At Feiss, we strive to ensure our products generate an emotional connection with you and your living space. Your surroundings reflect your taste and preferences, and we design Feiss products to heighten your feelings of inspiration, satisfaction and completion as you place each fixture in its perfect location.

These same motivations are what drive our design process. We travel the world to understand the unique inspiration each area brings. We are students of fashion design and what new trends may excite you. We admire the work interior designers are doing today and most importantly the significant role they play in educating towards the well designed home and lighting’s very important role in this endeavor.

And what we love to do most of all is carefully craft those inspirations into uniquely beautiful Feiss lighting fixtures, across a wide array of styles and product categories, to help you achieve your design vision.

Thank You,
Your style partners at Feiss
