

IMPORTANT
TURN OFF THE POWER AT THE MAIN FUSE
OR CIRCUIT BREAKER BOX
BEFORE STARTING INSTALLATION

Carefully unpack and identify all parts before assembly. Bulbs are not included.

1. Install center column by screwing onto threaded pipe which is located at center top of fixture. Make certain no slack of wire remain in between parts during screwing.
2. Install arms:
 - A. Spread open all arms so they are evenly spaced to each other.
 - B. Install long arm onto middle arm by fastening with ball cap nut. Then fasten same arm onto top center body with another ball cap nut. Repeat other arms.
 - D. Install short arm onto lower arm by fastening with ball cap nut. Then fasten same arm onto middle center body with ball cap screw. Repeat other arms.

NOTE: Extra ball cap nuts can be found in a plastic pouch attached inside of box.

3. Follow enclosed **“Chain Suspended Fixture Installation Instructions”** for electrical and fixture installation onto ceiling outlet box.
4. Install shades onto fitters by fastening counter rings onto threaded sockets.
5. Install bulbs (not included). See relamping label located at socket area for type and maximum allowed wattage.
