

Assembly Instructions For

F2271/8+4 (E) 10/07

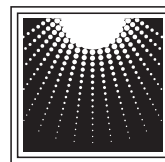

IMPORTANT

TURN OFF THE POWER AT THE MAIN FUSE OR CIRCUIT BREAKER BOX BEFORE STARTING INSTALLATION

Carefully unpack and identify all parts before assembly. Bulb not included.

1. Lower the upper center column and then screw securely into top coupler while removing any slack in wires in between parts.
2. Turn all arms so they are equally spaced apart from each other.
3. Install upper arms:
 - A. Install upper section of arms onto center column by fastening with ball cap screws.
 - B. Install lower section of arms onto middle tier arms by fastening with ball cap screws.
4. Follow enclosed supplement installation instructions for electrical and fixture installation onto house outlet box. If you do not have an outlet box at desired location to attach the fixture than hire a qualified electrician to create one.
5. Slip bobèche and candle tube onto sockets.
6. Install bulb (not included). See relamping label located near socket area for type and maximum allowed wattage.
7. Install shade onto bulbs.
8. Install finial by screwing into bottom of fixture.
9. Hang all crystal glass parts as shown on drawing. **NOTE:** To replace broken crystals extras are included in hardware bag. Replace by gently bending open pin, remove broken crystal, hook new one, then close back pin. Avoid bending pin into sharp angle.
