

**IMPORTANT:**  
**TURN OFF POWER AT MAIN FUSE OR**  
**CIRCUIT BREAKER BOX BEFORE**  
**STARTING INSTALLATION**

**Carefully unpack and identify all parts before beginning assembly.**

1. Lay glass mirror, with u-channels facing up, on a non-abrasive and elevated surface.
2. Lay frame on top of glass mirror by aligning frame holding rods into notches in u-channels. Make certain glass mirror is centered within frame.
3. Lock holding rods into u-channel by attaching cover and then fastening with machine screws (from inner-side of u-channel) and lock washer and hex nut (from outer-side of u-channel). See assembly detail graphic.
4. Install finial to top and bottom of mirror frame as shown on drawing.
5. Hang all crystal glass parts as shown on drawing.
6. **WALL MOUNTING:** Requires two 30lbs. or over capacity picture frame hangers or hooks (not included). Screws are not recommended.
  - A. Decide desired wall location to hang mirror.
  - B. Install 2 picture frame hangers or hooks (not included) on wall with approximately 14" distance to each other at location corresponding with upper holding rod.
