

**IMPORTANT:**  
TURN OFF THE POWER AT THE MAIN  
FUSE OR CIRCUIT BREAKER BOX  
BEFORE STARTING INSTALLATION.

**Carefully unpack and identify all parts before assembly. Bulbs are not included.**

1. Install glass panels:  
Gently place glass panel in between frame ribs. NOTE: MAKE CERTAIN GLASS PANEL IS PROPERLY HUGGING AND SITTING SECURELY WITHIN FRAME RIBS. Lock glass panel by gently bending tabs located inside of frame ribs and also at top section for frame. NOTE: DO NOT PRESS TABS TOO HARD AGAINST GLASS PANEL. Repeat other glass panels.
2. Install long threaded pipe by screwing securely into bottom of socket assembly. Note correct position of threaded pipe from left diagram.
3. Install font onto top of lattice (without fixture wires) by fastening with small finial from below.
4. Install lattices:  
A. Install lattice (with fixture wires) onto mounting plates located at top of frame by securely fastening with short screws. NOTE: One of the mounting plates has a notch, please make certain fixture wires are safely tucked inside of this notch before fastening the lattice.  
B. Install the second lattice (without fixture wires) by gently sliding down and interlocking onto the first lattice. Lock in place by fastening short screws onto mounting plates.
5. Fasten coupler onto protruding threaded pipe at bottom of frame. Screw threaded stud into large finial. Then slip other end of threaded stud through leaf and then fasten onto the coupler.
6. Install bulbs (not included). See relamping label located near socket area for type and maximum allowed wattage.
7. F2015/4 ONLY: Install two glass plates onto top of socket assembly by placing holes in plates through four screw studs and securing with four ball cap nuts. Do not over tighten.
8. Install suspension arms:  
First, hook bottom end of suspension arm (with fixture wires) onto lattice curl. Then hook top end onto upper center body. Repeat other suspension arms (without fixture wires).
9. Follow enclosed supplement installation instructions for electrical and fixture installation onto house outlet box. If you do not have an outlet box at desired location to attach the fixture than hire a qualified electrician to create one.
