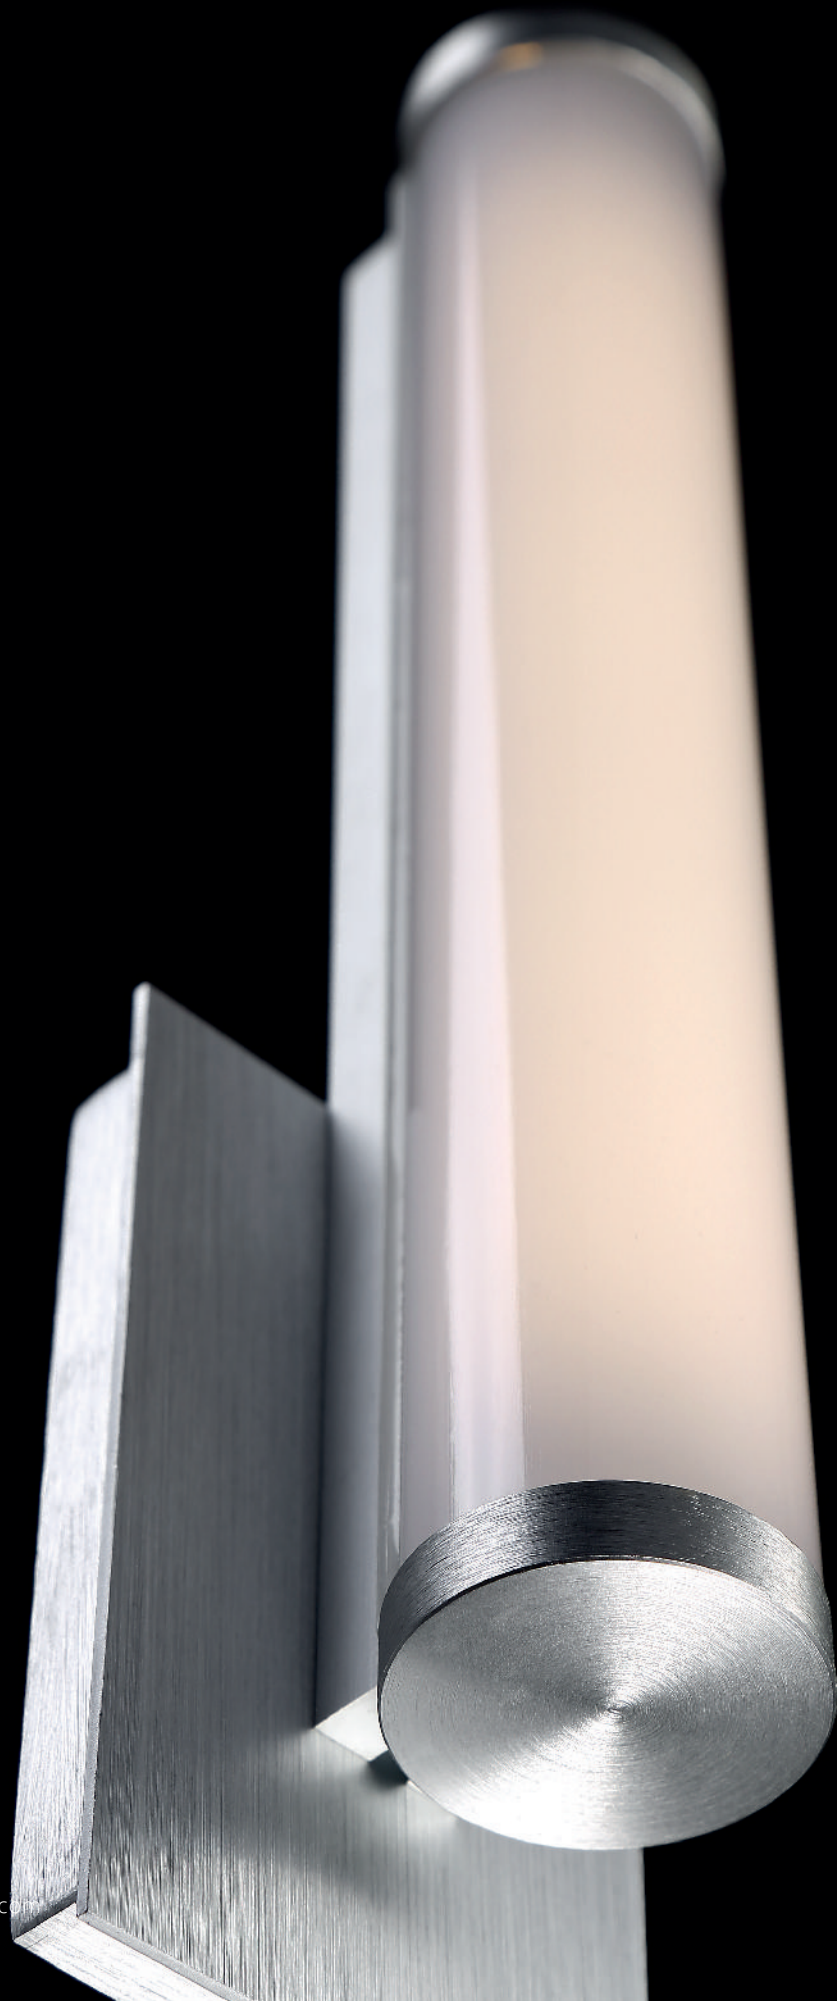

FEATURES

- Extruded acrylic diffuser
- Can be mounted vertically or horizontally
- **WS-W81612:** Adjustable back plate allows for customization
- **Universal Driver** (120V-220V-277V) installs within 2" junction box
- Optional conversion plate included for 4" junction box

MINI LOFT

How do you improve on perfection? In this case, make it smaller. Introducing the petite version of our popular Loft sconce, featuring the same elegant contrasts as its big brother. An oval back plate in fine aluminum offsets the slim diffuser, which is fashioned from co-extruded clear and white acrylic to soften and distribute the light with beautiful precision even in this miniaturized format. Pair Mini-Loft with the larger version for a consistent lighting scheme throughout.

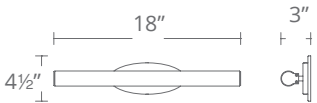

FEATURES

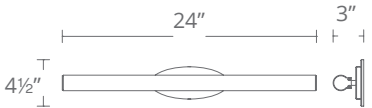

- Co-extruded clear and white acrylic diffuser
- Solid steel back plate
- Can be mounted vertically or horizontally
- **Universal Driver** (120V-220V-277V) installs within 4" junction box
- ELV Dimming

CERES

Finished in aged brass, this indoor sconce adds a touch of understated luxury to your modern décor. And that’s before you even turn on the light, which fills the painstakingly V-cut seeded crystal columns with a mix of understated elegance and spectacular shine. Ceres is a subtle statement piece wherever it’s mounted, a sophisticated accent that will endure over time, thanks to its powerfully rated LEDs and refined style.

FEATURES

- V-cut K5 crystal
- Can be mounted vertically or horizontally
- **Universal Driver** (120V-220V-277V) located in 2" junction box
- Optional conversion plate included for 4" junction box

SCEPTER

A majestic addition to our collection, Scepter is finished in aged brass for a toned-down take on the luxe décor trend. A solid crown of V-cut seeded crystal is affixed to the top for a glamorous refraction, creating a beautiful play of light and shadow on the wall. Meanwhile, the hidden downward-illuminating LED module provides plenty of ambience and enough illumination for spatial orientation in low light areas.

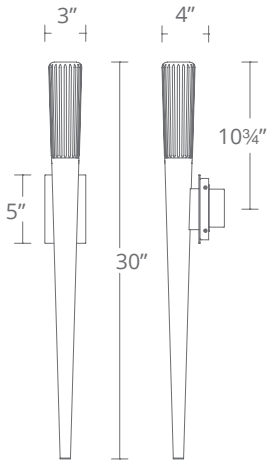

FEATURES

- V-cut K5 crystal
- Ultra-bright lumen output from downlight
- **Universal Driver** (120V-220V-277V) located in 2" junction box
- Optional conversion plate included for 4" junction box

TRIBECA

Hand-leafed in pure gold with a contrast finish in white or bronze, Tribeca adds gilded glamour and the downtown sophistication of New York to your modern living space. A sanded glass diffuser, concealed by the center bridge, softens the up and down illumination, which is sourced from cutting-edge, energy-efficient LED modules inside. Mount it vertically or horizontally, whatever suits your space.

FEATURES

- 24K gold leaf interior
- Up and down illumination
- No transformer or driver needed
- **Title 24 Compliant**
- ELV Dimming
- ADA Compliant
- Color Temperature: 3000K
- CRI: 90
- Rated Life: 54,000 hours
- 277V option available (special order)

MEMORY

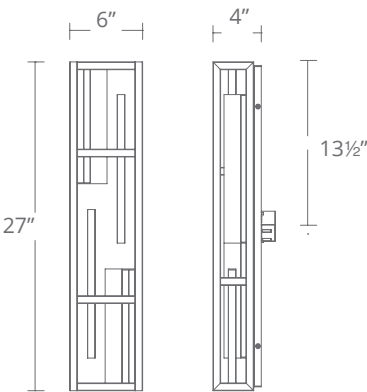

Using an intricate welding process, artisans smooth out the transitional seams of this Bauhaus-inspired design, giving it a clean look overall, then coating it with an enduring black finish. Behind the steel bars, sleek opalescent rectangles are illuminated by edge-lit LED modules carefully positioned to give the appearance of floating within, creating an unforgettable stark contrast of black and white.

See page 38 for complementary pendants

FEATURES

- Intricate welding process for seamless look
- Edge-lit LED optic panels spread light evenly
- Can be mounted vertically, horizontally or on a ceiling
- **Universal Driver** (120V-220V-277V) installs within 2" junction box
- ELV, 0-10V Dimming
- ADA Compliant
- Color Temperature: 3000K
- CRI: 90
- Rated Life: 84,000 hours

ELYSIA

A thin sheet of light rests between two panels of dark walnut wood on this superlative sconce, lending uncommon elegance to your living room, restaurant or hotel environment. The contrast of materials and geometric shapes are surpassed only by the exceptional quality of the LED modules inside, which project beautiful ambient uniform light from any mounting orientation.

FEATURES

- Dark walnut wood
- Sanded acrylic diffuser spreads light evenly
- Tempered glass conceals and protects LED modules inside
- Can be mounted vertically or horizontally
- No transformer or driver needed
- **Title 24 Compliant**
- ELV Dimming
- ADA Compliant
- Color Temperature: 3000K
- CRI: 90
- Rated Life: 54,000 hours
- 277V option available (special order)

# STEM

Finely tuned for precise, even illumination, this simple sconce brings beautiful light into any room you mount it. Crafted from dark walnut wood and with a crisp rectangular diffuser made from sanded acrylic, Stem is much more than the sum of its parts. The formal restraint of the wooden arm braced against the diffuser is pure elegance, matched only by the quality of the light.

## FEATURES

- Dark walnut wood
- Sanded acrylic diffuser spreads light evenly
- Tempered glass conceals and protects LED modules inside
- No transformer or driver needed
- **Title 24 Compliant**
- ELV Dimming
- ADA Compliant
- Color Temperature: 3000K

BLADE

Smaller designs and a darker finish put a new slant on the Blade family of indoor sconces, minimalist designs that look right at home with Scandinavian or contemporary furniture. Engineered for indirect illumination, the sconce creates warm, inviting light that ambiantly surrounds the wooden frame. It is understated luxury powered by LED innovation.

FEATURES

- Light or dark walnut wood
- Tempered glass conceals and protects LED modules inside
- Indirect illumination
- No transformer or driver needed
- **WS-11710 is Title 24 Compliant**
- ADA Compliant
- ELV Dimming

ASGARD

Now available in a dark walnut finish, Asgard’s simple, sophisticated form has all the hallmarks of Scandinavian design, but it fits right in with nearly any modern décor aesthetic. Its rounded, rectilinear shape conceals the light source, which broadcasts up and down through silk-screened glass to avoid glare from any angle.

FEATURES

- Light or dark walnut wood
- Up and down illumination
- **Universal Driver** (120V-220V-277V) within 4" junction box
- ELV, 0-10V Dimming
- ADA Compliant
- Color Temperature: 3000K
- CRI: 90
- Rated Life: 50,000 hours

LANCE

Lance's narrow, tapered form is both chic and discreet in décor-friendly stainless steel, perfect for hotels, hospitals and high-end luxury homes. The proprietary LED modules inside are top of the line, engineered for maximum brightness and superior energy efficiency, while tempered glass softens the indirect illumination for just the right amount of light.

WS-36834

WS-36868

FEATURES

LOGIC

Using an intricate welding process, our artisans ensure this clean, austere cage design is free of seams or joints, then coat it with a weather-resistant black finish for extra durability. The sleek rectangular diffuser inside is powered by ingenious LED modules and contrasts with the aluminum base for a transitional-meets-minimalist style.

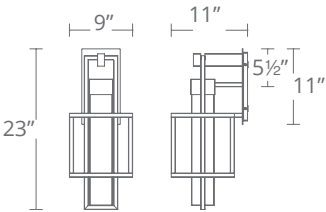

FEATURES

- Mitered glass shade
- Intricately welded for clean, seamless look
- Can be mounted vertically or horizontally
- No transformer or driver needed
- **Title 24 Compliant**
- ELV Dimming
- Wet Location Listed, IP65
- Color Temperature: 3000K

SHADOW

Using advanced edge-lit LED technology, this minimalist luminaire provides smooth, even light whether you place it inside or outside, vertically or horizontally. A UV-grade acrylic diffuser means Shadow won't color over time in the sunlight, while a weather-resistant finish also protects against rain and sun. Available in a matte black finish.

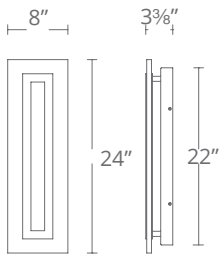

FEATURES

- Edge-lit LED illumination prevents glare and hot spots
- Sanded UV-grade acrylic
- Weather-resistant finish
- Can be mounted vertically or horizontally
- **Universal Driver** (120V-220V-277V)
- **Title 24 Compliant**

ATOM

An outdoor sconce with a retro-future look, Atom is crafted from fine aluminum, two spectacular spheres of laser-etched K9 crystal and the some of the best LEDs in the industry. With a weather-resistant black finish, it adapts to almost any outdoor environment, lighting your way home or accenting a key architectural detail.

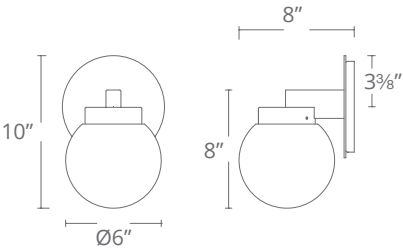

FEATURES

- Solid clear K9 crystal sphere
- Two laser etched spheres illuminate within crystal sphere
- Weather-resistant finish
- No transformer or driver needed
- ELV Dimming
- Wet Location Listed, IP65
- Color Temperature: 3000K
- CRI: 90
- Rated Life: 50,000\* hours

DAWN

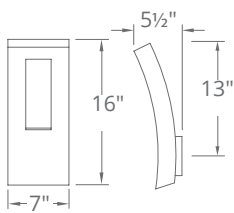

New in Black

From dusk to dawn, there's no better expression of modern minimalism than this outdoor sconce, an elegantly curved geometrical form with a bold cutout window. Powered by energy-efficient LEDs, bright indirect light is perfect for creating architectural accents and illuminated pathways. Now available in weather-resistant black.

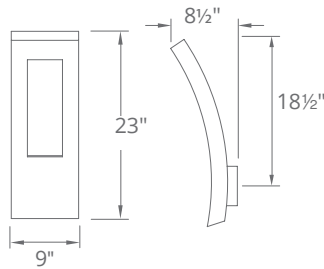

FEATURES

- Up and down illumination
- No transformer or driver needed
- ELV Dimming
- Wet Location Listed, IP65
- Color Temperature: 3000K
- CRI: 85
- Rated Life: 50,000 hours

LITHIUM

A minimal form bolstered by die-cast aluminum hardware, Lithium is the epitome of versatility. An extruded acrylic diffuser softens the light for perfect, long-lasting illumination. The cutting-edge LED array within is factory sealed under tempered glass to allow mounting versatility. Mount it vertically or horizontally, inside or out. It looks good everywhere. Choose from lustrous black or sleek aluminum finishes.

FEATURES

- Extruded acrylic diffuser
- Can be mounted vertically or horizontally
- No transformer or driver needed
- **Title 24 Compliant**
- Wet Location Listed, IP65
- ELV Dimming
- Color Temperature: 3000K or 4000K
- CRI: 90

\*Modern Forms is committed to using the best LEDs available to provide even higher efficacies and improved illumination qualities. While our thermal test results for this luminaire indicate expected lifetimes even better than the previous generation published at 50,000+ hours, certain authorities suggest that we may only report 6X the actual tested hours that may be as low as 36,000 hours for newly introduced LEDs. Please note that these rated hours only represents our estimation of how long you'll be able to enjoy this quality LED luminaire and not the reportable rated hours.

We will update the rated hours when additional test results become available.

---

Many LED luminaire designs within contain patent pending features.

Modern Forms will not hesitate to enforce its intellectual property rights through injunctive relief and seek further relief through damages if it has reason to believe the patents are being infringed upon.

---

Modern Forms retains the right to modify the design of our products at any time as part of the company's continuous improvement program. Please refer to our website for the latest product specifications.
