

# MODERN FORMS

## SMART FANS

## FANS THAT REVOLVE AROUND YOU

Welcome to the future of modern smart fans, designed to adapt to your routine, reduce energy costs and make life simpler all year-round.

No other company in the industry offers the seamless technological innovation, elite craftsmanship and sleek style across such a vast selection—from 26" to 120" fans.

Control everything locally from the wall or anywhere from the palm of your hand—the exclusive Modern Forms app communicates via WiFi and integrates with other smart home devices you already own.

Modern Forms Fans. Smart enough to simplify your life.

# Get Wet

Unlike the competition, ALL of our fans are wet rated and made from highly durable materials. Add weather-resistant finishes, and WiFi controls, and you can turn them on wherever and whenever you want.

Works with:

# Every Fan Is

Rated for interior  
and exterior use

Smart

Control with our app or  
other smart devices you  
own

Tested to comply with  
the strictest UL safety  
standards

DC  
MOTOR

Quieter, reliable and more  
efficient than AC motors

WiFi and RF enabled for  
unlimited wireless control

## The Nuts & Bolts

Energy-efficient DC motors.  
Ultra-powerful LED luminaires.  
Lustrous finishes that complement interiors  
and handle the outdoor elements with ease.  
Every aspect of the Modern Forms smart fan is uncompromising  
in dependability and unsurpassed in performance.

## See the Light

Nearly every smart fan is furnished with an integrated LED luminaire powered by WAC, one of the most innovative and reliable names in lighting. With exceptionally powerful LED packages that create beautifully dimmable light, these luminaires, customized to each fan design, are outstanding in their own right— but packed inside a Modern Forms smart fan? That's just unfair.

# The Year Ahead

## SET UP

Our smart fans are as easy to set up as a typical ceiling fan.

76

76

## SAVE ENERGY

When you connect to smart home devices like ecobee, your fan will coordinate with your HVAC system to make the room feel cooler or warmer.

### First Day

## CONTROL ANYWHERE

Download the free Modern Forms app. It takes two quick steps to connect your fan to your WiFi router. Then you can control your fan from anywhere.

### First Month

## SYNC UP

Integrate with devices you already own—like Amazon Alexa, Google Assistant. That way you can control your fan with voice-activated commands and more.

Your security is important to us. That's why we designed our app so you only have to connect to the cloud once during set-up. After that, you can stay cloud-free if you like and still control the fan with your phone.

### AUTOMATE

Keep it simple with a 7-day weekly calendar or get as granular as you want with a 365-day calendar that accounts for seasonal changes.

### LATE SPRING

In Summer Mode your fan will blow cool air downward—that can make the room feel up to three degrees cooler.

### WINTER TIME

Winter Mode will force warm air trapped at the ceiling to recirculate, driving it down to the room below so you do not have to crank up the heat as high.

### First Year

### USING YOUR FAN IS TEACHING YOUR FAN

Our app can learn your routine and suggest optimized schedules to make your life easier. If you use your fan every day around 8–9:30am and then from around 5–11pm, Adaptive Learning can automate that activity for you regularly.

### VACATION

Whenever you're headed out of town, put on Away Mode. Your fan and luminaire will turn on and off at random intervals so it looks like you're home—even when you're not.

Wet rated so your Smart functions  
work outdoors too

Illuminates your space with high-output  
LEDs that dim to 1%—or better

# Life Made Simpler

Modern Forms smart fans make life simpler every day—  
that's what modern luxury is all about.

**Voice-control** through  
Google Assistant or  
Amazon Alexa

**Control your fan anywhere.**  
The app learns your  
preferences to power the fan  
on its own if you want

Coordinates with your  
smart thermostat to  
save energy automatically

Provides local access for  
instant everyday control

# Get Smart

The Modern Forms app synchronizes seamlessly with smart home devices you already own.

## Nest®

Your smart fan will automatically switch to Summer Mode or Winter Mode when your HVAC changes from cooling to heating

If your Nest smoke detector is alerted, your fans will shut off automatically to help prevent a fire from spreading

Nest®, Nest Learning Thermostat™, Nest Leaf Logo™, Airwave™, Auto-Away™, Nest Protect™, Nest Protect™ smoke + carbon monoxide, Nest Cam™, and the Works with Nest logos are trademarks licensed by Nest Labs, Inc.

## ecobee

Use Assist Mode to conserve energy even more. How does it work?

Your fan will automatically turn on and/or off based on your comfort settings to make you less dependent on heat or air conditioning

Certain smart thermostats have built-in Amazon Alexa Voice Service

ecobee and the ecobee logo are trademarks of Smart WiFi Thermostats by ecobee. All rights reserved.

## Amazon Alexa

Heat Wave: "Hey Alexa, turn my bedroom fan on high."

Dinner Party: "Hey Alexa, dim the lights."

Snow Squall: "Hey Alexa, go to heat mode."

Talk to Amazon's Alexa to enable the device to control your fan and make life easier everyday

Amazon, Alexa and all related logos are trademarks of Amazon.com, Inc. or its affiliates.

## Google Assistant

Forget about looking for a remote. Talk to any Google Assistant enabled device to turn on and off your fan and luminaire, change speeds, and dim the lights.

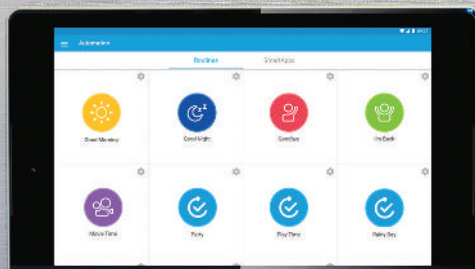

©2017 Google LLC All rights reserved. Google and the Google Logo are registered trademarks of Google LLC.

## Samsung SmartThings

Samsung SmartThings can connect all your smart home devices and apps together into one central location—Modern Forms will be the first smart fan available. Not going to lie, we love being first.

Samsung, SmartThings and all related logos are trademarks of Samsung Electronics Co., Ltd.

# Get Unwired

Every Modern Forms smart fan comes with a Radio Frequency (RF) wall control as well as WiFi-enabled app control technology when you download the Modern Forms app.

Use one or the other—or both—to control your fans. Here's how that works...

## THINK LOCAL: WALL CONTROL

The Modern Forms wall control gives you full control of your fans in the room. Typical RF range is about 30 feet and doesn't require a line of sight. Can't find your phone? Don't want to use WiFi? No problem.

## ACT GLOBAL: WIFI-ENABLED SMART CONTROL

Once you've downloaded the Modern Forms app and connected it to your fans, you can control them from your back porch or anywhere in the world through WiFi. Of course, indoors or outdoors, your fans will need to be positioned within range of your WiFi router—typically, that's about 150 feet.

## ONE OR MANY

We engineered our fans so that you can wire up to 12 fans on the same circuit. Other fan companies can only handle one fan per circuit, two at the most. But with patent-pending Modern Forms smart fan technology, you can wire many more, reducing excess wires to help bring installation costs down and keep any exposed wiring looking cleaner.

# Naturalistic

An emphasis on craftsmanship and natural materials to help create the ultimate sanctuary.

## WOODY

60" CEILING FAN

FR-W1814-60L-GH/WG

60" Woody in Graphite and Weathered Gray

With sturdy blades crafted from solid wood—properly treated to weather the outdoors—this smart fan is rugged refinement to the core. Take control of it with our exclusive Modern Forms app—features like Adaptive Learning make life easier every day by suggesting optimized schedules, while a powerful DC motor inside keeps things running smooth, quiet and up to 70% more efficient than traditional AC fans. Choose a bronze housing with dark walnut wood, matte black with distressed koa or graphite with weathered gray.

## OSPREY

56" CEILING FAN

FR-W1817-56L-GH/WG

56" Osprey in Graphite and Weathered Gray

Pairing wood-finished blades with a polished metal housing is always a good idea, and it gives this fan a classic-meets-contemporary look that's perfect for transitional spaces. Powered by a highly efficient DC motor, the blades run extra quiet and save on energy costs—DC is 70% more efficient than AC. A Fresnel glass lens with frosted interior optically maximizes the light extraction of the powerful LED luminaire to give this smart fan a fully functional luxe touch.

## NAUTILUS

56" CEILING FAN

FR-W1818-56L-OB/DW

56" Nautilus in Oil Rubbed Bronze and Dark Walnut

With its elevated take on nautical style, this smart fan more than delivers on both form and function. Weathered wood-finished blades complement the polish of oil-rubbed bronze or graphite housings, while the WAC-powered LED luminaire radiates beautifully through an optically enhanced Fresnel glass lens. The DC motor keeps the blades running quietly so you'll always hear the sound of the waves—whether they're steps from your porch or in an afternoon daydream.

96" Hydra in Bronze

## HYDRA

80", 96" & 120" CEILING FAN

As its name suggests, Hydra is all about water. Like all of our smart fans, it's wet-rated for outdoor use so you can maintain the continuity of your décor inside and out.

Even with an impressive 120" blade sweep, this epically scaled smart fan moves a massive amount of air without consuming much energy, thanks to a powerful DC motor that runs up to 70% more efficient than AC motors.

Control it all with our exclusive Modern Forms app.

Available in 80 inches, 96 inches and 120 inches.

## Professional Assets

### LOCAL & GLOBAL CONTROL: THE RF & WIFI STORY

With WiFi, the app can control a virtually unlimited number of devices—one, twenty, two hundred...you name it. You can invite users to access the app and give them limited permissions, while maintaining executive control. That makes the Modern Forms smart fan ideal for apartment complexes, hotels and office buildings as well as residences.

**By Invitation Only:** Invite users to control fans via the app—they can customize their own schedules temporarily while you maintain master control.

**Form a Group Mentality:** Create groups of fans to make scheduling more efficient. Organize them by room type, floor number, location or style.

**Plays Well With Others:** The Modern Forms app is designed to help tie into other building management systems that operate on open API platforms.

A radio-frequency (RF) enabled wall control is supplied with every Modern Forms fan. For instantaneous control, RF is best. RF technology doesn't require line of sight and is powerful enough to pass through walls.

**Local Control:** The RF wall control allows for local fan control from a convenient wall switch. Certain fans on the market that use WiFi to control their fans depend upon the reliability of the WiFi signal and Internet access to connect with a cloud.

**No Plan? No Problem:** Control one or all of the fans in a room from any number of wall controls without the need for complicated 3-way or 4-way wiring.

**Best of Both Worlds:** The wall control may be used in conjunction with the Modern Forms app if desired to have both local and global control.

Modern Forms Fans integrate DC motor control inventions developed by WAC to offer additional functionality and address certain challenges common across the industry.

### REINVENTING DC MOTOR CONTROL

**Go Big or Go Home:** Modern Forms DC motors provide the power necessary to quietly and efficiently power the largest diameter designer fans on the market.

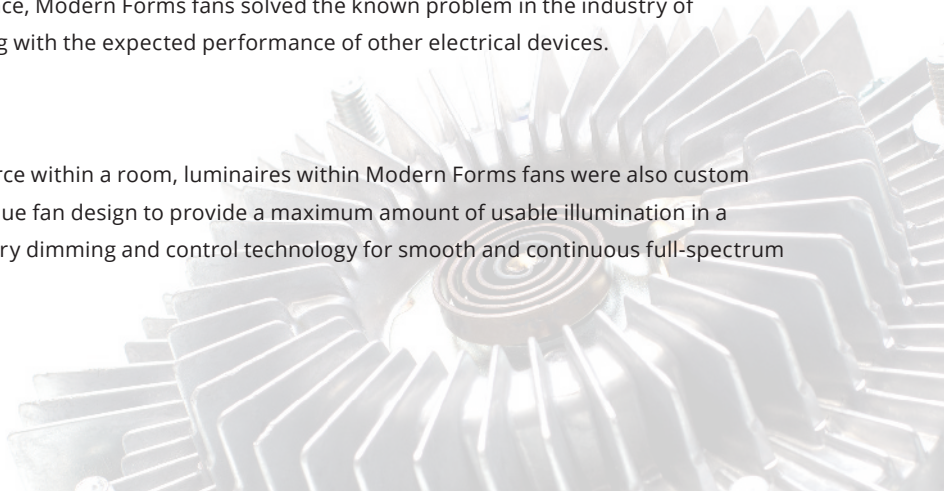

**Sensor-less DC motors:** Proprietary control technologies were developed to control DC motors without the need for optical sensors to improve upon DC motor reliability as sensor lifetimes are known to be shorter than that of DC motors.

**Synchronized Spinning:** Patent pending features permit the problem-free installation of more than one or two fans in series.

**Running Interference:** For a seamless fan experience, Modern Forms fans solved the known problem in the industry of electrical noise generated by motor loads interfering with the expected performance of other electrical devices.

### ILLUMINATING EXPERIENCES

As ceiling fans are also commonly the only light source within a room, luminaires within Modern Forms fans were also custom designed to accommodate the features of each unique fan design to provide a maximum amount of usable illumination in a room. Each luminaire incorporates WAC's proprietary dimming and control technology for smooth and continuous full-spectrum dimming from 100% to 1%.

## Accessories

### RF Wall Control

#### F-WC-WT

Included with each fan  
6 fan speeds  
Dims light to 1%
